

National Fuel Gas Supply Corporation: Third Revised Volume No. 1
Title Page : Superseded

NATIONAL FUEL GAS SUPPLY CORPORATION
FERC GAS TARIFF

THIRD REVISED VOLUME NO. 1
(Superseding Second Revised Volume No. 1)

Communication Concerning this Tariff
Should be Addressed to:

David W. Reitz, Assistant General Counsel
National Fuel Gas Supply Corporation
10 Lafayette Square
Buffalo, New York 14203

Telephone Number: (716) 857-7949

Facsimile Number: (716) 857-7688

PRELIMINARY STATEMENT

National Fuel Gas Supply Corporation, a Pennsylvania corporation, is a natural gas pipeline company principally engaged in the business of storing and transporting natural gas in interstate commerce, under authorization granted by and subject to the jurisdiction of the Federal Energy Regulatory Commission. Its main pipeline system extends in a northerly and northeasterly direction from the extreme southwestern corner of Pennsylvania through Pennsylvania to the Canadian boundary of New York and easterly to Potter County, Pennsylvania and Steuben County, New York.

Superseding:

1.1 This rate schedule is available for transportation service by National Fuel Gas Supply Corporation (hereinafter called "Transporter") for any person (hereinafter called "Shipper") provided that: (i) capacity is available on all portions of Transporter's system (including primary receipt and delivery points) necessary to provide service on a firm basis throughout the requested term; (ii) Shipper makes a request for service as set forth in Section 31 of the General Terms and Conditions and executes a service agreement for firm transportation service under this FT Rate Schedule in the form contained in this Tariff; and (iii) said service complies with the terms and conditions of this FT Rate Schedule.

1.2 For purposes of determining the availability of service in processing requests for service hereunder, Transporter shall not be required to grant any said request for transportation service: (i) for which capacity is not available on any portion of its system necessary to provide such service on a firm basis; provided, however, that Transporter may not reject a request for service hereunder solely because of the absence of equipment sufficient to provide Transporter with real time measurement, communication and control capability at any delivery point, unless the installation of such equipment would not be operationally feasible, as determined by Transporter; (ii) which could in Transporter's judgment interfere with the integrity of its system, or service to existing, firm transportation or storage customers; (iii) which would require the construction, modification, expansion or acquisition of any facilities; (iv) if Transporter determines that Shipper does not possess sufficient financial stability to make it reasonably likely the service provided hereunder will be paid for on a timely basis according to the criteria set forth in Section 31.2 of the General Terms and Conditions; or (v) if such service does not comply with this FT Rate Schedule or the FT Service Agreement.

1.3 While a determination of capacity on Transporter's system is reported once each year, on March 1st, in accordance with Section 284.12 of the Commission's regulations, determination of available firm capacity on Transporter's system shall be made from time to

FT RATE SCHEDULE

Firm Transportation Service

1. AVAILABILITY (Cont'd.)

time as capacity becomes available or as requests for service are received hereunder. Subject to Sections 10, 11 and 26 of the General Terms and Conditions of this tariff, in processing requests for service hereunder, Transporter shall allocate any available firm capacity to persons which make a valid request under Section 31 of the General Terms and Conditions, on a first come, first served basis determined as of the date Transporter received a valid request.

- 1.4 Transporter and Shipper may add or delete firm primary delivery or receipt points from time to time provided Transporter can provide service at such points on a firm basis, provided, however, that Transporter shall have no obligation to agree to a change in Shipper's primary receipt or delivery point if such change would result in a decrease in Shipper's rate or the revenues received from Shipper under the applicable Transportation Service Agreement. The availability of service at secondary receipt and delivery points is described in Section 2.4 hereof.

- (a) Availability of service at new primary delivery point(s) will be subject to the provisions of this Section 1, and the reassignment of the Shipper's Contract MDTQ, as defined in Section 2.3, among its existing and new primary delivery point(s).
- (b) Availability of service at new primary receipt point(s) will be subject to the provisions of this Section 1, and the reassignment of the Shipper's Contract MDTQ, as defined in Section 2.3, among its existing and new primary receipt points.
- (c) A request for a change in primary receipt or delivery points shall be set forth on Transporter's Service Request Form, however, the information specified in subsections (c), (f), and (g) of Section 31.1 of the General Terms and Conditions may be omitted.

FT RATE SCHEDULE

Firm Transportation Service

1. AVAILABILITY (Cont'd.)

- 1.5 This FT Rate Schedule is available only for transportation to delivery points that are equipped with equipment sufficient to provide Transporter with real time measurement, communication and control capability. All primary receipt points must also be equipped with such equipment.
- 1.6 In addition to the information specified in Section 31 of the General Terms and Conditions, a request for service under this rate schedule shall include the following:
 - (a) Receipt/Delivery Points: The primary receipt and delivery points for the requested transportation together with the name of the entity delivering the gas to Transporter and the name of the entity to receive the gas from Transporter,
 - (b) Gas Quantities: The maximum daily transportation quantity (MDTQ) applicable to each primary receipt and delivery point, stated in dekatherms.

2. APPLICABILITY AND CHARACTER OF SERVICE

- 2.1 The transportation service provided under this FT Rate Schedule shall be performed under Subparts B, G, or K of Part 284 of the Commission's Regulations. This FT Rate Schedule shall apply to all gas transported by Transporter for Shipper pursuant to an FT Service Agreement.
- 2.2 Service hereunder shall be provided on a firm basis. However, service may be interrupted for any of the reasons set out in Section 8 of the General Terms and Conditions hereof, or whenever necessary to maintain gas quality or the integrity of Transporter's system. Service hereunder is also subject to the availability of any necessary upstream or downstream transportation, which shall be the responsibility of Shipper to arrange.

FT RATE SCHEDULE

Firm Transportation Service

2. APPLICABILITY AND CHARACTER OF SERVICE

2.3 Service hereunder shall consist of the receipt by Transporter of natural gas tendered by Shipper for transportation at the primary receipt point(s) specified in the FT Service Agreement, or at secondary receipt points as described in Subsection 2.4 hereof, the transportation of that natural gas through or by use of Transporter's system, and the delivery of that natural gas, after reductions as set out in the FT Service Agreement and Section 3 of this FT Rate Schedule, by Transporter to Shipper or for Shipper's account at the primary delivery points specified in the FT Service Agreement, or at secondary delivery points as described in Subsection 2.4 hereof. Subject to Subsection 2.4 hereof, Transporter shall not be required:

- (a) to accept any gas tendered at any firm primary receipt point in excess of the Maximum Daily Transportation Quantity (MDTQ) specified in the FT Service Agreement for that receipt point,
- (b) to accept quantities of gas in excess of the Contract MDTQ on any day at any combination of receipt points,
- (c) to deliver quantities of gas at any firm primary delivery point in excess of the MDTQ specified in the FT Service Agreement for that delivery point, nor
- (d) to deliver quantities of gas in excess of the Contract MDTQ on any day at any combination of delivery points.

The Contract MDTQ shall be the sum of the MDTQ's applicable to each primary receipt point. The sum of the MDTQ's applicable to each primary delivery point shall also equal the Contract MDTQ, net of applicable fuel and loss retention.

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

2.4 Subject to the provisions of this FT Rate Schedule, Transporter will:

- (a) accept natural gas tendered by Shipper at a secondary receipt point, and
- (b) deliver natural gas for the Shipper's account at a secondary delivery point;

provided that such acceptance or delivery would not impair Transporter's ability to provide firm transportation (to another Shipper from a firm primary receipt point or to a firm primary delivery point) or firm storage service, and provided further that any such delivery point(s) are equipped with measurement, control and communication equipment required for firm delivery points. Use of secondary receipt and delivery points by FT Shippers shall be superior to the use of such points by interruptible shippers.

- 2.5 Subject to Section 11 of the General Terms and Conditions of this tariff, an FT Service Agreement with a primary term of one year or longer shall continue in effect beyond the expiration of the primary term until terminated by either party upon six (6) months written notice to the other.
- 2.6 A shipper receiving service under this FT Rate Schedule shall not lose priority for purposes of this section by the renewal or extension of term of that service.
- 2.7 Service under this FT Rate Schedule shall be provided on a basis that is equal in quality for all gas supplies transported hereunder, whether or not purchased from Transporter.

FT RATE SCHEDULE

Firm Transportation Service

3. RATE

3.1 The maximum and minimum rates for service under this rate schedule are set forth on the currently effective Sheet No. 5 of this tariff, and these rates are incorporated herein by reference. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff.

3.2 For all service rendered under this rate schedule, Shipper shall pay Transporter the sum of the following:

- (a) Reservation Charge. A charge per month per Dth of Contract MDTQ.
- (b) Commodity Charge. A charge per Dth for all gas delivered by Transporter during the billing month, except gas delivered into storage for subsequent transportation by Transporter upon withdrawal.
- (c) Interruptible Gathering Charge. In the event that Transporter transports Shipper's gas through any pipeline facilities, classified as gathering, a charge per Dth as set forth on Sheet No. 5 for all gas transported through such facilities during the billing month. Gas transported through the meters shown in the list updated from time to time on Transporter's electronic bulletin board, and with each general rate filing submitted by Transporter, shall be subject to the interruptible gathering rate.
- (d) An amount to reimburse Transporter for filing fees paid to the Commission associated with the transportation service.
- (e) An amount to reimburse Transporter for the cost of any new facilities installed by Transporter to receive or deliver natural gas for the account of Shipper; including, but not limited, to equipment sufficient to provide Transporter with real time measurement, communication and control capability.
- (f) With respect to services resulting from the assignment of capacity associated with Transporter's Rate Schedule X-58

Effective Date: 04/01/1997 Status: Effective

3. RATE (Cont'd.)

to firm shippers of Transcontinental Gas Pipe Line Corporation, a surcharge to Transporter's reservation and commodity charges (set forth on Sheet No. 5A as "X-58 conversion surcharge"), applicable to services that were converted from Mcf to Dth on the basis of 1.000 Dth per Mcf.

(g) Amortization Surcharge. A charge per month per Dth of Contract MDTQ, provided that the Shippers listed on Sheet No. 238 of Transporter's FERC Gas Tariff, shall be exempt from the Amortization Surcharge.

3.3 Transporter will retain the percent of receipts set forth on Sheet No. 5 as "fuel, loss and company-use retention."

3.4 Except as provided by valid rule or regulation, Transporter is not obligated to offer to transport or transport gas at any rates or allowances less than the maximum rates and allowances specified for this rate schedule on Sheet No. 5; however, nothing precludes Transporter from charging a rate between the maximum and minimum rate or retaining an allowance less than the maximum allowance for service under this Rate Schedule as set forth on Sheet No. 5.

3.5 The applicable maximum and minimum rates for transportation service utilizing a zone of Transporter's Niagara import point project capacity are set forth on the currently effective Sheet No. 5 of this tariff. The Niagara Zone I rate is applicable to shippers with the Niagara import point as the primary receipt point and primary delivery point(s) off the jointly-owned Niagara Spur Loop Line, or any of the following pipelines of Transporter; Line X (North of the Concord Compressor Station); Line U; Line U-M2; Line XM-5-2; Line X-M2; Line NM-44; Line K (North of Station BN-RS-15T); Line K-M2; and Line T (North of Station EN-RM-28T). The Niagara Zone II rate is applicable to the further transportation of gas subject to the Niagara Zone I rate to primary delivery points off Transporter's Lines X, Y-M50 and Y-M2 between Concord, New York

3. RATE (Cont'd)

and Ellisburg, Pennsylvania. The Niagara Zone III rate is applicable to the further transportation of gas subject to the Niagara Zone I and II rates to primary delivery points off Transporter's Line Y-M51, Y-M52, Y-M53 or Y-M7. The maximum and minimum rates applicable to a transportation arrangement with a primary receipt point at the Niagara import point and which utilizes capacity in more than one zone of Transporter's Niagara import point project capacity are the sum of the maximum and minimum rates applicable to each zone. The maximum and minimum rates applicable to a transportation arrangement with a primary receipt point at the Niagara import point and which utilizes capacity in one or more zones of Transporter's Niagara import point project capacity and other capacity of Transporter are the sum of the Transporter's generally applicable maximum and minimum rates applicable under this FT Rate Schedule and the maximum and minimum Zone I Niagara rate.

Shippers with a primary receipt point at the Niagara import point and primary delivery point(s) within Niagara Zone I shall be subject to a surcharge to Transporter's commodity charge (set forth on Sheet No. 5 as "Zone I Secondary Point Surcharge") with respect to gas delivered by Transporter at secondary delivery points that are not within Niagara Zone I.

4. AUTHORIZED OVERRUN TRANSPORTATION

- 4.1 Upon request of Shipper, Transporter may (but is not obligated to) receive, transport, and deliver quantities of natural gas in excess of Shipper's MDTQ on any day under the FT Service Agreement when, in Transporter's judgment, the delivery capacity of its system will permit such receipt, transportation, and delivery without impairing the ability of Transporter to meet its other delivery obligations. Deliveries pursuant to such Authorized Overrun Transportation shall be subordinated to all firm transportation and firm storage services and shall be scheduled, together with Authorized Overrun Transportation under Rate Schedule IT, on a first-come, first-served basis.

4. AUTHORIZED OVERRUN TRANSPORTATION (Cont'd)

4.2 Shipper shall pay Transporter the applicable rate for Authorized Overrun Transportation set forth on Sheet No. 5 of this tariff. Charges under Section 14 of the General Terms and Conditions shall only be applicable to discrepancies from the agreed quantities of Authorized Overrun Transportation.

5. MINIMUM MONTHLY BILL

The minimum monthly bill shall be the Reservation Charge.

6. RECEIPT AND DELIVERY PRESSURE

Shipper shall provide gas to Transporter at pressure sufficient to enter Transporter's pipeline at the point(s) of receipt, provided, however, that such pressure shall not exceed any maximum pressure determined by Transporter from time to time. Transporter shall deliver gas to or for the account of Shipper at the delivery point(s) at the pressure existing in Transporter's system.

7. MINIMUM RECEIPT POINT VOLUMES

Transporter shall not be required to receive or deliver gas at a receipt or delivery point where the total quantity of gas for transportation scheduled is less than that required to operate existing measurement facilities at such point.

8. GENERAL TERMS AND CONDITIONS

All of the General Terms and Conditions of Seller's effective FERC Gas Tariff, Third Revised Volume No. 1, and any revisions thereof that may be proposed and made effective from time to time hereafter, shall apply to and are made a part of this rate schedule.

EFT RATE SCHEDULE

Enhanced Firm Transportation Service

1. AVAILABILITY

- 1.1 This rate schedule is available for transportation service by National Fuel Gas Supply Corporation (hereinafter called "Transporter") for a customer under the former RQ or CD Rate Schedule and a Replacement Shipper obtaining service under this EFT Rate Schedule pursuant to the capacity reallocation procedure set forth in Section 10 of the General Terms and Conditions of this Tariff (hereinafter called "Shipper").
- 1.2 An EFT Shipper may request increases in its Contract Maximum Daily Transportation Quantity or receipt entitlement(s). Transporter shall not be required to grant any said request for increased transportation service (i) for which capacity is not available on any portion of its system necessary to provide such service on a firm basis; (ii) which could in Transporter's judgment interfere with the integrity of its system, or service to existing, firm transportation or firm storage customers; (iii) which would require the construction, modification, expansion or acquisition of any facilities; (iv) if Transporter determines that Shipper does not possess sufficient financial stability to make it reasonably likely the increased service will be paid for on a timely basis according to the criteria set forth in Section 31.2 of the General Terms and Conditions; or (v) if such increased service does not comply with this EFT Rate Schedule or the EFT Service Agreement.
- 1.3 Transporter and Shipper may add or delete firm primary delivery or receipt points from time to time provided Transporter can provide service at such points on a firm basis. The availability of service at secondary receipt and delivery points is described in Section 2.4 hereof.
 - (a) Availability of service at new primary receipt and delivery point(s) will be subject to the provisions of this Section 1.

EFT RATE SCHEDULE
Enhanced Firm Transportation Service

1. AVAILABILITY (Cont'd.)

- (b) A request for a change in primary receipt or delivery points shall be set forth on Transporter's Service Request Form, however, the information specified in subsections (c) and (f) of Section 31.1 of the General Terms and Conditions may be omitted.

1.4 In addition to the information specified in Section 31 of the General Terms and Conditions, a request for service under this rate schedule shall include the following:

- (a) Gas Quantities: The Contract Maximum Daily Transportation Quantity desired and the quantities of gas desired at each receipt and delivery point, including Transporter's storage fields.
- (b) Receipt/Delivery Points: The designated Receipt Point(s) and Delivery Point(s) for the requested transportation together with the name of the entity delivering the gas to Transporter and the name of the entity to receive the gas from Transporter.

2. APPLICABILITY AND CHARACTER OF SERVICE

- 2.1 The transportation service provided under this EFT Rate Schedule shall be performed under Subparts B, G, or K of Part 284 of the Commission's Regulations. This EFT Rate Schedule shall apply to all gas transported by Transporter for Shipper pursuant to an EFT Service Agreement. This EFT Rate Schedule, in conjunction with the ESS Rate Schedule, sets forth the terms and conditions of the "no-notice" transportation service required by Section 284.8(a)(4) of the Commission's Regulations.

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

2.2 Service hereunder shall be provided on a firm basis. However, service may be interrupted for any of the reasons set out in Section 8 of the General Terms and Conditions hereof, or whenever necessary to maintain gas quality or the integrity of Transporter's system. Service hereunder is also subject to the availability of any necessary upstream or downstream transportation, which shall be the responsibility of Shipper to arrange.

2.3 Service hereunder shall consist of the receipt by Transporter of natural gas tendered by Shipper for transportation at the primary receipt point(s) specified in the EFT Service Agreement, or at secondary receipt points as described in Subsection 2.4, the transportation of that natural gas through or by use of Transporter's system, and the delivery of that natural gas, after reductions as set out in the EFT Service Agreement and Section 3 of this EFT Rate Schedule, by Transporter to Shipper or for Shipper's account at the primary delivery points specified in the EFT Service Agreement, or at secondary delivery points as described in Subsection 2.4. Subject to Subsection 2.4 hereof, Transporter shall not be required:

- (a) to accept quantities of gas in excess of the sum of the Contract Maximum Daily Transportation Quantity (MDTQ) on any day at any combination of receipt points and the fuel, loss and company-use retention applicable to such quantity.
- (b) to accept any quantities of gas at receipt points other than storage facilities utilized by Transporter while Shipper has an Excess Storage Balance for purposes of Section 2.13 of the ESS Rate Schedule.
- (c) to accept quantities of gas in excess of the receipt entitlements applicable to a receipt point or combination of receipt points, or

Enhanced Firm Transportation Service

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

(d) to deliver quantities of gas in excess of the Contract MDTQ on any day at any combination of delivery points.

2.4 Subject to the provisions of this EFT Rate Schedule, Transporter will:

(a) accept natural gas tendered by Shipper at a secondary receipt point, and

(b) will deliver natural gas for the Shipper's account at a secondary delivery point,

provided that such acceptance or delivery would not impair Transporter's ability to provide firm transportation (to another Shipper from a firm primary receipt point or to a firm primary delivery point) or firm storage service.

2.5 Subject to Section 11 of the General Terms and Conditions of this tariff, an EFT Service Agreement with a primary term of one year or longer shall continue in effect beyond the expiration of the primary term until terminated by either party upon twelve (12) months written notice to the other.

2.6 A shipper receiving service under this EFT Rate Schedule shall not lose priority for purposes of this section by the renewal or extension of term of that service.

2.7 Service under this EFT Rate Schedule shall be provided on a basis that is equal in quality for all gas supplies transported hereunder, whether or not purchased from Seller.

EFT RATE SCHEDULE

Enhanced Firm Transportation Service

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

- 2.8 Transporter's storage fields may be utilized as a firm primary receipt and delivery point under an EFT Service Agreement. When an EFT Shipper nominates for the delivery of gas into or for the receipt of gas from Transporter's storage fields, Transporter shall determine the distribution of the nominated quantity among its individual storage fields. Transporter's storage fields shall not be considered a firm primary receipt or delivery point for purposes of Section 2.4 of this EFT Rate Schedule.
- 2.9 With regard to receipts of gas from an upstream pipeline source that is comprised of more than one receipt point (e.g., Tennessee Gas Pipeline Company, Zone 4 points) an EFT Shipper shall nominate for a receipt by Transporter of a stated quantity of gas from such source. Transporter shall determine the distribution of the nominated quantity among the receipt points within the zone.
- 2.10 Transporter shall not be required to accept nominations from Shipper for an arrangement of receipts and deliveries among receipt and delivery points that would conflict with the Operating Protocol for EFT Service set forth at Section 6 hereof. In addition, Transporter may reject nominations, require revised nominations, issue operational flow orders or take such other action as is reasonably required to:
- (a) protect any of Transporter's facilities from excessive pressures or other similar threats to the integrity of its system,
 - (b) permit Transporter to fulfill the delivery obligations set forth in the Operating Protocol for EFT Service set forth at Section 6 hereof, and its other firm obligations, and
 - (c) permit Transporter to inject or withdraw gas from individual storage fields in a manner consistent with the performance characteristics of such fields.

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

Transporter shall, as soon as is reasonably practicable, notify the Commission and post on its Electronic Bulletin Board the circumstances and justifications for any actions taken pursuant to the second sentence of this Subsection 2.10.

- 2.11 Until a notification is received from Transporter that Shipper must bring receipts and deliveries into contemporaneous balance, and for twelve (12) hours thereafter, Shipper may receive gas in excess of the quantities scheduled for delivery by Transporter to Shipper up to the difference between Shipper's Contract MDTQ and the quantities scheduled for delivery by Transporter to Shipper. Within forty-eight (48) hours of receipt of notification from Transporter that Shipper must return the quantities of gas advanced by Transporter to Shipper pursuant to the foregoing sentence, Shipper must return such quantities of gas. An EFT Shipper shall not be entitled to receive gas under this Section 2.11 within such notification period. Section 15 of the General Terms and Conditions shall apply when Shipper fails to return such quantities of gas as required by Transporter. Availability of gas to all EFT Shippers under this Section 2.11 on any day shall be limited to the difference between sixty-five one hundredths of one percent (0.65%) of Transporter's total storage inventory (including top and base gas) on such day and scheduled withdrawals from Transporter's storage facilities under the ESS, SS-1 and SS-2 Rate Schedules.

3. RATE

- 3.1 The maximum and minimum rates for service under this rate schedule are set forth on the currently effective Sheet No. 5 of this tariff, and these rates are incorporated herein by reference. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff.
- 3.2 For all service rendered under this rate schedule, Shipper shall pay Transporter the sum of the following:

3. RATE

- (a) Reservation Charge. A charge per month per Dth of Contract MDTQ.
- (b) Commodity Charge. A charge per Dth for all gas delivered by Transporter during the billing month, except gas delivered into storage for subsequent transportation by Transporter upon withdrawal.
- (c) Firm Gathering ("FG") Reservation Charge. A charge per month per Dth of FG Reservation determinants. Where the FG Reservation Charge is applicable, the Reservation Charge shall be reduced by subtracting the FG Reservation determinants from the Contract MDTQ. The FG Reservation determinations are as follows:

National Fuel Gas Distribution Corporation: 13,437 Dth/Day

- (d) Firm Gathering ("FG") Commodity Charge. A charge per Dth for all gas delivered by Transporter during the billing month at delivery points located on Transporter's gathering facilities to Shippers subject to the FG Reservation Charge. The FG Commodity Charge shall apply in lieu of the Commodity Charge with respect to such deliveries. The maximum IG Charge shall apply to any overruns of the Shipper's maximum monthly reservation determinants.
- (e) Interruptible Gathering ("IG") Charge. In the event that Transporter transports Shipper's gas through any pipeline facilities, classified as gathering, a charge per Dth as set forth on Sheet No. 5 for all gas transported through such facilities during the billing month. Gas transported through the meters shown in the list updated from time to time on Transporter's electronic bulletin board, and with each general rate filing submitted by Transporter, shall be subject to the interruptible gathering rate.

EFT RATE SCHEDULE

Enhanced Firm Transportation Service

6. OPERATING PROTOCOL FOR EFT SERVICE (Cont'd.)

Transporter has heretofore provided service to "scattered accounts" of sales customers. Transporter shall deliver natural gas to "scattered account" customers at the point(s) of delivery at the pressure existing in Transporter's facilities from time to time, provided however, Transporter shall not be obligated to deliver gas at pressures greater than the delivery pressure which has historically existed at the "scattered account" meter(s).

6.3 Receipt Requirements

- (a) At the following delivery points to National Fuel Gas Distribution Corporation, requirements are served by upstream pipeline connections which feed directly to the Shipper's market. In these specific cases, Transporter has no facilities through which to replace or supplement natural gas deliveries, and the Shipper is restricted to the pressures and quantities available from such upstream pipelines, with whom National Fuel Gas Distribution Corporation will contract directly for transportation service. Transporter's delivery obligation at such points will also be limited by station capacities, which are listed below.

Interconnecting Pipeline	Meter Name/Location	Pressure		
		Requirement Meter	Capacity PSIG	DT/Day
CNG Transmission	Belmont	60185	125	2060

6.4 Storage Requirements

This section sets forth the range of injection and withdrawal capabilities associated with each individual storage field operated by Transporter. Transporter's ability to transport quantities of gas between Transporter's storages under the EFT Rate Schedule and particular receipt and delivery points may be constrained by these field specific capabilities.

In addition, during the injection cycle specific storages can only be filled from a single interconnection to an upstream pipeline. In New York; Nashville, Perrysburg, Sheridan and Colden storages can only be filled from the facilities of Tennessee Gas Pipeline Company. Similarly, in Pennsylvania; Hebron Storage can only be filled from Tennessee Gas Pipeline Company.

Therefore, EFT Shippers who have upstream capacity on Tennessee Gas Pipeline Company will have to arrange for quantities to be scheduled on Tennessee Gas Pipeline Company for injection into these specific storages.

EFT RATE SCHEDULE

Enhanced Firm Transportation Service

7. GENERAL TERMS AND CONDITIONS

All of the General Terms and Conditions of Seller's effective FERC Gas Tariff, Third Revised Volume No. 1, and any revisions thereof that may be proposed and made effective from time to time hereafter, shall apply to and are made a part of this rate schedule.

8. ADJUSTMENTS OF RESERVATION CHARGES

- 8.1 If, due to an occurrence of force majeure, for which notice has been provided by Transporter pursuant to Section 8 of the General Terms and Conditions, Transporter is unable, for a period in excess of ten consecutive days, to tender for delivery at one or more of the primary delivery points a quantity of gas nominated by Shipper for delivery at such point(s) up to the lesser of (i) the quantity which Transporter is obligated by the EFT Service Agreement to deliver to or for the account of Shipper at such primary delivery point(s), or (ii) Shipper's Contract Maximum Transportation Quantity ("Deficiency Quantities"), the reservation charges applicable to Shipper under this EFT Rate Schedule shall be proportionately reduced, as set forth in Section 8.5, beginning on the eleventh day of such occurrence, except as set forth in Section 8.4.
- 8.2 If transporter declines, pursuant to Section 13.2 of the General Terms and Conditions, to schedule nominated deliveries to or for the account of Shipper, at one or more primary delivery points, of quantities that are less than the lesser of (i) the quantity which Transporter is obligated by the EFT Service Agreement to deliver to or for the account of Shipper at such primary delivery point(s) or (ii) Shipper's Contract Maximum Transportation Quantity ("Deficiency Quantities"), and such action relates to scheduled maintenance, repair or replacement activities with regard to its facilities, with respect to which Transporter did not provide at least thirty (30) days' notice to Shipper prior to the commencement of such activities, the reservation charges applicable under this EFT Rate Schedule shall be proportionately reduced, as set forth in Section 8.5, except as set forth in Section 8.4.

RATE SCHEDULE EFT

Enhanced Firm Transportation Service

8. ADJUSTMENTS OF RESERVATION CHARGES (Cont'd)

- 8.3 If Transporter rejects Shipper's nomination, requires a revised nomination, issues an operational flow order or takes other action required under the circumstances set forth in subsections (a), (b) and (c) of Section 2.10 of this EFT Rate Schedule, and as a result of such action Transporter does not tender for delivery at one or more primary delivery points a quantity of gas equal to or greater than 95% of the lesser of (i) the quantity which Transporter is obligated by the EFT Service Agreement to deliver to or for the account of Shipper at such primary delivery point(s) or (ii) Shipper's Contract Maximum Transportation Quantity ("Deficiency Quantities"), the reservation charges applicable to Shipper under this EFT Rate Schedule shall be proportionately reduced, as set forth in Section 8.5, except as set forth in Section 8.4. This Section 8.3 shall not authorize a reduction in reservation charges where Transporter rejects a nomination from Shipper for an arrangement of receipts and deliveries among receipt and delivery points that would conflict with the Operating Protocol for EFT Service set forth at Section 6 hereof.
- 8.4 With regard to the circumstances described in Sections 8.1, 8.2 and 8.3, reservation charges shall not be reduced with respect to any Deficiency Quantities that Transporter is able to deliver to or for the account of Shipper at other primary or secondary points, that will permit such quantities to reach Shipper's intended market or downstream transporter.
- 8.5 Where reservation charge reductions are authorized as described above, Shipper's reservation charges shall be reduced by an amount equal to the daily equivalent of the reservation charge, multiplied by the quotient obtained by dividing any Deficiency Quantities by Shipper's Contract Maximum Daily Quantity.

9.2 Delivery Pressure Requirements

Transporter shall deliver natural gas to Shipper at the point(s) of delivery at the pressures sufficient to effect deliveries of gas to Shipper, provided, however, that Transporter shall not be obligated to deliver gas at pressures greater than the delivery pressure obligations stated in this Section 9.2, subject to any provisions in this tariff which may limit these obligations.

Transporter has heretofore provided service to "scattered accounts" of sales customers. Transporter shall deliver natural gas to "scattered account" customers at the point(s) of delivery at the pressure existing in Transporter's facilities from time to time, provided however, Transporter shall not be obligated to deliver gas at pressures greater than the delivery pressure which has historically existed at the "scattered account" meter(s).

9.3 Receipt Requirements

- (a) At the following delivery points to National Fuel Gas Distribution Corporation, requirements are served by upstream pipeline connections which feed directly to the Shipper's market. In these specific cases, Transporter has no facilities through which to replace or supplement natural gas deliveries, and the Shipper is restricted to the pressures and quantities available from such upstream pipelines, with whom National Fuel Gas Distribution Corporation will contract directly for transportation service. Transporter's delivery obligation at such points will also be limited by station capacities, which are listed below.

INTERCONNECTING PIPELINE	METER NAME/LOCATION	PRESSURE REQUIREMENT CAPACITY

- (b) Transporter's delivery pressure obligations set forth in Section 9.2 are subject to its Shippers meeting the receipt pressure requirements set forth in this Section 9.3(b). National would attempt, but would not be obligated, to maintain the delivery pressures set forth in Section 9.2 if receipt pressures fall below the requirements set forth in this Section 9.3(b).

9.4 Storage Requirements (Cont'd.)

Transporter. Transporter's ability to transport quantities of gas between Transporter's storages under the EFT Rate Schedule and particular receipt and delivery points may be constrained by these field specific capabilities.

In addition, during the injection cycle specific storages can only be filled from a single interconnection to an upstream pipeline. In New York; Nashville, Perrysburg, Sheridan and Colden storages can only be filled from the facilities of Tennessee Gas Pipeline Company. Similarly, in Pennsylvania; Hebron Storage can only be filled from Tennessee Gas Pipeline Company.

Therefore, EFT Shippers who have upstream capacity on Tennessee Gas Pipeline Company will have to arrange for quantities to be scheduled on Tennessee Gas Pipeline Company for injection into these specific storages.

10. GENERAL TERMS AND CONDITIONS

All of the General Terms and Conditions of Seller's effective FERC Gas Tariff, Third Revised Volume No. 1, and any revisions thereof that may be proposed and made effective from time to time hereafter, shall apply to and are made a part of this rate schedule.

11. ADJUSTMENTS OF RESERVATION CHARGES

- 11.1 If, due to an occurrence of force majeure, for which notice has been provided by Transporter pursuant to Section 8 of the General Terms and Conditions, Transporter is unable, for a period in excess of ten consecutive days, to tender for delivery at one or more of the primary delivery points a quantity of gas nominated by Shipper for delivery at such point(s) up to the lesser of (i) the quantity which Transporter is obligated by the EFT Service Agreement to deliver to or for the account of Shipper at such primary delivery point(s), or (ii) Shipper's Contract Maximum Transportation Quantity ("Deficiency Quantities"), the reservation charges applicable to Shipper under this EFT Rate Schedule shall be proportionately reduced, as set forth in Section 11.5, beginning on the eleventh day of such occurrence, except as set forth in Section 11.4.
- 11.2 If transporter declines, pursuant to Section 13.2 of the General Terms and Conditions, to schedule nominated deliveries to or for the account of Shipper, at one or more primary delivery points,

11. ADJUSTMENTS OF RESERVATION CHARGES (Cont'd)

of quantities that are less than the lesser of (i) the quantity which Transporter is obligated by the EFT Service Agreement to deliver to or for the account of Shipper at such primary delivery point(s) or (ii) Shipper's Contract Maximum Transportation Quantity ("Deficiency Quantities"), and such action relates to scheduled maintenance, repair or replacement activities with regard to its facilities, with respect to which Transporter did not provide at least thirty (30) days' notice to Shipper prior to the commencement of such activities, the reservation charges applicable under this EFT Rate Schedule shall be proportionately reduced, as set forth in Section 11.5, except as set forth in Section 11.4.

11.3 If Transporter rejects Shipper's nomination, requires a revised nomination, issues an operational flow order or takes other action required under the circumstances set forth in subsections (a), (b) and (c) of Section 2.10 of this EFT Rate Schedule, and as a result of such action Transporter does not tender for delivery at one or more primary delivery points a quantity of gas equal to or greater than 95% of the lesser of (i) the quantity which Transporter is obligated by the EFT Service Agreement to deliver to or for the account of Shipper at such primary delivery point(s) or (ii) Shipper's Contract Maximum Transportation Quantity ("Deficiency Quantities"), the reservation charges applicable to Shipper under this EFT Rate Schedule shall be proportionately reduced, as set forth in Section 11.5, except as set forth in Section 11.4. This Section 11.3 shall not authorize a reduction in reservation charges where Transporter rejects a nomination from Shipper for an arrangement of receipts and deliveries among receipt and delivery points that would conflict with the Operating Protocol for EFT Service set forth at Section 9 hereof.

11.4 With regard to the circumstances described in Sections 11.1, 11.2 and 11.3, reservation charges shall not be reduced with respect to any Deficiency Quantities that Transporter is able to deliver to or for the account of Shipper at other primary or secondary points, that will permit such quantities to reach Shipper's intended market or downstream transporter.

FST RATE SCHEDULE

Firm Storage Transportation Service

1. AVAILABILITY

- 1.1 This rate schedule is available for transportation service by National Fuel Gas Supply Corporation (hereinafter called "Transporter"), associated with a firm storage service provided by Transporter or a provider of storage service that interconnects with Transporter, for any person (hereinafter called "Shipper") provided that: (i) capacity is available on all portions of Transporter's system (including primary receipt and delivery points) necessary to provide service on a firm basis throughout the requested term; (ii) Shipper makes a request for service as set forth in Section 31 of the General Terms & Conditions and executes a service agreement for firm transportation service under this FST Rate Schedule in the form contained in this Tariff; and (iii) said service complies with the terms and conditions of this FST Rate Schedule.
- 1.2 For purposes of determining the availability of service in processing requests for service hereunder, Transporter shall not be required to grant any said request for transportation service: (i) for which capacity is not available on any portion of its system necessary to provide such service on a firm basis; provided, however, that Transporter may not reject a request for service hereunder solely because of the absence of equipment sufficient to provide Transporter with real time measurement, communication and control capability at any delivery point, unless the installation of such equipment would not be operationally feasible, as determined by Transporter; (ii) which could in Transporter's judgment interfere with the integrity of its system, or service to existing, firm transportation or storage customers; (iii) which would require the construction, modification, expansion or acquisition of any facilities; (iv) if Transporter determines that Shipper does not possess sufficient financial stability to make it reasonably likely the service provided hereunder will be paid for on a timely basis according to the criteria set forth in Section 31.2 of the General Terms and Conditions; or (v) if such service does not comply with this FST Rate Schedule or the FST Service Agreement.

FST RATE SCHEDULE

Firm Storage Transportation Service

1. AVAILABILITY (Cont'd.)

- 1.3 While a determination of capacity on Transporter's system is reported once each year, on March 1st, in accordance with Section 284.12 of the Commission's regulations, determination of available firm capacity on Transporter's system shall be made from time to time as capacity becomes available or as requests for service are received hereunder. Subject to Sections 10, 11 and 26 of the General Terms and Conditions of this tariff, in processing requests for service hereunder, Transporter shall allocate any available firm capacity to persons which make a valid request under Section 31 of the General Terms and Conditions, on a first come, first served basis determined as of the date Transporter received a valid request.
- 1.4 Transporter and Shipper may add or delete firm primary delivery or receipt points (injection or withdrawal) from time to time provided Transporter can provide service at such points on a firm basis. The availability of service at secondary receipt and delivery points is described in Section 2.4 hereof.
 - (a) Availability of service at new primary injection or withdrawal delivery point(s) will be subject to the provisions of this Section 1, and the reassignment of the Shipper's Contract MDITQ or MDWTQ, as defined in Section 2.4, among its existing and new primary delivery point(s).
 - (b) Availability of service at new primary injection or withdrawal receipt point(s) will be subject to the provisions of this Section 1, and the reassignment of the Shipper's Contract MDITQ or MDWTQ, as defined in Section 2.4, among its existing and new primary receipt points.
 - (c) A request for a change in primary receipt or delivery points (injection or withdrawal) shall be set forth on Transporter's Service Request Form, however, the information specified in subsections (c), and (f) of Section 31.1 of the General Terms and Conditions may be omitted.

FST RATE SCHEDULE

Firm Storage Transportation Service

1. AVAILABILITY (Cont'd.)

- 1.5 This FST Rate Schedule is available only for transportation to delivery points that are equipped with equipment sufficient to provide Transporter with real time measurement, communication and control capability. All primary receipt points must also be equipped with such equipment. Notwithstanding the foregoing, "Transporter's Storage Facilities" may be designated as a primary injection receipt point and a primary withdrawal delivery point under an FST Service Agreement.
- 1.6 In addition to the information specified in Section 31 of the General Terms and Conditions of this tariff, a request for service under this rate schedule shall include the following:
 - (a) Receipt/Delivery Points: The primary receipt and delivery points (injection and withdrawal) for the requested transportation together with the name of the entity delivering the gas to Transporter and the name of the entity to receive the gas from Transporter.
 - (b) Gas Quantities: The maximum daily injection quantity (MDITQ) applicable to each primary injection receipt and delivery point, and the maximum daily withdrawal transportation quantity (MDWTQ) applicable to each primary withdrawal receipt and delivery point stated in dekatherms.

2. APPLICABILITY AND CHARACTER OF SERVICE

- 2.1 The transportation service provided under this FST Rate Schedule shall be performed under Subparts B, G, or K of Part 284 of the Commission's Regulations. This FST Rate Schedule shall apply to all gas transported by Transporter for Shipper pursuant to an FST Service Agreement.

Effective Date: 04/01/1997 Status: Effective

FST RATE SCHEDULE

Firm Storage Transportation Service

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

2.2 Service hereunder shall be provided on a firm basis. However, service may be interrupted for any of the reasons set out in Section 8 of the General Terms and Conditions hereof, or whenever necessary to maintain gas quality or the integrity of Transporter's system. Service hereunder is also subject to the availability of any necessary upstream or downstream transportation, which shall be the responsibility of Shipper to arrange.

2.3 Service hereunder shall consist of:

- (a) the receipt by Transporter of natural gas tendered by Shipper for transportation at the primary injection receipt point(s) specified in the FST Service Agreement, or at secondary receipt points as described in Subsection 2.5, the transportation of that natural gas through or by use of Transporter's system, and the delivery of that natural gas, after reductions as set out in the FST Service Agreement and Section 3 of this FST Rate Schedule, by Transporter to Shipper or for Shipper's account at the primary injection delivery point(s) specified in the FST Service Agreement, or at secondary delivery points as described in Subsection 2.5 hereof; and
- (b) the receipt by Transporter of natural gas tendered by Shipper for transportation at the primary withdrawal receipt point(s) specified in the FST Service Agreement, or at secondary receipt point(s) as described in Subsection 2.5, the transportation of that natural gas through or by use of Transporter's system, and the delivery of that natural gas, after reductions as set out in the FST Service Agreement and Section 3 of this FST Rate Schedule, by Transporter to Shipper or for Shipper's account at the primary withdrawal delivery point(s) specified in the FST Service Agreement, or at secondary delivery points as specified in Subsection 2.5 hereof.

Firm Storage Transportation Service

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

2.4 Subject to Subsection 2.5 hereof, Transporter shall not be required:

- (a) to accept any quantities of gas tendered at any firm primary injection receipt point in excess of the Maximum Daily Injection Transportation Quantity (MDITQ) specified in the FST Service Agreement for that injection receipt point;
- (b) to accept any quantities of gas tendered at any firm primary withdrawal receipt point in excess of the Maximum Daily Withdrawal Transportation Quantity (MDWTQ) specified in the FST Service Agreement for that withdrawal receipt point;
- (c) to accept quantities of gas in excess of the Contract MDWTQ on any day at any combination of receipt points;
- (d) to deliver quantities of gas at any firm primary injection delivery point in excess of the MDITQ specified in the FST Service Agreement for that injection delivery point;
- (e) to deliver quantities of gas at any firm primary withdrawal delivery point in excess of the MDWTQ specified in the FST Service Agreement for that withdrawal delivery point; nor
- (f) to deliver quantities of gas in excess of the Contract MDWTQ on any day at any combination of delivery points.

The Contract MDITQ shall be the sum of the MDITQ's applicable to each primary injection receipt point. The sum of the MDITQ's applicable to each primary injection delivery point shall also equal the Contract MDITQ, net of applicable fuel and loss retention. The Contract MDWTQ shall be the sum of the MDWTQ's applicable to each primary withdrawal receipt point. The sum of the MDWTQ's applicable to each primary withdrawal delivery point shall also equal the contract MDWTQ.

FST RATE SCHEDULE

Firm Storage Transportation Service

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

2.5 Subject to the provisions of this FST Rate Schedule, Transporter will:

- (a) accept natural gas tendered by Shipper at a secondary receipt point, and
- (b) deliver natural gas for the Shipper's account at a secondary delivery point;

provided that such acceptance or delivery would not impair Transporter's ability to provide firm transportation (to another Shipper from a firm primary receipt point or to a firm primary delivery point) or firm storage service, and provided further that any such delivery point(s) are equipped with measurement, control and communication equipment required for firm delivery points. Use of secondary receipt and delivery points by FST Shippers shall be superior to the use of such points by interruptible shippers.

2.6 Subject to Section 11 of the General Terms and Conditions of this tariff, an FST Service Agreement with a primary term of one year or longer shall continue in effect beyond the expiration of the primary term until terminated by either party upon six (6) months written notice to the other.

2.7 A shipper receiving service under this FST Rate Schedule shall not lose priority for purposes of this section by the renewal or extension of term of that service.

2.8 Service under this FST Rate Schedule shall be provided on a basis that is equal in quality for all gas supplies transported hereunder, whether or not purchased from Transporter.

2.9 When an FST shipper nominates for the delivery of gas into or for the receipt of gas from Transporter's storage fields, Transporter shall determine the distribution of the nominated quantity among its individual storage fields.

FST RATE SCHEDULE

Firm Storage Transportation Service

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

2.10 Transporter may reject nominations, require revised nominations, issue operational flow orders or take such other action as is reasonably required to:

- (a) protect any of Transporter's facilities from excessive pressure or other similar threats to the integrity of its system, and
- (b) permit Transporter to inject or withdraw gas from individual storage fields in a manner consistent with the performance characteristics of such fields.

Transporter shall, as soon as is reasonably practicable, notify the Commission and post on its Electronic Bulletin Board the circumstances and justifications for any actions taken pursuant to this Subsection 2.10.

2.11 Notwithstanding Section 13 of the General Terms and Conditions, an FST Shipper may change its nomination effective on any hour of the day to reflect changes in quantities to be delivered or received under its transportation contract(s) with pipelines that are physically interconnected with Transporter which are associated with service at FST receipt or delivery points, by notifying Transporter and the interconnecting transporter one hour in advance.

Nominations changed pursuant to this Section 2.11 shall be accepted by Transporter only to the extent that Transporter's scheduling of such change will not reduce the scheduled quantities of another firm shipper.

Firm Storage Transportation Service

3. RATE

- 3.1 The maximum and minimum rates for deliveries are set forth on the currently effective Sheet No. 5A of this tariff, and these rates are incorporated herein by reference. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff.
- 3.2 For all service rendered under this rate schedule, Shipper shall pay Transporter the sum of the following:
- (a) Reservation Charge. A charge per month per Dth of Contract MDWTQ.
 - (b) Commodity Charge. A charge per Dth for all gas delivered by Transporter during the billing month.
 - (c) Interruptible Gathering ("IG") Charge. In the event that Transporter transports Shipper's gas through any pipeline facilities, classified as gathering, a charge per Dth as set forth on Sheet No. 5A for all gas transported through such facilities during the billing month. Gas transported through the meters shown in the list updated from time to time on Transporter's electronic bulletin board, and with each general rate filing submitted by Transporter, shall be subject to the interruptible gathering rate.
 - (d) An amount to reimburse Transporter for filing fees paid to the Commission associated with the transportation service.
 - (e) An amount to reimburse Transporter for the cost of any new facilities installed by Transporter to receive or deliver natural gas for the account of Shipper; including, but not limited, to equipment sufficient to provide Transporter with real time measurement, communication and control capability.

FST RATE SCHEDULE

Firm Storage Transportation Service

3. RATE (Cont'd)

(f) With respect to services resulting from the assignment of capacity associated with Transporter's Rate Schedule X-58 to firm shippers of Transcontinental Gas Pipe Line Corporation, a surcharge to Transporter's reservation and commodity charges (set forth on Sheet No. 5A as "X-58 conversion surcharge"), applicable to services that were converted from Mcf to Dth on the basis of 1.000 Dth per Mcf.

(g) Amortization Surcharge. A charge per month per Dth of Contract MDTQ, provided that the Shippers listed on Sheet No. 238 of Transporter's FERC Gas Tariff shall be exempt from the Amortization Surcharge.

3.3 Transporter will retain the percent of receipts set forth on Sheet No. 5A as "fuel, loss and company-use retention".

3.4 Except as provided by valid rule or regulation, Transporter is not obligated to offer to transport or transport gas at any rates or allowances less than the maximum rates and allowances specified for this rate schedule on Sheet No. 5A; however, nothing precludes Transporter from charging a rate between the maximum and minimum rate or retaining an allowance less than the maximum allowance for service under this Rate Schedule as set forth on Sheet No. 5A.

4. AUTHORIZED OVERRUN TRANSPORTATION

4.1 Upon request of Shipper, Transporter may (but is not obligated to) receive, transport, and deliver quantities of natural gas in excess of Shipper's Contract MDWTQ or MDITQ any day under the FST Service Agreement when, in Transporter's judgment, the delivery capacity of its system will permit such receipt, transportation, and delivery without impairing the ability of Transporter to meet its other delivery obligations. Deliveries pursuant to such Authorized Overrun Transportation shall be subordinated to all firm transportation and firm storage services and shall be scheduled,

together with Authorized Overrun Transportation under Rate Schedule IT, on a first-come, first-served basis.

- 4.2 Shipper shall pay Transporter the applicable rate for Authorized Overrun Transportation set forth on Sheet No. 5A of this tariff. Charges under Section 14 of the General Terms and Conditions shall only be applicable to discrepancies from the agreed quantities of Authorized Overrun Transportation.

5. MINIMUM MONTHLY BILL

The minimum monthly bill shall be the Reservation Charge.

6. RECEIPT AND DELIVERY PRESSURE

Shipper shall provide gas to Transporter at pressure sufficient to enter Transporter's pipeline at the point(s) of receipt, provided, however, that such pressure shall not exceed any maximum pressure determined by Transporter from time to time. Transporter shall deliver gas to or for the account of Shipper at the delivery point(s) at the pressure existing in Transporter's system.

7. MINIMUM RECEIPT POINT VOLUMES

Transporter shall not be required to receive or deliver gas at a receipt or delivery point where the total quantity of gas for transportation scheduled is less than that required to operate existing measurement facilities at such point.

8. GENERAL TERMS AND CONDITIONS

All of the General Terms and Conditions of Seller's effective FERC Gas Tariff, Third Revised Volume No. 1, and any revisions thereof that may be proposed and made effective from time to time hereafter, shall apply to and are made a part of this rate schedule.

3. QUALIFICATION FOR SERVICE (Cont'd.)

Upon receipt of such written notification by Shipper, Shipper's request will remain entered for an additional six (6) months, and for additional six (6) month periods thereafter provided that Shipper notifies Transporter in writing, prior to the conclusion of a six (6) month period, that it requests an extension.

- (b) An FST Service Agreement (or, when tendered by Transporter in response to a request for firm service that requires the construction of facilities, a precedent agreement) shall be executed by Shipper and Transporter following Transporter's acceptance in writing of Shipper's request for service. Subject to Section 26 of the General Terms and Conditions of this tariff, in the event the FST Service Agreement, or precedent agreement is not executed by Shipper and returned within thirty days after Transporter tendered the contract, Transporter shall consider the request for service invalid.

4. RATE

- 4.1 The maximum and minimum rates for service under this rate schedule are set forth on the currently effective Sheet No. 5 of this tariff, and these rates are incorporated herein by reference. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff.
- 4.2 For all service rendered under this rate schedule, Shipper shall pay Transporter the sum of the following:
 - (a) Reservation Charge. A charge per month per Dth of Contract MDWTQ.
 - (b) Commodity Charge. A charge per Dth for all gas delivered by Transporter during the billing month.

IT RATE SCHEDULE

Interruptible Transportation Service

1. AVAILABILITY

- 1.1 This IT Rate Schedule is available for interruptible transportation service by National Fuel Gas Supply Corporation (hereafter called "Transporter") on behalf of any person (hereinafter called "Shipper") to the extent that: (i) capacity is available on Transporter's system from time to time; (ii) Shipper makes a request for service as set forth in Section 31 of the General Terms and Conditions and executes a service agreement for interruptible transportation under this IT Rate Schedule in the form contained in this Tariff; and (iii) such service complies with the terms and conditions of this IT Rate Schedule.
- 1.2 In addition to the information specified in Section 31 of the General Terms and Conditions of this tariff, a request for service under this rate schedule shall include the following:
 - (a) Gas Quantities: The maximum daily transportation quantity (MDTQ) applicable to each Receipt Point(s) and Delivery Point(s) stated in dekatherms.
 - (b) Receipt/Delivery Point: The designated Receipt Point(s) and Delivery Point(s) for the requested transportation together with the name of the entity delivering the gas to Transporter and the name of the entity to receive the gas from Transporter.

2. APPLICABILITY AND CHARACTER OF SERVICE

- 2.1 The transportation service provided under this IT Rate Schedule shall be performed under Subparts B,G,H, or K of Part 284 of the Commission's Regulations. This IT Rate Schedule shall apply to all gas transported by Transporter for Shipper pursuant to an IT Service Agreement.

IAS RATE SCHEDULE

INTERRUPTIBLE ADVANCE SERVICE

1. AVAILABILITY

- 1.1 This IAS Rate Schedule is available for interruptible advance service by National Fuel Gas Supply Corporation (hereinafter called "Transporter") on behalf of any person (hereinafter called "Shipper") to the extent that: (i) excess deliverability is available from storage fields utilized by Transporter, as determined by Transporter in its sole discretion from time to time; (ii) Shipper makes a request for service as set forth in Section 31 of the General Terms and Conditions and executes a service agreement for interruptible advance service under this IAS Rate Schedule in the form contained in this Tariff; (iii) Shipper has arranged for the transportation of the gas to be advanced by Transporter hereunder from storage fields utilized by Transporter to the desired delivery points under the EFT, IT or FT Rate Schedules; and (iv) such service complies with the terms and conditions of this IAS Rate Schedule.
- 1.2 In addition to the information specified in Section 31 of the General Terms and Conditions, a request for service under this rate schedule shall include the following:
 - (a) Gas Quantities: The Maximum Advance Quantity requested, stated in dekatherms.
 - (b) Receipt Point(s): The designated Receipt Point(s) for the return hereunder of gas service.

2. APPLICABILITY AND CHARACTER OF SERVICE

- 2.1 (a) Service hereunder shall be provided on an interruptible basis. Interruption of service includes decreasing, suspending, or discontinuing the delivery of gas.
- (b) Service hereunder shall be interrupted whenever necessary to permit Transporter to meet its obligations under firm transportation or firm storage rate schedules.

IAS RATE SCHEDULE

INTERRUPTIBLE ADVANCE SERVICE

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

- 2.2 Service hereunder shall consist of the advance of gas by Transporter, up to the Maximum Advance Quantity specified in the IAS Service Agreement, the delivery of such gas into Transporter's transmission facilities for subsequent transportation pursuant to the EFT, IT or FT Rate Schedule, and the acceptance at the receipt point designated in the IAS Service Agreement of the quantity advanced by Transporter hereunder.
- 2.3 Shipper shall be required to return the sum of (i) the quantity of gas advanced by Transporter from storage fields utilized by Transporter, which quantity shall include quantities retained by Transporter during the subsequent transportation of such gas by Transporter, and (ii) a quantity of gas equal to the product obtained by multiplying the quantity of gas described in clause (i) hereof by two (2) times the percentage set forth on Sheet No. 6 as "surface operating allowance."
- 2.4 Shipper may nominate for the return of advanced gas at any time, subject to Section 13 of the General Terms and Conditions of this Tariff, and Transporter shall accept such gas to the extent it has capacity to do so. The voluntary return of advanced gas hereunder shall have a priority of service equal to service under the IT Rate Schedule.
- 2.5 Shipper must return the quantities of gas specified in Section 2.3 hereof within forty eight (48) hours of receipt of notification from Transporter.
- 2.6 An IAS Service Agreement with a primary term of one year or longer shall continue in effect beyond the expiration of the primary term until terminated by either party upon six (6) months written notice to the other.
- 2.7 A Shipper receiving service under this IAS Rate Schedule shall not lose priority for purposes of this Section by the renewal or extension of term of that service.

- 3.1 The maximum and minimum rates per Dth for service under this rate schedule are set forth on the currently effective Sheet No. 6 of this tariff, and these rates are incorporated herein by reference. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff.
- 3.2 For all service rendered under this rate schedule during each month, Shipper shall pay Transporter:
- (a) Advance Charge: A charge per Dth for all gas advanced by Transporter during the billing month.
 - (b) Return Charge: A charge per Dth for all gas returned to Transporter during the billing month.
 - (c) Usage Charge: A charge per Dth for Shipper's advanced gas balance. The usage charge shall be applied on a daily basis. The Shipper's "advanced gas balance" shall be the highest aggregate quantity of Transporter's gas on advance to Shipper hereunder during a day.
 - (d) An amount to reimburse Transporter for the costs of any facilities installed by Transporter to receive or deliver natural gas for the account of Shipper.
- 3.3 Except as provided by valid Commission rule or regulation, Transporter is not obligated to offer to transport or transport gas at any rates or allowances less than the maximum rates and allowances specified for this rate schedule on Sheet No. 6; however, nothing precludes Transporter from charging a rate between the maximum and minimum rates or retaining an allowance less than the maximum allowance for this service under this Rate Schedule set forth on Sheet No. 6.

INTERRUPTIBLE ADVANCE SERVICE

3. QUALIFICATION FOR SERVICE (Cont'd.)

prepayment or other security provided as set forth above, or as is necessary to ensure that neither Shipper's net worth, nor its unencumbered assets in the states in which Seller operates is less than an amount equal to the highest Negative Imbalance Cash-Out Price (set forth at Section 14.10(a) of the General Terms and Conditions) occurring during the twelve (12) month period preceding the date service is requested times the quantity of advanced gas requested.

- 3.3 (a) Upon Transporter's determination that Shipper's request for service is complete, Transporter will enter such request on a list of pending complete requests and so notify shipper. Transporter will evaluate its ability to satisfy complete requests for service received in their order of entry on such list. Transporter shall process requests for service within a reasonable period of time. If Transporter rejects a request for service which has been entered on Transporter's list of pending complete requests, Transporter will so notify Shipper within ten (10) days of such rejection. In such event, Shipper's request for service will not remain entered on such list unless Shipper notifies Transporter, within thirty (30) days of Transporter's notification of rejection, that its request should remain so entered. Upon receipt of such written notification by Shipper, Shipper's request will remain entered for an additional six (6) months, and for additional three (3) month periods thereafter, provided that Shipper notifies Transporter, in writing, prior to the conclusion of a three (3) month period, that it requests an extension.
- (b) An IAS Service Agreement shall be executed by Shipper and Transporter following Transporter's acceptance in writing of Shipper's request for service. In the event the IAS Service Agreement is not executed and returned by Shipper within thirty days after Transporter tendered the agreement, Transporter shall consider the request for service invalid.

IAS RATE SCHEDULE

INTERRUPTIBLE ADVANCE SERVICE

4. RATE

- 4.1 The maximum and minimum rates per Dth for service under this rate schedule are set forth on the currently effective Sheet No. 6 of this tariff, and these rates are incorporated herein by reference. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff.
- 4.2 For all service rendered under this rate schedule during each month, Shipper shall pay Transporter:
- (a) Advance Charge: A charge per Dth for all gas advanced by Transporter during the billing month.
 - (b) Return Charge: A charge per Dth for all gas returned to Transporter during the billing month.
 - (c) Usage Charge: A charge per Dth for Shipper's advanced gas balance. The usage charge shall be applied on a daily basis. The Shipper's "advanced gas balance" shall be the highest aggregate quantity of Transporter's gas on advance to Shipper hereunder during a day.
 - (d) An amount to reimburse Transporter for the costs of any facilities installed by Transporter to receive or deliver natural gas for the account of Shipper.
- 4.3 Except as provided by valid Commission rule or regulation, Transporter is not obligated to offer to transport or transport gas at any rates or allowances less than the maximum rates and allowances specified for this rate schedule on Sheet No. 6; however, nothing precludes Transporter from charging a rate between the maximum and minimum rates or retaining an allowance less than the maximum allowance for this service under this Rate Schedule set forth on Sheet No. 6.

5. MINIMUM MONTHLY BILL

None.

6. RECEIPT AND DELIVERY PRESSURE

Shipper shall provide gas to Transporter at pressure sufficient to enter Transporter's pipeline at the point(s) of receipt, provided, however, that such pressure shall not exceed any maximum pressure determined by Transporter from time to time.

7. MINIMUM RECEIPT POINT VOLUMES

Transporter shall not be required to receive or deliver gas at a receipt or delivery point where the total quantity of gas for transportation scheduled is less than that required to operate existing measurement facilities at such point.

8. GENERAL TERMS AND CONDITIONS

All of the General Terms and Conditions of Transporter's effective FERC Gas Tariff, Second Revised Volume No. 1, and any revisions thereof that may be proposed and made effective from time to time hereafter, shall apply to and are made a part of this Rate Schedule.

 FSS RATE SCHEDULE
 Firm Storage Service

1. AVAILABILITY

- 1.1 This rate schedule is available for storage service by National Fuel Gas Supply Corporation (hereinafter called "Transporter") for any person (hereinafter called "Shipper") provided that: (i) capacity is available in Transporter's storage fields necessary to provide service on a firm basis throughout the requested term; (ii) Shipper makes a request for service as set forth in Section 31 of the General Terms and Conditions and executes a service agreement for firm storage service under this FSS Rate Schedule in the form contained in this Tariff; and (iii) said service complies with the terms and conditions of this FSS Rate Schedule.
- 1.2 For purposes of determining the availability of service in processing requests for service hereunder, Transporter shall not be required to grant any said request for storage service: (i) for which capacity is not available on any portion of its system necessary to provide such service on a firm basis; (ii) which could in Transporter's judgment interfere with the integrity of its system, or service to existing firm transportation or firm storage customers; (iii) which would require the construction, modification, expansion or acquisition of any facilities; (iv) if Transporter determines that Shipper does not possess sufficient financial stability to make it reasonably likely the service provided hereunder will be paid for on a timely basis according to the criteria set forth in Section 31.2 of the General Terms and Conditions; or (v) if such service does not comply with this FSS Rate Schedule or the FSS Service Agreement.
- 1.3 While a determination of capacity on Transporter's system is reported once each year, on March 1st, in accordance with Section 284.12 of the Commission's regulations, determination of available firm capacity on Transporter's system shall be made from time to time as capacity becomes available or as requests for service are received hereunder. Subject to Sections 10, 11 and 26 of the General Terms and Conditions of this tariff, in processing requests

Firm Storage Service

1. AVAILABILITY (Cont'd)

for service hereunder, Transporter shall allocate any available firm capacity to persons which make a valid request under Section 31 of the General Terms and Conditions, on a first come, first served basis determined as of the date Transporter received a valid request.

- 1.4 In addition to the information specified in Section 31 of the General Terms and Conditions, a request for service under this rate schedule shall include the following:

- (a) Gas Quantities: The Maximum Daily Injection Quantity (MDIQ), Maximum Daily Withdrawal Quantity (MDWQ) and the Maximum Storage Quantity (MSQ) stated in dekatherms.
- (b) Receipt/Delivery Point: If receipts or deliveries are to take place at a point of interconnection between storage facilities utilized by Transporter and another pipeline, the designated Receipt Point(s) and Delivery Point(s) for the requested service together with the name of the entity delivering the gas to Transporter and the name of the entity to receive the gas from Transporter.

2. APPLICABILITY AND CHARACTER OF SERVICE

- 2.1 The storage service provided under this FSS Rate Schedule shall be performed under Subparts B, G, or K of Part 284 of the Commission's Regulations. This FSS Rate Schedule shall apply to all gas stored by Transporter for Shipper pursuant to an FSS Service Agreement.
- 2.2 Service hereunder shall be provided on a firm basis. However, service may be interrupted for any of the reasons set out in Section 8 of the General Terms and Conditions hereof, or whenever necessary to maintain gas quality or the integrity of Transporter's system.

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

2.3 Service hereunder shall consist of the receipt of natural gas delivered to storage facilities utilized by Transporter pursuant to Shipper's EFT, IT or FT Service Agreement, or pursuant to a transportation agreement with another pipeline where operationally feasible, the injection of gas into storage facilities utilized by Transporter, the storage and withdrawal of that gas, and the delivery of that gas, after reductions as set out in the FSS Service Agreement and Section 3 of this FSS Rate Schedule, into Transporter's transmission facilities for subsequent transportation pursuant to Shipper's EFT, IT or FT Service Agreement, or pursuant to a transportation agreement with another pipeline where operationally feasible Transporter shall not be required:

- (a) to accept any gas during periods of time not within the Injection Period, as stated in the FSS Service Agreement,
- (b) to accept on any day a quantity of gas in excess of the sum of the Maximum Daily Injection Quantity (MDIQ) specified in the FSS Service Agreement, and a quantity sufficient to satisfy the retention described in Section 3.3 hereof,
- (c) to accept on any day a quantity of gas at a point of interconnection between storage facilities utilized by Transporter and another pipeline in excess of the quantity of gas Transporter is authorized and physically able to inject at such point of interconnection, multiplied by a fraction, the numerator of which is Shipper's Maximum Storage Quantity, and the denominator of which is the total top gas capacity in all of Transporter's storage fields,
- (d) to store a quantity of gas in excess of the Maximum Storage Quantity (MSQ),
- (e) to deliver any gas during periods of time not within the Withdrawal Period, as stated in the FSS Service Agreement,

Effective Date: 04/01/1997 Status: Effective

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

- (f) to deliver quantities of gas in excess of the Maximum Daily Withdrawal Quantity (MDWQ) specified in the FSS Service Agreement, or
 - (g) to deliver on any day a quantity of gas at a point of interconnection between storage facilities utilized by Transporter and another pipeline in excess of the quantity of gas Transporter is authorized and physically able to withdraw at such point of interconnection, multiplied by a fraction, the numerator of which is Shipper's Maximum Storage Quantity, and the denominator of which is the total top gas capacity in all of Transporter's storage fields.
- 2.4 Provided Transporter determines that the receipt of gas and the injection of such gas into storage from Shipper can be accomplished by Transporter without detriment to Transporter's facilities and/or Transporter's ability to meet its firm obligations to other Shippers, Transporter, upon request of Shipper, shall inject on an interruptible basis quantities of gas in excess of the limitations set forth in Sections 2.3 and 2.9 hereof. Such excess quantities shall be referred to as authorized overruns.
- 2.5 Provided such withdrawal from storage and delivery of such gas to Shipper can be accomplished by Transporter without detriment to Transporter's facilities and/or Transporter's ability to meet its firm obligations to other Shippers, Transporter, upon request of Shipper, shall withdraw on an interruptible basis quantities of gas in excess of the limitations set forth in Sections 2.3 and 2.9 hereof. Such excess quantities shall be referred to as authorized overruns.

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-000

Third Revised Sheet No. 89 Third Revised Sheet No. 89 : Superseded

FSS RATE SCHEDULE

Firm Storage Service

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

- 2.6 Subject to Section 11 of the General Terms and Conditions of this tariff, an FSS Service Agreement with a primary term of one year or longer shall continue in effect beyond the expiration of the primary term until terminated by either party as of the end of the Storage Period, as set forth in the FSS Service Agreement, upon six (6) months written notice to the other.
- 2.7 A shipper receiving service under this FSS Rate Schedule shall not lose priority for purposes of this section by the renewal or extension of term of that service.
- 2.8 Service under this FSS Rate Schedule shall be provided on a basis that is equal in quality for all gas supplies transported hereunder, whether or not purchased from Seller.
- 2.9 When necessary to assure that a storage service will not in Transporter's judgment interfere with the integrity of its system, or service to existing firm transportation or firm storage customers, Transporter may limit Shipper's right to inject and/or withdraw gas hereunder in the FSS Service Agreement to specified percentages of the Contract MDIQ and/or Contract MDWQ during specified periods of the Storage Year or while Shipper's Storage Balance is at specified levels, or during other specified periods, and Shipper may be required to reduce its Storage Balance according to a specified schedule, and in such cases the FSS Service Agreement will reflect any such specifications. If Shipper does not reduce its Storage Balance in accordance with a schedule set forth in the FSS Service Agreement, any excess shall be considered a positive imbalance, occurring as of the time Shipper's obligation to reduce its Storage Balance was not satisfied, and shall be subject to Section 14 of the General Terms and Conditions of this tariff, including, without limitation, the transportation balancing fee (which shall apply in addition to all charges due hereunder) and the provisions relating to clearing of imbalances; provided, however, that the maximum transportation balancing fee (i.e., 1.0 x the ISS Rate) shall apply to any and all excess gas in storage.

FSS RATE SCHEDULE

Firm Storage Service

3. RATE

- 3.1 The maximum and minimum rates for service hereunder are set forth on the currently effective Sheet No. 6 of this tariff, and these rates are incorporated herein by reference. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff.
- 3.2 For all service rendered under this rate schedule, Shipper shall pay Transporter the sum of the following:
- (a) Storage Capacity Charge. A charge per month per Dth of Maximum Storage Quantity.
 - (b) Storage Demand Charge. A charge per month per Dth of Maximum Daily Withdrawal Quantity.
 - (c) Injection Charge. A charge per Dth for all gas received during the billing month by Transporter for injection hereunder, net of the retention set forth in Section 4.3 hereof.
 - (d) Withdrawal Charge. A charge per Dth for all gas withdrawn by Transporter during the billing month.
 - (e) An amount to reimburse Transporter for filing fees paid to the Commission associated with the additional storage service.
 - (f) An amount to reimburse Transporter for the cost of any facilities installed by Transporter to receive or deliver natural gas for the account of Shipper.
- 3.3 During injection of gas hereunder, Transporter will retain a quantity of gas equal to the product obtained by multiplying the quantity of gas received for injection by the percentage set forth on Sheet No. 6 as "surface operating allowance."

Effective Date: 04/01/1997 Status: Effective

FSS RATE SCHEDULE

Firm Storage Service

3. RATE (Cont'd)

3.4 During withdrawal of gas hereunder, Transporter will retain a quantity of gas equal to the product obtained by multiplying the quantity of gas withdrawn by the percentage set forth on Sheet No. 6 as "surface operating allowance."

3.5 Except as provided by valid rule or regulation, Transporter is not obligated to offer to store or store gas at any rates or allowances less than the maximum rates and allowances specified for this rate schedule on Sheet No. 6; however, nothing precludes Transporter from charging a rate between the maximum and minimum rate or retaining an allowance less than the allowance specified for service under this Rate Schedule as set forth on Sheet No. 6.

4. BILLING ADJUSTMENTS

If during the Injection Period Transporter is unable to inject into storage quantities of gas nominated during such period by Shipper for injection and made available to Transporter, then the Storage Demand Charge and the Storage Capacity Charge shall be reduced in the following manner:

If, at the end of the Injection Period, Shipper's Storage Gas Balance is less than Shipper's Maximum Storage Quantity due solely to Transporter's inability to inject gas within the limitations set forth in this Rate Schedule, then the Storage Capacity Charge applicable for the ensuing Withdrawal Period and Injection Period shall be that part of the total Storage Capacity Charge herein provided which Shipper's Storage Balance as of such date bears to Shipper's Storage Capacity.

5. STORAGE FIELD LOSSES

In the event of a loss of gas from one or more storage fields utilized by Transporter resulting from force majeure, such loss shall be allocated among Transporter and each Shipper receiving service under the SS-1, SS-2, ESS, FSS or ISS Rate Schedule in proportion to the quantities of gas (excluding base gas) of each in storage immediately prior thereto as reasonably determined by Transporter, and if such extraordinary loss exceeds the top gas balances of Transporter and all such Shippers, such excess will be deemed to be from Transporter's base gas.

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-000

First Revised Sheet No. 92 First Revised Sheet No. 92 : Superseded

FSS RATE SCHEDULE
Firm Storage Service

5. STORAGE FIELD LOSSES (Cont'd)

Losses of gas from storage fields utilized by Transporter that are not losses resulting from force majeure, as defined below, will be deemed to be gas from Transporter's top gas balance, and, to the extent such losses exceed Transporter's top gas balance, such excess will be deemed to be from Transporter's base gas. For purposes of this Section 5, a loss of gas resulting from force majeure is a loss caused by any acts of God, strikes, lockouts, acts of the public enemy, wars, blockades, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, washouts, arrests and restraints of rulers and peoples, civil disturbances, explosions, breakage or accident to machinery or lines of pipe, line freeze-ups, or similar causes.

Shipper is placed on notice that Transporter may recognize storage gas losses for rate and accounting purposes. Such losses shall be valued at the current replacement cost of gas. After accounting recognition of any such loss, Transporter shall record and maintain a regulatory asset account which shall be maintained until Transporter's next general rate change filing under Section 4 of the Natural Gas Act. In any of Transporter's general rate change filings, Transporter may propose to amortize storage gas losses through its base rates. This provision shall apply to storage gas losses incurred but unamortized as of the date upon which this provision becomes effective, and to those incurred after that date.

6. WITHDRAWALS UPON TERMINATION OF SERVICE

Not less than thirty (30) days prior to the termination of storage service provided to any Shipper under this rate schedule, Transporter will notify Shipper of Shipper's Storage Balance. If the Storage Balance is positive, then the Shipper will withdraw such quantities within thirty (30) days of the termination of the storage service. Transporter will take title to all such gas not withdrawn without recourse on the thirty-first day after the termination of the storage service. If the Storage Balance is negative, then the Shipper will within thirty (30)

excess will be deemed to be from Transporter's base gas. Losses of gas from storage fields utilized by Transporter that are not losses resulting from force majeure, as defined below, will be deemed to be gas from Transporter's top gas balance, and, to the extent such losses exceed Transporter's top gas balance, such excess will be deemed to be from Transporter's base gas. For purposes of this Section 6, a loss of gas resulting from force majeure is a loss caused by any acts of God, strikes, lockouts, acts of the public enemy, wars, blockades, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, washouts, arrests and restraints of rulers and peoples, civil disturbances, explosions, breakage or accident to machinery or lines of pipe, line freeze-ups, or similar causes.

Shipper is placed on notice that Transporter may recognize storage gas losses for rate and accounting purposes. Such losses shall be valued at the current replacement cost of gas. After accounting recognition of any such loss, Transporter shall record and maintain a regulatory asset account which shall be maintained until Transporter's next general rate change filing under Section 4 of this Natural Gas Act. In any of Transporter's general rate change filings, Transporter may propose to amortize storage gas losses through its base rates. This provision shall apply to storage gas losses incurred but unamortized as of the date upon which this provision becomes effective, and to those incurred after that date.

7. WITHDRAWALS UPON TERMINATION OF SERVICE

Not less than thirty (30) days prior to the termination of storage service provided to any Shipper under this rate schedule, Transporter will notify Shipper of Shipper's Storage Balance. If the Storage Balance is positive, then the Shipper will withdraw such quantities within thirty (30) days of the termination of the storage service. Transporter will take title to all such gas not withdrawn without recourse on the thirty-first day after the termination of the storage service. If the Storage Balance is negative, then the Shipper will within thirty (30) days of the end of the storage service deliver sufficient quantities of gas to make up the negative Balance. If the Shipper does not deliver sufficient quantities of gas within that thirty-day period, the Shipper shall pay Transporter the Negative Imbalance Cash-Out Price, as set forth in Section 14.10(a) of the General Terms and Conditions, for any remaining negative imbalance.

ESS RATE SCHEDULE

Enhanced Storage Service

1. AVAILABILITY

- 1.1 This rate schedule is available for storage service by National Fuel Gas Supply Corporation (hereinafter called "Transporter") for shippers receiving firm transportation service under the EFT Rate Schedule (hereinafter called "Shipper").
- 1.2 An ESS Shipper may request increases in its Maximum Storage Quantity. Transporter shall not be required to grant any said request for increased storage service (i) for which capacity is not available on any portion of its system necessary to provide such service on a firm basis; (ii) which could in Transporter's judgment interfere with the integrity of its system, or service to existing, firm transportation or firm storage customers; (iii) which would require the construction, modification, expansion or acquisition of any facilities; (iv) if Transporter determines that Shipper does not possess sufficient financial stability to make it reasonably likely the increased service will be paid for on a timely basis according to the criteria set forth in Section 31.2 of the General Terms and Conditions; or (v) if such increased service does not comply with this ESS Rate Schedule or the ESS Service Agreement.
- 1.3 In addition to the information specified in Section 31 of the General Terms and Conditions, for additional service under this rate schedule shall include the following:
 - (a) Gas Quantities: The new Maximum Storage Quantity desired by Shipper.
 - (b) Facilities: Identification and location of any facilities proposed to be constructed or installed by any party affected by the proposed additional transportation service.

Enhanced Storage Service

2. APPLICABILITY AND CHARACTER OF SERVICE

- 2.1 The storage service provided under this ESS Rate Schedule shall be performed under Subparts B, G, or K of Part 284 of the Commission's Regulations. This ESS Rate Schedule shall apply to all gas stored by Transporter for Shipper pursuant to an ESS Service Agreement. This ESS Rate Schedule, in conjunction with the EFT Rate Schedule, sets forth the terms and conditions of the "no-notice" transportation service required by Section 284.8(a)(4) of the Commission's Regulations.
- 2.2 Service hereunder shall be provided on a firm basis. However, service may be interrupted for any of the reasons set out in Section 8 of the General Terms and Conditions hereof, or whenever necessary to maintain gas quality or the integrity of Transporter's system.
- 2.3 Service hereunder shall consist of the receipt of natural gas delivered to storage facilities utilized by Transporter pursuant to Shipper's EFT Service Agreement, the injection of gas into storage facilities utilized by Transporter, the storage and withdrawal of that gas, and the delivery of that gas, after reductions as set out in the ESS Service Agreement and Section 3 of this ESS Rate Schedule, into Transporter's transmission facilities for subsequent transportation pursuant to Shipper's EFT Service Agreement. Transporter shall not be required:
 - (a) to accept any gas during periods of time not within the Injection Period, which shall commence April 1st and end November 1st,
 - (b) to accept on any day a quantity of gas in excess of the sum of the Maximum Daily Injection Quantity (MDIQ) specified in the ESS Service Agreement, or the percentage thereof as is applicable pursuant to Section 2.11 hereof, and a quantity sufficient to satisfy the retention described in Section 3.3 hereof,

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

- (c) to store a quantity of gas in excess of the Maximum Storage Quantity (MSQ), or
 - (d) to deliver any gas during periods of time not within the Withdrawal Period, which shall commence November 1st and end April 15th,
 - (e) to deliver quantities of gas in excess of the Maximum Daily Withdrawal Quantity (MDWQ) specified in the ESS Service Agreement, or the percentage thereof is applicable pursuant to Section 2.12 hereof.
- 2.4 Notwithstanding Section 13 of the General Terms and Conditions of this tariff, nominations for injections and withdrawals pursuant to an ESS Service Agreement may be revised as needed upon less than twenty-four (24) hours advance notice to Transporter.
- 2.5 Notwithstanding Section 13 of the General Terms and Conditions of this tariff, Transporter will adjust scheduled injections and withdrawals pursuant to an ESS Service Agreement as necessary to balance nominated receipts and actual deliveries under the Shipper's EFT Service Agreement, up to the MDIQ or MDWQ specified in the Shipper's ESS Service Agreement.
- 2.6 Provided Transporter determines that the receipt of gas and the injection of such gas into storage from Shipper can be accomplished by Transporter without detriment to Transporter's facilities and/or Transporter's ability to meet its firm obligations to other Shippers, Transporter, upon request of Shipper, shall inject on an interruptible basis quantities of gas in excess of the limitations set forth in Sections 2.3 and 2.11 hereof. Such excess quantities shall be referred to as authorized overruns.

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

- 2.7 Provided such withdrawal from storage and delivery of such gas to Shipper can be accomplished by Transporter without detriment to Transporter's facilities and/or Transporter's ability to meet its firm obligations to other Shippers, Transporter, upon request of Shipper, shall withdraw on an interruptible basis quantities of gas in excess of the limitations set forth in Sections 2.3 and 2.11 hereof. Such excess quantities shall be referred to as authorized overruns.
- 2.8 Subject to Section 11 of the General Terms and Conditions of this tariff, an ESS Service Agreement with a primary term of one year or longer shall continue in effect beyond the expiration of the primary term until terminated by either party as of the end of April 1st of any year, upon twelve (12) months written notice to the other.
- 2.9 A shipper receiving service under this ESS Rate Schedule shall not lose priority for purposes of this section by the renewal or extension of term of that service.
- 2.10 Service under this ESS Rate Schedule shall be provided on a basis that is equal in quality for all gas supplies transported hereunder, whether or not purchased from Seller.
- 2.11 The MDIQ applicable to an ESS Shipper shall equal 1/170th of the MSQ; however, Transporter's obligation to accept gas for injection during the Injection Season shall be limited to eighty-five percent (85%) of the MDIQ whenever Shipper's Storage Balance is at or above eighty percent (80%) of its MSQ.
- 2.12 The MDWQ applicable to an ESS Shipper shall be set forth in the ESS Service Agreement. Transporter's obligation to withdraw gas from storage during the Withdrawal Period shall be limited as follows:

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

When Shipper's Storage Balance is:	Transporter's Obligation to Withdraw gas is limited to:
---------------------------------------	--

greater than 30% of MSQ	100% of the MDWQ
-------------------------	------------------

greater than 20% of MSQ but less than or equal to 30% of MSQ	90% of the MDWQ
--	-----------------

greater than 10% of MSQ but less than or equal to 20% of MSQ	80% of the MDWQ
--	-----------------

greater than 0% of MSQ but less than or equal to 10% of MSQ	70% of the MDWQ
---	-----------------

In addition to the limitations set forth above, on any days during the Withdrawal Period on or after March 1st on which Shipper's Storage Balance is greater than thirty percent (30%) of its MSQ, Transporter's obligation to withdraw gas shall be limited to ninety percent (90%) of the MDWQ.

- 2.13 An ESS Shipper must reduce its Storage Balance to thirty percent (30%) of its MSQ by March 31st of each Withdrawal Period. If Shipper does not reduce its Storage Balance to such level, any excess shall be considered an "Excess Storage Balance" for purposes of Section 3 hereof.

3. RATE

- 3.1 The maximum and minimum rates for service hereunder are set forth on the currently effective Sheet No. 6 of this tariff, and these rates are incorporated herein by reference. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff.

3. RATE (Cont'd)

3.2 For all service rendered under this rate schedule, Shipper shall pay Transporter the sum of the following:

- (a) Storage Capacity Charge. A charge per month per Dth of Maximum Storage Quantity.
- (b) Storage Demand Charge. A charge per month per Dth of Maximum Daily Withdrawal Quantity.
- (c) Injection Charge. A charge per Dth for all gas received during the billing month by Transporter for injection hereunder, net of the retention set forth in Section 3.3 hereof.
- (d) Withdrawal Charge. A charge per Dth for all gas withdrawn by Transporter during the billing month.
- (e) Excess Balance Charge. A charge per Dth for any Excess Storage Balance occurring at any time between March 15th and March 31st of any year, which shall be computed on a daily basis by multiplying the Excess Storage Balance by a rate equal to one-sixteenth (1/16) of the applicable injection charge under the ISS Rate Schedule.
- (f) An amount to reimburse Transporter for filing fees paid to the Commission associated with the additional storage service.
- (g) An amount to reimburse Transporter for the cost of any facilities installed by Transporter to receive or deliver natural gas for the account of Shipper.

3.3 During injection of gas hereunder, Transporter will retain a quantity of gas equal to the product obtained by multiplying the quantity of gas received for injection by the percentage set forth on Sheet No. 6 as "surface operating allowance."

3. RATE (Cont'd)

3.4 During withdrawal of gas hereunder, Transporter will retain a quantity of gas equal to the product obtained by multiplying the quantity of gas withdrawn by the percentage set forth on Sheet No. 6 as "surface operating allowance."

3.5 Except as provided by valid rule or regulation, Transporter is not obligated to offer to store or store gas at any rates less or allowances than the maximum rates and allowances specified for this rate schedule on Sheet No. 6; however, nothing precludes Transporter from charging a rate between the maximum and minimum rate or retaining an allowance less than the allowance specified for service under this Rate Schedule as set forth on Sheet No. 6.

4. MINIMUM MONTHLY BILL

The minimum monthly bill shall be the sum of the Storage Demand Charge and the Storage Capacity Charge.

5. BILLING ADJUSTMENTS

If during the Injection Period Transporter is unable to inject into storage quantities of gas nominated during such period by Shipper for injection and made available to Transporter, then the Storage Demand Charge and the Storage Capacity Charge shall be reduced in the following manner:

If, at the end of the Injection Period, Shipper's Storage Gas Balance is less than Shipper's Maximum Storage Quantity due solely to Transporter's inability to inject gas within the limitations set forth in this Rate Schedule, then the Storage Capacity Charge applicable for the ensuing Withdrawal Period and Injection Period shall be that part of the total Storage Capacity Charge herein provided which Shipper's Storage Balance as of such date bears to Shipper's Storage Capacity.

6. STORAGE FIELD LOSSES

In the event of a loss of gas from one or more storage fields utilized by Transporter resulting from force majeure, such loss shall be allocated among Transporter and each Shipper receiving service under the FSS, SS-1, SS-2, ESS or ISS Rate Schedule in proportion to the quantities of gas (excluding base gas) of each in storage immediately prior thereto as reasonably determined by Transporter, and if such extraordinary loss exceeds the top gas balances of Transporter and all such Shippers, such excess will be deemed to be from Transporter's base gas. Losses of gas from storage fields utilized by Transporter that are not losses resulting from force majeure, as defined below, will be deemed to be gas from Transporter's top gas balance, and, to the extent such losses exceed Transporter's top gas balance, such excess will be deemed to be from Transporter's base gas. For purposes of this Section 6, a loss of gas resulting from force majeure is a loss caused by any acts of God, strikes, lockouts, acts of the public enemy, wars, blockades, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, washouts, arrests and restraints of rulers and peoples, civil disturbances, explosions, breakage or accident to machinery or lines of pipe, line freeze-ups, or similar causes.

Shipper is placed on notice that Transporter may recognize storage gas losses for rate and accounting purposes. Such losses shall be valued at the current replacement cost of gas. After accounting recognition of any such loss, Transporter shall record and maintain a regulatory asset account which shall be maintained until Transporter's next general rate change filing under Section 4 of the Natural Gas Act. In any of Transporter's general rate change filings, Transporter may propose to amortize storage gas losses through its base rates. This provision shall apply to storage gas losses incurred but unamortized as of the date upon which this provision becomes effective, and to those incurred after that date.

7. WITHDRAWALS UPON TERMINATION OF SERVICE

Not less than thirty (30) days prior to the termination of storage service provided to any Shipper under this rate schedule, Transporter will notify Shipper of Shipper's Storage Balance. If the Storage Balance is positive, then the Shipper will withdraw such quantities within thirty (30) days of the termination of the storage service. Transporter will take title to all such gas not withdrawn without recourse on the thirty-first day after the termination of the storage service. If the Storage Balance is negative, then the Shipper will within thirty (30) days of the end of the storage service deliver sufficient quantities of gas to make up the negative Balance. If the Shipper does not deliver sufficient quantities of gas within that thirty-day period, the Shipper shall pay Transporter the Negative Imbalance Cash-Out Price, as set forth in Section 14.10(a) of the General Terms and Conditions, for any remaining negative imbalance.

8. GENERAL TERMS AND CONDITIONS

All of the General Terms and Conditions of Seller's effective FERC Gas Tariff, Third Revised Volume No. 1, and any revisions thereof that may be proposed and made effective from time to time hereafter shall apply to and are made a part of this rate schedule.

10. CONVERSION

On August 1, 1993, Seller will transfer title to all top gas (less 7.2 MMDth) in storage to which Seller has title attributable to RQ and CD service to all RQ and CD Buyers. All top gas (less 7.2 MMDth) in storage will be allocated on a pro rata basis to the RQ and CD Buyers. Such proration shall be determined among Buyers by determining the relative ratio of the Buyer's Minimum Monthly Winter Requirement Quantities (for RQ buyers) or Winter Requirement Quantities (for CD Buyers) under these former rate schedules to the sum of all such Minimum Monthly Winter Requirement Quantities and Winter Requirement Quantities; provided, however, in no event shall a Buyer be allocated purchase quantities in excess of the Buyer's MSQ as an ESS shipper. As compensation for the gas transferred, Buyers will pay to Seller an amount reflecting Seller's cost of such gas. Buyers may elect to reimburse Seller for such purchase quantities in a lump sum payment or in six equal monthly payments, plus

ISS RATE SCHEDULE

Interruptible Storage Service

1. AVAILABILITY

1.1 This rate schedule is available for interruptible storage service by National Fuel Gas Supply Corporation (hereinafter called "Transporter") for any person (hereinafter called "Shipper") provided that: (i) capacity is available in storage fields utilized by Transporter from time to time; (ii) Shipper makes a request for service as set forth in Section 31 of the General Terms and Conditions and executes a service agreement for interruptible storage service under this ISS Rate Schedule in the form contained in this Tariff and has entered into a service agreement under Transporter's IT Rate Schedule providing for the receipt and delivery of gas attributable to service hereunder; and (iii) said service complies with the terms and conditions of this ISS Rate Schedule.

1.2 In addition to the information specified in Section 31 of the General Terms and Conditions of this tariff, a request for service under this rate schedule shall include the following:

Gas Quantities: The Maximum Daily Injection and Withdrawal Quantities applicable to each receipt and delivery Point and the Maximum Storage Quantity (MSQ) stated in dekatherms.

2. APPLICABILITY AND CHARACTER OF SERVICE

2.1 The storage service provided under this ISS Rate Schedule shall be performed under Subparts B, G, or K of Part 284 of the Commission's Regulations. This ISS Rate Schedule shall apply to all gas stored by Transporter for Shipper pursuant to an ISS Service Agreement.

2.2 (a) Service hereunder shall be provided on an interruptible basis. Interruption of service includes decreasing, suspending or discontinuing both the receipt and delivery of gas.

(b) Service hereunder may be interrupted whenever necessary to effect injections or withdrawals for firm storage customers.

ISS RATE SCHEDULE

Interruptible Storage Service

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd.)

- 2.3 Service hereunder shall consist of the receipt of natural gas delivered to storage facilities utilized by Transporter pursuant to Shipper's IT Service Agreement; the injection of such gas into such storage facilities, the storage and withdrawal of that gas, and the delivery of that gas, after reductions as set forth in the ISS Service Agreement and Section 3 of this ISS Rate Schedule, into Transporter's transmission facilities for subsequent transportation pursuant to Shipper's IT Service Agreement.
- 2.4 The ISS Service Agreement shall specify the Maximum Daily Injection Quantity, Maximum Daily Withdrawal Quantity, Maximum Storage Quantity, Injection Period, Withdrawal Period, and Storage Period applicable to Shipper.
- 2.5 To the extent storage capacity which is being utilized by a Shipper hereunder is needed by Transporter in order to satisfy or to accommodate Transporter's obligations to firm transportation or storage customers, Transporter shall require Shipper to withdraw all, or any portion, of the gas quantities held in storage by Transporter within thirty (30) days of Transporter's notice to Shipper. If Shipper fails to arrange for the withdrawal from storage of the quantities specified by Transporter in its notice, despite the availability of capacity for the withdrawal of Shipper's gas under its ISS Service Agreement and the transportation of Shipper's gas under its IT Service Agreement, Transporter shall take title to Shipper's ISS Storage Balance that Shipper was instructed to withdraw, free and clear of any adverse claims. Transporter's notice to Shipper may be verbal and in such case shall be followed by a written confirmation.
- 2.6 An ISS Service Agreement with a primary term of one year or longer shall continue in effect beyond the expiration of the primary term until terminated by either party as of the end of a Storage Period, as set forth in the ISS Service Agreement, upon six (6) months written notice to the other.

Transporter will take title to all such gas not withdrawn without recourse on the thirty-first day after the termination of the storage service. If the Storage Balance is negative, then the Shipper will within thirty (30) days of the end of the storage service deliver sufficient quantities of gas to make up the negative Balance. If the Shipper does not deliver sufficient quantities of gas within that thirty-day period, the Shipper shall pay Transporter the Negative Imbalance Cash-Out Price as set forth in Section 14.10(a) of the General Terms and Conditions, for any remaining negative balance.

9. GENERAL TERMS AND CONDITIONS

All of the General Terms and Conditions of Seller's effective FERC Gas Tariff, Second Revised Volume No. 1, and any revisions thereof that may be proposed and made effective from time to time hereafter, shall apply to and are made a part of this rate schedule.

W-1 RATE SCHEDULE

Hub Service - Wheeling Schedule

1. AVAILABILITY

1.1 This W-1 rate schedule is available for wheeling service by National Fuel Gas Supply Corporation (hereinafter called "Transporter") in the geographic area encompassing Transporter's Facilities among the points identified in Section 1.17 of the General Terms and Conditions of Transporter's FERC Gas Tariff, as "Hub Points", on behalf of any person (hereinafter called "Shipper") provided that Shipper meets the eligibility requirements hereof. Transporter will offer wheeling service to any prospective Shipper on a non-discriminatory basis.

1.2 In addition to the information specified in Section 31 of the General Terms and Conditions of this tariff, a request for service under this rate schedule shall include the following:

Gas Quantities: The Maximum Daily W-1 Quantity (MDTQ) applicable to each Receipt Point(s) and Delivery Point(s) stated in dekatherms.

2. APPLICABILITY AND CHARACTER OF SERVICE

2.1 The wheeling service provided under this W-1 Rate Schedule shall be performed under Part 284 of the Commission's Regulations. This W-1 Rate Schedule shall apply to all gas wheeled by Transporter for Shipper pursuant to a W-1 Service Agreement.

2.2 (a) Service hereunder shall be provided on an interruptible basis only. Interruption of service includes decreasing, suspending, or discontinuing both the receipt and delivery of gas.

(b) Service hereunder may be interrupted whenever necessary to provide firm transportation, firm storage, and any other interruptible services that are non-Hub services. Service hereunder is also subject to the availability of any necessary upstream or downstream transportation, which shall be the responsibility of Shipper to arrange.

Superseding: Original Sheet No. 131AA

P-1 RATE SCHEDULE
Hub Service - Parking Schedule (continued)

5. REQUESTS FOR SERVICE (continued)

Upon receipt of such written notification by Shipper, Shipper's request will remain entered for an additional six (6) months, and for additional six (6) month periods thereafter, provided that Shipper notifies Transporter, in writing, prior to the conclusion of a six (6) month period, that it requests an extension.

5.5 A P-1 Service Agreement shall be executed by Shipper and Transporter following Transporter's acceptance in writing of Shipper's request for service. In the event the P-1 Service Agreement is not executed and returned by Shipper within thirty days after Transporter tendered the agreement, Transporter shall consider the request for service invalid.

6. STORAGE FIELD LOSSES

In the event of a loss of gas from one or more storage fields utilized by Transporter resulting from force majeure, such loss shall be allocated among Transporter and each Shipper receiving service in proportion to the quantities of gas (excluding base gas) of each in storage immediately prior thereto as reasonably determined by Transporter, and if such extraordinary loss exceeds the top gas balances of Transporter and all such Shippers, such excess will be deemed to be from Transporter's base gas. Losses of gas from storage fields utilized by Transporter that are not losses resulting from force majeure, as defined below, will be deemed to be gas from Transporter's base gas. For purposes of this Section 6, a loss of gas resulting from force majeure is a loss caused by any acts of God, strikes, lockouts, acts of the public enemy, wars, blockades, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, washouts, arrests and restraints of rules and peoples, civil disturbances, explosions, breakage or accident to machinery or line of pipe, line freeze-ups, or similar causes.

W-1 RATE SCHEDULE

Hub Service - Wheeling Schedule

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

(c) Transporter will treat Shippers under this Rate Schedule as not similarly situated to non-Hub Shippers.

2.3 Service hereunder shall consist of the receipt by Transporter of natural gas tendered by Shipper for wheeling at the receipt point(s) specified in nomination(s) under the W-1 Service Agreement, and the delivery of that natural gas (after reductions as set out in the W-1 Service Agreement and Section 3 of this W-1 Rate Schedule) by Transporter to Shipper or for Shipper's account at the delivery point(s) specified in such nomination(s).

2.4 A W-1 Service Agreement with a primary term of one year or longer shall continue in effect beyond the expiration of the primary term until terminated by either party upon six (6) months written notice to the other.

2.5 A Shipper receiving service under this W-1 Rate Schedule shall not lose priority for purposes of this Section by the renewal or extension of term of that service.

2.6 Service under this W-1 Rate Schedule shall be provided on a basis that is equal in quality for all gas supplies transported hereunder, whether or not purchased from Transporter.

3. RATES

3.1 The maximum and minimum rates per dth delivered to Shipper for wheeling are set forth on the currently effective Sheet No. 5 of this tariff, and these rates are incorporated herein by reference. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff. The current Posted Rate (ranging between the maximum and minimum rates) will be posted on Transporter's Electronic Bulletin Board ("EBB") which is subject to periodic changes. Shipper shall pay

Original Sheet No. 131Bb Original Sheet No. 131Bb : Superseded

P-1 RATE SCHEDULE
Hub Service - Parking Schedule (continued)

6. STORAGE FIELD LOSSES (continued)

Shipper is placed on notice that Transporter may recognize storage gas losses for rate and accounting purposes. Such losses shall be valued at the current replacement cost of gas. After accounting recognition of any such loss, Transporter shall record and maintain a regulatory asset account which shall be maintained until Transporter's next general rate change filing under Section 4 of this Natural Gas Act. In any of Transporter's general rate change filings, Transporter may propose to amortize storage gas losses through its base rates. This provision shall apply to storage gas losses incurred by unamortized as of the date upon which this provision becomes effective, and to those incurred after that date.

7. WITHDRAWALS UPON TERMINATION OF SERVICE

Not less than thirty (30) days prior to the termination of storage service provided to any Shipper under this Rate Schedule, Transporter will notify Shipper of Shipper's Storage Balance. If the Storage Balance is positive, then the Shipper will withdraw such quantities within thirty (30) days of the termination of the storage service. If the Storage Balance is negative, then the Shipper will within thirty (30) days of the end of the storage service deliver sufficient quantities of gas to make up the negative balance. If the Shipper does not deliver sufficient quantities of gas within that thirty-day period, the Shipper shall pay Transporter the Negative Imbalance Cash-Out Price as set forth in Section 14.10(a) of the General Terms and Conditions, for any remaining negative balance.

8. RECEIPT AND DELIVERY PRESSURE

Shipper shall provide gas to Transporter at pressure sufficient to enter Transporter's pipeline at the point(s) of receipt, provided, however, that such pressure shall not exceed any maximum pressure determined by Transporter from time to time. Transporter shall deliver gas to or for the account of Shipper at the delivery point(s) at the pressure existing in Transporter's system.

9. MINIMUM RECEIPT POINT QUANTITIES

Transporter shall not be required to receive or deliver gas at a receipt or delivery point where the total quantity of gas for Parking scheduled is less than that required to operate existing measurement facilities at such point.

3. RATES (Cont'd)

the current Posted Rate on the date the Shipper's Hub Nomination Form is received, as verified by telephone approval, and Shipper's W-1 service agreement will be deemed to be so amended.

- 3.2 If during the term of a W-1 Nomination, Transporter posts a lower Posted Rate on the EBB, Shipper's Wheeling Service Agreement will be deemed amended to reduce the rate to the current Posted Rate for the term of the Nomination; provided, however, if the current Posted Rate is subsequently increased during the term of that Nomination, the W-1 service agreement will be deemed amended to reflect the increased rate but no more than the then-current Posted Rate at the commencement of such Nomination.
- 3.3 Notwithstanding Paragraphs 3.1 and 3.2, on any day that a Shipper both tenders and receives gas at the corresponding Hub Points, to the extent that the quantity tendered and received are equal, the entire charge shall be a commodity only charge at the current Posted Rate Schedule W-1 Fly-By Rate per dth as posted on the EBB (ranging between the maximum and minimum of such rate set forth on the currently effective Sheet No. 5A of this tariff) times the quantity of gas tendered. In addition, to the extent that the quantities of gas tendered and received are not equal, the current Posted Rate Schedule W-1 Fly-By rate shall apply to the net difference. If Shipper informs Transporter that Shipper is transferring title to the gas to another party at the Hub Point at which Transporter is to deliver the gas to Shipper, Transporter shall deliver that gas at that Hub Point for the account of Shipper's transferee.
- 3.4 Transporter will retain the percent of receipts set forth on Sheet No. 5A as "fuel, loss and company-use allowance," except that this percentage may be discounted as provided in Subsection 3.5, hereof.
- 3.5 Transporter is not obligated to offer to wheel or to wheel gas at any rates or allowances less than the maximum rates and allowances specified for this Rate Schedule on Sheet No. 5A; however, nothing precludes Transporter from charging a rate between the maximum and minimum rates or retaining less than the maximum allowance for this service under this Rate Schedule.

4. AUTHORIZED OVERRUN

- 4.1 Upon request of Shipper, Transporter may (but is not obligated to) wheel on any day, quantities of natural gas in excess of Shipper's MDTQ for wheeling under the W-1 Service Agreement when, in Transporter's judgement, the delivery capacity of its system will permit such wheeling obligations.
- 4.2 Shipper shall pay Transporter the applicable rate for Authorized Overrun Wheeling set forth on Sheet No. 5A of this Tariff. Charges under Section 14.2 of the General Terms and Conditions shall only be applicable to discrepancies from the agreed quantities of Authorized Overrun Wheeling Service.

5. RECEIPT AND DELIVERY PRESSURE

Shipper shall provide gas to Transporter at pressure sufficient to enter Transporter's pipeline at the point(s) of receipt, provided, however, that such pressure shall not exceed any maximum pressure determined by Transporter from time to time. Transporter shall deliver gas to or for the account of Shipper at the delivery point(s) at the pressure existing in Transporter's system.

6. MINIMUM RECEIPT POINT QUANTITIES

Transporter shall not be required to receive or deliver gas at a receipt or delivery point where the total quantity of gas for Wheeling scheduled is less than that required to operate existing measurement facilities at such point.

7. GENERAL TERMS AND CONDITIONS

The General Terms and Conditions of Transporter's effective FERC Gas Tariff, Third Revised Volume No. 1, and any revisions thereof that may be proposed and made effective from time to time thereafter, shall apply to and are made a part of this Rate Schedule, to the extent such terms and conditions are not inconsistent with the express terms of this W-1 Rate Schedule.

RATE SCHEDULE SS-1

110-DAY UNDERGROUND STORAGE SERVICE

1. AVAILABILITY

This rate schedule is available for the purchase of underground gas storage service from National Fuel Gas Supply Corporation (hereinafter called "Transporter") by any purchaser (hereinafter called "Buyer") when the Buyer;

- (a) has executed a service agreement, which is accepted by Transporter, for the purchase of service under this rate schedule,
- (b) has entered into such transportation and/or exchange agreement with other parties as may be necessary to accomplish delivery and receipt of gas, and
- (c) has provided base gas to Transporter upon such terms and in such quantities as Transporter may determine to be necessary for development of storage facilities.

2. APPLICABILITY AND CHARACTER OF SERVICE

This rate schedule provides a firm storage service available to each customer during the contract year which consists of an annual period commencing April 1 and ending the following March 31.

- 2.1 Subject to Subparagraph 2.4 below, Buyer has the right to have Quantities of Gas in storage up to a maximum quantity specified in the Underground Storage Service Agreement as the "Annual Storage Quantity".
- 2.2 Subject to Subparagraph 2.4 below, Buyer has the right to make gas available for injection and Transporter will inject such gas into storage from April 1 through October 31 of each contract year (hereinafter the "Injection Season") at a daily rate not to exceed the Maximum Daily Injection Quantity as set forth in the applicable Underground Storage Service Agreement (hereinafter the "Maximum Daily Injection Quantity"). During the Injection Season, as far in advance as possible and no later than the beginning of the next preceding day, each Buyer shall notify Transporter of the Quantity of Gas, net of the Injection Allowance (as defined in Subparagraph 2.4 below), which it desires to inject in excess of its Maximum Daily Injection Quantity pursuant to Paragraph 7 below. Upon request, Transporter may waive any part of such advance notice requirement, if, in its judgment, operating conditions permit.

RATE SCHEDULE SS-1
110-DAY UNDERGROUND STORAGE SERVICE

2. APPLICABILITY AND CHARACTER OF SERVICE (cont'd)

- 2.3 Subject to Subparagraph 2.4 below, Buyer will have the right to receive and Transporter will deliver commencing November 1 and terminating March 31 in each contract year (hereinafter the "Withdrawal Season") that Quantity of Gas which Buyer has in storage on October 31 in such contract year (augmented by any quantity of Buyer's gas injected during such Withdrawal Season) at a daily rate not exceeding the Maximum Daily Withdrawal Quantity set forth in the applicable Underground Storage Service Agreement (hereinafter the "Maximum Daily Withdrawal Quantity"). During the Withdrawal Season, as far in advance as possible and no later than the beginning of the next preceding day, each Buyer shall notify Transporter of the Quantity of Gas which it desires to withdraw on each day pursuant to this Subparagraph 2.3. Such notice may be given by telephone and shall also specify any Quantity of Gas which Buyer desires to have withdrawn and delivered in excess of its Maximum Daily Withdrawal Quantity pursuant to Paragraph 8 below. Upon request, Transporter may waive any part of such advance notice requirement, if, in its judgment, operating conditions permit.
- 2.4 During injection of gas hereunder, Transporter will retain a quantity of gas equal to the product obtained by multiplying the quantity of gas received for injection by the percentage set forth on Sheet No. 6-A as "surface operating allowance" ("Injection Allowance"). During withdrawal of gas hereunder, Transporter will retain a quantity of gas equal to the product obtained by multiplying the quantity of gas withdrawn by the percentage set forth on Sheet No. 6-A as "surface operating allowance" ("Withdrawal Allowance"). On any given day during the Injection Season, Buyer shall be permitted to deliver Quantities of Gas to Transporter for injection necessary to satisfy the Injection Allowance and Withdrawal Allowance, occurring during the Injection Season as reported by Transporter. Such additional Quantities of Gas will not reduce Buyer's Maximum Daily Injection Quantity and will not be considered in determining the Quantities of Gas subject to the Excess Service Charge, but shall be subject to a Surface Operating Allowance Charge.

RATE SCHEDULE SS-1

110-DAY UNDERGROUND STORAGE SERVICE

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

Consequently, Buyer will begin each Withdrawal Season with those Quantities of Gas injected into storage during the immediately preceding Injection Season, less such Quantities of Gas equal to, unless tendered during the Injection Season: (a) the allowances applicable to such Quantities of Gas; and (b) any of Buyer's Quantities of Gas withdrawn for delivery to Buyer during the Injection Season, plus carryover Quantities of Gas as described in Paragraph 6 of this rate schedule.

- 2.5 Subject to (a) the limitation that Buyer may have in storage at any one time no more than its Annual Storage Quantity, (b) the limitation that Transporter will not be obligated to deliver more than the Quantity of Buyer's Gas in its possession as reduced by the Injection Allowance and the Withdrawal Allowance, if applicable, and (c) such provisions for transportation as may be made by Buyer for delivery to Transporter and for redelivery to or for the account of Buyer, Buyer may request Transporter to accept for injection gas offered by Buyer and to redeliver gas to or for the account of Buyer Quantities of Gas up to five percent in excess of the respective Maximum Daily Injection Quantity and Maximum Daily Withdrawal Quantity. Upon receiving such request, Transporter shall determine and act upon such request in accordance with Paragraphs 7 and 8 of this rate schedule. In order to facilitate carrying out the procedures set forth in Paragraphs 7 and 8 of this rate schedule, in each contract year Buyer will provide Transporter on the first day of the month immediately preceding the respective Injection Season and Withdrawal Season a schedule showing its best estimate of requested injection volumes and withdrawal volumes during such respective seasons.

- 2.6 Subject to (a) the limitation that Buyer may have in storage at any one time no more than its Annual Storage Quantity, (b) the limitation that Transporter will not be obligated to deliver more than the Quantity of Gas that Buyer has in its possession as reduced except for service provided pursuant to paragraph A(2) and B(2) below, by the Withdrawal Allowance, (c) the limitation that Buyer will not exceed its Maximum Daily Injection Quantity or its Maximum Daily Withdrawal Quantity (except as provided in paragraph 2.5), (d) such provisions for transportation as may be made by Buyer for delivery to Transporter and for redelivery to or for the account of Buyer, and (e) Buyer providing Transporter with a minimum of twenty-four hours prior notice, Transporter shall:

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

- A. accept for injection gas offered by Buyer during the Withdrawal Season provided: (1) the pressure of the gas being tendered by the transporting pipeline is sufficient to permit Transporter to physically accept the gas from the transporting pipeline at Transporter's Line EC-1, or (2) there are corresponding quantities being delivered by Transporter on behalf of other customers to the same transporting pipeline at Transporter's Line EC-1 from which the quantities tendered for injection would be received so as to permit a back off, or (3) the Buyer tendering gas for injection is concurrently requesting to withdraw gas at quantities equal to or greater than the injection quantities.
- B. provide withdrawal gas requested by Buyer during the Injection Season provided: (1) the pressure in the Transporter's facilities is sufficient to permit delivery of gas to the respective transporting pipeline's facilities at Transporter's Line EC-1, or (2) there are corresponding quantities being received for injection by Transporter from the same transporting pipeline on behalf of other customers of Transporter from Transporter's Line EC-1, or (3) the Buyer requesting to withdraw gas is concurrently delivering quantities of gas for injection greater than or equal to the quantities being withdrawn.

3. RATES

- 3.1 For all services rendered to Buyer under this Rate Schedule, Buyer shall pay Transporter each month an amount of money calculated as the sum of the following charges. The currently-effective rates per Dth for each charge are set forth in that portion of the currently effective Sheet No. 6A of this Tariff which relates to the Rate Schedule and which are incorporated herein.

Deliverability Charge: The Deliverability Rate times the Buyer's Annual Storage Quantity divided by 110.

Capacity Charge: The Capacity Rate times the Buyer's Annual Storage Quantity.

3. RATES (cont'd)

Injection/Withdrawal Charge: The Injection/Withdrawal Rate times the Quantities of Gas Injected or Withdrawn for the Buyer.

Excess Service Charge: The Excess Service Rate times the Quantities of Gas provided pursuant to Paragraph 2.5 of this Rate Schedule.

Surface Operating Allowance Charge: The Injection or Withdrawal Charge times the Quantities of Gas delivered for the express purpose of satisfying the Injection or Withdrawal Allowance.

- 3.2 Notwithstanding Paragraph 3.1, (a) on any day that a Buyer both tenders gas for injection and requests withdrawals of gas from storage pursuant to Paragraphs 2.6 A(2) or B(2) of this rate schedule at the same receipt/delivery point, to the extent that the quantities tendered for injection and the quantities requested to be withdrawn are equal, the Injection/Withdrawal charge shall be \$0.0100/Dth times the Quantities of Gas tendered for injection, plus \$0.0100/Dth times the Quantities of Gas requested for withdrawal. To the extent that the quantities tendered for injection and requested for withdrawal are not equal, the Injection/Withdrawal Charge, or Excess Service Charge, if applicable, reflected in Paragraph 3.1 shall apply to the net difference.

4. MINIMUM BILL

The Minimum monthly bill (hereinafter "Minimum Bill") shall be the sum of the Deliverability and Capacity charges as stated in Paragraph 3.1.

5. CREDIT FOR DEFAULT QUANTITIES

Buyer shall receive credit against payments due to Transporter for that portion of Buyer's payments made in the immediately preceding contract year measured as followed:

Credit = Buyer's x Default Quantities
 Payments Buyer's Annual
 Storage Quantity

"Credit" represents the amount of credit to be applied against Buyer's payments due to Transporter;

5. CREDIT FOR DEFAULT QUANTITIES (Cont'd)

"Buyer's Payments" represents the sum of Buyer's payments to Transporter in the immediately preceding contract year;

"Default Quantities" represents the sum of Quantities of Gas on each day of the Injection Season and of the Withdrawal Season in such contract year;

- (a) which were tendered by Buyer and duly requested by Buyer to be injected or which were in storage and duly requested to be withdrawn and delivered,
- (b) which Transporter was obligated to accept for injection or to withdraw and deliver under Buyer's effective Underground Storage Service Agreement, and
- (c) which Transporter, by reason of its sole negligence or willful breach of the terms of service hereunder, failed to accept for injection or withdraw and deliver prior to the end of such Injection Season or Withdrawal Season; and

"Buyers Annual Storage Quantity" represents the Annual Storage Quantity applicable according to Buyer's Underground Storage Service Agreement as in effect during the applicable contract year; provided that such credit shall be contingent upon Buyer having used its best efforts to, as the case may be,

- (a) make available for injection, during the remaining portion of such Injection Season, Quantities of Gas equivalent to the Default Quantities occurring during such Injection Season, or
- (b) accept Quantities of Gas withdrawn from storage, during the remaining portion of such Withdrawal Season, equivalent to the Default Quantities occurring during such Withdrawal Season.

Any credit due at the end of the last contract year in which Buyer's Underground Storage Service Agreement is in effect shall be paid in cash by Transporter to Buyer. The provisions of this Paragraph 5 shall not in any way affect rights which Buyer has under Paragraph 2 of this rate schedule.

IR-1 RATE SCHEDULE

Hub Service - Imbalance Resolution Schedule

1. AVAILABILITY

1.1 This IR-1 Rate Schedule is available for imbalance resolution service by National Fuel Gas Supply Corporation (hereinafter called "Transporter") in the geographic area encompassing Transporter's facilities at the points identified in Section 1.17 of the General Terms and Conditions of Transporter's FERC Gas Tariff, as "Hub Points", on behalf of any person (hereinafter called "Shipper") provided that Shipper meets the eligibility requirements hereof. Transporter will offer imbalance resolution service to any prospective Shipper on a non-discriminatory basis.

1.2 In addition to the information specified in Section 31 of the General Terms and Conditions of this tariff, a request for service under this rate schedule shall include the following:

(a) Gas Quantities: The Maximum Advanced Quantity (MAQ) stated in dekatherms.

2. APPLICABILITY AND CHARACTER OF SERVICE

2.1 The Imbalance Resolution service provided under this IR-1 Rate Schedule shall be performed under Part 284 of the Commission's Regulations. This IR-1 Rate Schedule shall apply to all imbalance resolutions by Transporter for Shipper pursuant to an IR-1 Service Agreement.

2.2 (a) Service hereunder shall be provided on an interruptible basis only. IR-1 Service shall be subordinate to any and all firm and interruptible services that are non-Hub services as supplied by Transporter including the management of Transporter's system and the use of storage to support its firm transportation services.

(b) Transporter will authorize IR-1 service for any Shipper only if, within Transporter's best operating judgement and discretion, such service is not otherwise expected to prevent

RATE SCHEDULE SS-1

110-DAY UNDERGROUND STORAGE SERVICE

6. CARRYOVER PROVISIONS

For purposes of determining the Quantity of Gas of Buyer in storage as of April 1 of each year until the April 1 immediately following expiration of Buyer's Underground Storage Service Agreement,

- (a) the Quantity of Gas shall be (i) the Quantity of Gas of Buyer in storage as of the preceding April 1, plus (ii) the Quantity of Gas received for injection (net of the Injection Allowance) during the intervening contract year less (iii) the Quantity of Gas withdrawn and delivered (including the Withdrawal Allowance) during the intervening contract year.

In the event that immediately following the last contract year in which the service agreement is in effect there remains in storage any Quantity of Gas of Buyer of which Buyer, for reasons other than Transporter's sole negligence or willful breach of the terms of service hereunder, has not taken delivery, Buyer shall pay to Transporter for each month or portion thereof during which any of Buyer's gas remains in storage an amount equal to the amount payable in the final month of such last contract year, and Buyer shall have the right to take delivery of such remaining Quantity at the Maximum Daily Withdrawal Quantity.

7. EXCESS INJECTIONS AND APPORTIONMENT OF REQUESTED QUANTITIES

On any day for which Buyer, through the injection notice required by Subparagraph 2.2, requests Transporter to receive for injection Quantities of Gas in excess of said Buyer's Maximum Daily Injection Quantity, together with the applicable Injection Allowance, Transporter shall determine what, if any, portion of the excess Quantity of Gas it will receive, subject always to Transporter's firm obligation to receive gas scheduled for injection by other Buyers under Transporter's Rate Schedules ESS, FSS, SS-1 and SS-2 up to their Maximum Daily Injection Quantities. Transporter may, in making such determination, take into account the fact that one or more other such Buyers have scheduled Quantities of Gas for injection which are less than their Maximum Daily Injection Quantities, but Transporter shall not be obligated to receive such excess Quantities of Gas except to the extent that Transporter may, in its sole judgment, determine that it is expedient for it to do so. Having made such determination, Transporter will receive excess

Hub Service - Imbalance Resolution Schedule

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

Transporter from meeting all of its firm and interruptible service obligations as an interstate pipeline, including Transporter's system management needs. In the event that service has already commenced and Transporter learns that the continued furnishing of service may prevent Transporter from meeting all of its firm and interruptible service obligations as an interstate pipeline, then Transporter may, at its sole discretion and upon giving appropriate notice to Shipper(s), interrupt the continuation of any or all of the services hereunder.

(c) Transporter will treat Shippers under this Rate Schedule as not similarly situated to non-Hub Shippers.

- 2.3 Service hereunder shall consist of the advance of gas by Transporter, up to the Maximum Advance Quantity (MAQ) specified in the IR-1 Service Agreement, at one of the Hub Point(s), and the acceptance at the same or any other Hub Point(s) of the quantity advanced by Transporter hereunder.
- 2.4 Shipper shall be required to return the quantity of gas advanced by Transporter.
- 2.5 Shipper may nominate for the return of advanced gas at any time, subject to Section 13 of the General Terms and Conditions of this Tariff, and Transporter shall accept such gas to the extent it has capacity to do so. The voluntary return of advanced gas hereunder shall have a priority of service equal to service under the IT Rate Schedule.
- 2.6 Shipper must return the quantities of gas specified in Section 2.3 hereof within forty eight (48) hours of receipt of notification from Transporter.

RATE SCHEDULE SS-1

110-DAY UNDERGROUND STORAGE SERVICE

7. EXCESS INJECTIONS AND APPORTIONMENT OF REQUESTED QUANTITIES (Cont'd)

Quantities of gas to the extent consistent with such determination. Where two or more such buyers request the injection of excess Quantities of Gas on any day and Transporter so determines that it will inject a portion but not the totality of all such requested Quantities of Gas, it shall apportion the excess Quantity of Gas to be injected on such day among the requesting Buyers under Transporter's Rate Schedules ESS, FSS, SS-1 and SS-2 in the relation of their respective Maximum Daily Injection Quantities and shall receive excess gas accordingly.

8. EXCESS WITHDRAWALS AND APPORTIONMENT OF REQUESTED QUANTITIES

On any day for which Buyer, through the withdrawal notice required by Subparagraph 2.3, requests Transporter to withdraw and deliver to or for the account of said Buyer Quantities of Gas in excess of its Maximum Daily Withdrawal Quantity, net of the applicable Withdrawal Allowance, Transporter shall determine what, if any, portion of the excess Quantity of Gas it will withdraw and deliver, subject always to Transporter's firm obligation to withdraw and deliver gas scheduled for withdrawal by other Buyers under Transporter's Rate Schedules ESS, FSS, SS-1 and SS-2 up to their Maximum Daily Withdrawal Quantities. Transporter may, in making such determination take into account the fact that one or more other such Buyers have scheduled Quantities of Gas for withdrawal and delivery which are less than the Maximum Daily Withdrawal Quantities, but Transporter shall not be obligated to withdraw and deliver such excess Quantities of Gas except to the extent that Transporter may, in its sole judgment, determine that it is expedient for it to do so. Having made such determination, Transporter will withdraw and deliver excess gas to the extent consistent with such determination. Where two or more such Buyers request the withdrawal and delivery of excess Quantities of Gas on any day and Transporter so determines that it will withdraw and deliver a portion but not the totality of all such requested Quantities of Gas, it shall apportion the excess Quantity of Gas to be withdrawn and delivered on such day among the requesting Buyers under Transporter's Rate Schedules ESS, FSS, SS-1 and SS-2 in the relation of their respective Maximum Daily Withdrawal Quantities and shall withdraw and deliver excess gas accordingly.

IR-1 RATE SCHEDULE

Hub Service - Imbalance Resolution Schedule

3. RATE

- 3.1 The maximum and minimum rates per Dth delivered to Shipper for Imbalance Resolution Service under are set forth on the currently effective Sheet No. 5A of this tariff. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff. These rates include a First Day charge for the quantities of gas for the day of advance and a charge for each subsequent day until the return of the gas on a first-out first-in basis. The current Posted Rate (ranging between the maximum and minimum rates) will be posted on Transporter's Electronic Bulletin Board, which is subject to periodic changes. Shipper shall pay the current Posted Rate on the date the Shipper's Hub Nomination Form is received, as verified by telephone approval, and Shipper's IR-1 service agreement will be deemed to be so amended.
- 3.2 If during the term of a IR-1 Service Agreement, Transporter posts a lower Posted Rate on the Electronic Bulletin Board, Shipper's IR-1 service agreement will be deemed amended to reduce the rate to the current Posted Rate for the term of the Nomination; provided however, if the current Posted Rate is subsequently increased during the term of that Nomination, the IR-1 service agreement will be deemed amended to reflect the increased rate but no more than the then-current Posted Rate at the commencement of such Nomination.
- 3.3 Transporter will retain the percent of receipts set forth on Sheet No. 5A as "fuel, loss and company-use allowance," except that this percentage may be discounted as provided in Subsection 3.4 hereof.
- 3.4 Transporter is not obligated to offer to resolve imbalances or to resolve imbalances at any rates or allowances less than the maximum rates and allowances specified for this Rate Schedule on Sheet No. 5A; however, nothing precludes Transporter from charging a rate between the maximum and minimum rates (the current Posted Rate), or retaining less than the maximum allowance for this service under this Rate Schedule.

RATE SCHEDULE SS-2

150-DAY UNDERGROUND STORAGE SERVICE

1. AVAILABILITY

This rate schedule is available for the purchase of underground gas storage service from National Fuel Gas Supply Corporation (hereinafter called "Transporter") by any purchaser (hereinafter called "Buyer") when the Buyer;

- (a) has executed a service agreement, which is accepted by Transporter, for the purchase of service under this rate schedule,
- (b) has entered into such transportation and/or exchange agreement with other parties as may be necessary to accomplish delivery and receipt of gas, and
- (c) has provided base gas to Transporter upon such terms and in such quantities as Transporter may determine to be necessary for development of storage facilities.

2. APPLICABILITY AND CHARACTER OF SERVICE

This rate schedule provides a firm storage service available to each customer during the contract year which consists of an annual period commencing April 1 and ending the following March 31.

- 2.1 Subject to Subparagraph 2.4 below, Buyer has the right to have Quantities of Gas in storage up to a maximum quantity specified in the Underground Storage Service Agreement as the "Annual Storage Quantity".
- 2.2 Subject to Subparagraph 2.4 below, Buyer has the right to make gas available for injection and Transporter will inject such gas into storage from April 1 through October 31 of each contract year (hereinafter the "Injection Season") at a daily rate not to exceed the Maximum Daily Injection Quantity as set forth in the applicable Underground Storage Service Agreement (hereinafter the "Maximum Daily Injection Quantity"). During the Injection Season, as far in advance as possible and no later than the beginning of the next preceding day, each Buyer shall notify Transporter of the Quantity of Gas, net of the Injection Allowance (as defined in Subparagraph 2.4 below), which it desires to inject in excess of its Maximum Daily Injection Quantity pursuant to Paragraph 7 below. Upon request, Transporter may waive any part of such advance notice requirement, if, in its judgment, operating conditions permit.

IR-1 RATE SCHEDULE

Hub Service - Imbalance Resolution Schedule

4. RECEIPT AND DELIVERY PRESSURE

Shipper shall provide gas to Transporter at pressure sufficient to enter Transporter's pipeline at the point(s) of receipt, provided, however, that such pressure shall not exceed any maximum pressure determined by Transporter from time to time. Transporter shall deliver gas to or for the account of Shipper at the delivery point(s) at the pressure existing in Transporter's system.

5. MINIMUM RECEIPT POINT QUANTITIES

Transporter shall not be required to receive or deliver gas at a receipt or delivery point where the total quantity of gas for IR-1 Service scheduled is less than that required to operate existing measurement facilities at such point.

6. GENERAL TERMS AND CONDITIONS

The General Terms and Conditions of Transporter's effective FERC Gas Tariff, Third Revised Volume No. 1, and any revisions thereof that may be proposed and made effective from time to time thereafter, shall apply to and are made a part of this Rate Schedule, to the extent such terms and conditions are not inconsistent with the express terms of this IR-1 Rate Schedule.

2. APPLICABILITY AND CHARACTER OF SERVICE (cont'd)

- 2.3 Subject to Subparagraph 2.4 below, Buyer will have the right to receive and Transporter will deliver commencing November 1 and terminating March 31 in each contract year (hereinafter the "Withdrawal Season") that Quantity of Gas which Buyer has in storage on October 31 in such contract year (augmented by any quantity of Buyer's gas injected during such Withdrawal Season) at a daily rate not exceeding the Maximum Daily Withdrawal Quantity set forth in the applicable Underground Storage Service Agreement (hereinafter the "Maximum Daily Withdrawal Quantity"). During the Withdrawal Season, as far in advance as possible and no later than the beginning of the next preceding day, each Buyer shall notify Transporter of the Quantity of Gas which it desires to withdraw on each day pursuant to this Subparagraph 2.3. Such notice may be given by telephone and shall also specify any Quantity of Gas which Buyer desires to have withdrawn and delivered in excess of its Maximum Daily Withdrawal Quantity pursuant to Paragraph 8 below. Upon request, Transporter may waive any part of such advance notice requirement, if, in its judgment, operating conditions permit.
- 2.4 During injection of gas hereunder, Transporter will retain a quantity of gas equal to the product obtained by multiplying the quantity of gas received for injection by the percentage set forth on Sheet No. 6-A as "surface operating allowance" ("Injection Allowance"). During withdrawal of gas hereunder, Transporter will retain a quantity of gas equal to the product obtained by multiplying the quantity of gas withdrawn by the percentage set forth on Sheet No. 6-A as "surface operating allowance" ("Withdrawal Allowance"). On any given day during the Injection Season, Buyer shall be permitted to deliver Quantities of Gas to Transporter for injection necessary to satisfy the Injection Allowance and Withdrawal Allowance, occurring during the Injection Season as reported by Transporter. Such additional Quantities of Gas will not reduce Buyer's Maximum Daily Injection Quantity and will not be considered in determining the Quantities of Gas subject to the Excess Service Charge, but shall be subject to a Surface Operating Allowance Charge.

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

Consequently, Buyer will begin each Withdrawal Season with those Quantities of Gas injected into storage during the immediately preceding Injection Season, less Quantities of Gas equal to, unless tendered during the Injection Season: (a) the allowances applicable to such Quantities of Gas, and (b) any of Buyer's Quantities of Gas withdrawn for delivery to Buyer during the Injection Season, plus carryover Quantities of Gas as described in Paragraph 6 of this rate schedule.

2.5 Subject to (a) the limitation that Buyer may have in storage at any one time no more than its Annual Storage Quantity, (b) the limitation that Transporter will not be obligated to deliver more than the Quantity of Buyer's Gas in its possession as reduced by the Injection Allowance and the Withdrawal Allowance, if applicable, and (c) such provisions for transportation as may be made by Buyer for delivery to Transporter and for redelivery to or for the account of Buyer, Buyer may request Transporter to accept for injection gas offered by Buyer and to redeliver gas to or for the account of Buyer Quantities of Gas up to five percent in excess of the respective Maximum Daily Injection Quantity and Maximum Daily Withdrawal Quantity. Upon receiving such request, Transporter shall determine and act upon such request in accordance with Paragraphs 7 and 8 of this rate schedule. In order to facilitate carrying out the procedures set forth in Paragraphs 7 and 8 of this rate schedule, in each contract year Buyer will provide Transporter on the first day of the month immediately preceding the respective Injection Season and Withdrawal Season a schedule showing its best estimate of requested injection quantities and withdrawal quantities during such respective seasons.

2.6 Subject to (a) the limitation that Buyer may have in storage at any one time no more than its Annual Storage Quantity, (b) the limitation that Transporter will not be obligated to deliver more than the Quantity of Gas that Buyer has in its possession as reduced except for service provided pursuant to paragraph A(2) and B(2) below, by the Withdrawal Allowance, (c) the limitation that Buyer will not exceed its Maximum Daily Injection Quantity or

its Maximum Daily Withdrawal Quantity (except as provided in paragraph 2.5), (d) such provisions for transportation as may be made by Buyer for delivery to Transporter and for redelivery to or for the account of Buyer, and (e) Buyer providing Transporter with a minimum of twenty-four hours prior notice, Transporter shall:

- A. accept for injection gas offered by Buyer during the Withdrawal Season provided: (1) the pressure of the gas being tendered by the transporting pipeline is sufficient to permit Transporter to physically accept the gas from the transporting pipeline at Transporter's Line EC-1, or (2) there are corresponding quantities being delivered by Transporter on behalf of other customers to the same transporting pipeline at Transporter's Line EC-1 from which the quantities tendered for injection would be received so as to permit a back off, or (3) the Buyer tendering gas for injection is concurrently requesting to withdraw gas at quantities equal to or greater than the injection quantities.
- B. provide withdrawal gas requested by Buyer during the Injection Season provided: (1) the pressure in the Transporter's facilities is sufficient to permit delivery of gas to the respective transporting pipeline's facilities at Transporter's Line EC-1, or (2) there are corresponding quantities being received for injection by Transporter from the same transporting pipeline on behalf of other customers of Transporter from Transporter's Line EC-1, or (3) the Buyer requesting to withdraw gas is concurrently delivering quantities of gas for injection greater than or equal to the quantities being withdrawn.

3. RATES

- 3.1 For all services rendered to Buyer under this Rate Schedule, Buyer shall pay Transporter each month an amount of money calculated as the sum of the following charges. The currently-effective rates per Dth for each charge are set forth in that portion of the currently effective Sheet No. 6A of this Tariff which relates to the Rate Schedule and which are incorporated herein.

150-DAY UNDERGROUND STORAGE SERVICE

3. RATES (Cont'd)

Deliverability Charge: The Deliverability Rate times the Maximum Daily Withdrawal Quantity as provided for in Buyer's Service Agreement.

Capacity Charge: The Capacity Rate times the Buyer's Annual Storage Quantity.

Injection/Withdrawal Charge: The Injection/Withdrawal Rate times the Quantities of Gas Injected or Withdrawn for the Buyer.

Excess Service Charge: The Excess Service Rate times the Quantities of Gas provided to Buyer pursuant to Paragraph 2.5 of this Rate Schedule.

Surface Operating Allowance Charge: The Injection or Withdrawal Charge times the Quantities of Gas delivered for the express purpose of satisfying the Injection or Withdrawal Allowance.

- 3.2 Notwithstanding Paragraph 3.1, on any day that a Buyer both tenders gas for injection and requests withdrawals of gas from storage pursuant to Paragraphs 2.6 A(2) or B(2) of this rate schedule at the same receipt/delivery point, to the extent that the quantities tendered for injection and the volumes requested to be withdrawn are equal, the Injection/Withdrawal charge shall be \$0.0100/Dth times the Quantities of Gas tendered for injection, plus \$0.0100/Dth times the Quantities of Gas requested for withdrawal. To the extent that the quantities tendered for injection and requested for withdrawal are not equal, the Injection/Withdrawal Charge, or Excess Service Charge, if applicable, reflected in Paragraph 3.1 shall apply to the net difference.

4. MINIMUM BILL

The Minimum monthly bill (hereinafter "Minimum Bill") shall be the sum of the Deliverability and Capacity charges as stated in Paragraph 3.1.

5. CREDIT FOR DEFAULT (Cont'd)

- (a) make available for injection, during the remaining portion of such Injection Season, Quantities of Gas equivalent to the Default Quantities occurring during such Injection Season, or
- (b) accept Quantities of Gas withdrawn from storage, during the remaining portion of such Withdrawal Season, equivalent to the Default Quantities occurring during such Withdrawal Season.

Any credit due at the end of the last contract year in which Buyer's Underground Storage Service Agreement is in effect shall be paid in cash by Transporter to Buyer. The provisions of this Paragraph 5 shall not in any way affect rights which Buyer has under Paragraph 2 of this rate schedule.

6. CARRYOVER PROVISIONS

For purposes of determining the Quantity of Gas of Buyer in storage as of April 1 of each year until the April 1 immediately following expiration of Buyer's Underground Storage Service Agreement,

- (a) the Quantity of Gas shall be (i) the Quantity of Gas of Buyer in storage as of the preceding April 1, plus (ii) the Quantity of Gas received for injection (net of the Injection Allowance) during the intervening contract year less (iii) the Quantity of Gas withdrawn and delivered (including the Withdrawal Allowance) during the intervening contract year.

In the event that immediately following the last contract year in which the service agreement is in effect there remains in storage any Quantity of Gas of Buyer of which Buyer, for reasons other than Transporter's sole negligence or willful breach of the terms of service hereunder, has not taken delivery, Buyer shall pay to Transporter for each month or portion thereof during which any of Buyer's gas remains in storage an amount equal to the amount payable in the final month of such last contract year, and Buyer shall have the right to take delivery of such remaining Quantity at the Maximum Daily Withdrawal Quantity.

P-1 RATE SCHEDULE
Hub Service - Parking Schedule

1. AVAILABILITY

- 1.1 This P-1 rate schedule is available for parking service by National Fuel Gas Supply Corporation (hereinafter called "Transporter") in the geographic area encompassing Transporter's facilities at the points identified in Section 1.17 of the General Terms and Conditions of Transporter's FERC Gas Tariff, as "Hub Points", on behalf of any person (hereinafter called "Shipper") provided that Shipper meets the eligibility requirements hereof. Transporter will offer parking service to any prospective Shipper on a non-discriminatory basis.
- 1.2 In addition to the information specified in Section 31 of the General Terms and Conditions of this tariff, a request for service under this rate schedule shall include the following:
 - (a) Gas Quantities: The Maximum Daily P-1 Quantity (MDQ) applicable to each Receipt Point(s) and Delivery Point(s) and the Maximum Storage Quantity (MSQ) stated in dekatherms.

2. APPLICABILITY AND CHARACTER OF SERVICE

- 2.1 The parking service provided under this P-1 Rate Schedule shall be performed under Part 284 of the Commission's Regulations. This P-1 Rate Schedule shall apply to all gas parked by Transporter for Shipper pursuant to a P-1 Service Agreement.
- 2.2
 - (a) Service hereunder shall be provided on an interruptible basis only. Interruption of service includes decreasing, suspending, or discontinuing both the receipt and delivery of gas.
 - (b) Service hereunder may be interrupted whenever necessary to provide firm transportation, firm storage, and other interruptible services that are non-Hub services. Service hereunder is also subject to the availability of any necessary upstream or downstream transportation, which shall be the responsibility of Shipper to arrange.

7. EXCESS INJECTIONS AND APPORTIONMENT OF REQUESTED QUANTITIES

On any day for which Buyer, through the injection notice required by Subparagraph 2.2, requests Transporter to receive for injection Quantities of Gas in excess of said Buyer's Maximum Daily Injection Quantity, together with the applicable Injection Allowance, Transporter shall determine what, if any, portion of the excess Quantity of Gas it will receive, subject always to Transporter's firm obligation to receive gas scheduled for injection by other Buyers under Transporter's Rate Schedules ESS, FSS, SS-1 and SS-2 up to their Maximum Daily Injection Quantities. Transporter may, in making such determination, take into account the fact that one or more other such Buyers have scheduled Quantities of Gas for injection which are less than their Maximum Daily Injection Quantities, but Transporter shall not be obligated to receive such excess Quantities of Gas except to the extent that Transporter may, in its sole judgment, determine that it is expedient for it to do so. Having made such determination, Transporter will receive excess Quantities of Gas to the extent consistent with such determination. Where two or more such buyers request the injection of excess Quantities of Gas on any day and Transporter so determines that it will inject a portion but not the totality of all such requested Quantities of Gas, it shall apportion the excess Quantity of Gas to be injected on such day among the requesting Buyers under Transporter's Rate Schedules ESS, FSS, SS-1 and SS-2 in the relation of their respective Maximum Daily Injection Quantities and shall receive excess gas accordingly.

8. EXCESS WITHDRAWALS AND APPORTIONMENT OF REQUESTED VOLUMES

On any day for which Buyer, through the withdrawal notice required by Subparagraph 2.3, requests Transporter to withdraw and deliver to or for the account of said Buyer Volumes of Gas in excess of its Maximum Daily Withdrawal Quantity, net of the applicable Withdrawal Allowance, Transporter shall determine what, if any, portion of the excess Quantity of Gas it will withdraw and deliver, subject always to Transporter's firm obligation to withdraw and deliver gas scheduled for withdrawal by other Buyers under Transporter's Rate Schedules ESS, FSS, SS-1 and SS-2 up to their Maximum Daily Withdrawal Quantities.

P-1 RATE SCHEDULE

Hub Service - Parking Schedule

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

(c) Transporter will treat Shippers under this Rate Schedule as not be similarly situated with non-Hub Shippers.

- 2.3 Service hereunder shall consist of the receipt by Transporter of natural gas tendered by Shipper for P-1 Service, at one of the Hub Point(s), up to the Maximum Daily Quantity (MDQ) specified in the P-1 Service Agreement, and the delivery of that natural gas (after reductions as set out in the P-1 Service Agreement and Section 4 of this P-1 Rate Schedule) by Transporter to Shipper or for Shipper's account at the same or any other Hub Point.
- 2.4 To the extent storage capacity which is being utilized by a Shipper hereunder is needed by Transporter in order to satisfy or to accommodate Transporter's obligations to firm transportation or storage customers, Transporter shall require Shipper to withdraw all, or any portion, of the gas quantities held in storage by Transporter within thirty (30) days of Transporter's notice to Shipper. If Shipper fails to arrange for the withdrawal from storage of the quantities specified by Transporter in its notice, despite the availability of capacity for the withdrawal of Shipper's gas under its P-1 Service Agreement, Transporter shall take title to Shipper's P-1 Storage Balance that Shipper was instructed to withdraw, free and clear of any adverse claims. Transporter's notice to Shipper may be verbal and in such case shall be followed by a written confirmation.
- 2.5 A P-1 Service Agreement with a primary term of one year or longer shall continue in effect beyond the expiration of the primary term until terminated by either party upon six (6) months written notice to the other as of the end of a Storage Period.
- 2.6 A Shipper receiving service under this P-1 Rate Schedule shall not lose priority for purposes of this Section by the renewal or extension of term of that service.

8. EXCESS WITHDRAWALS AND APPORTIONMENT OF REQUESTED VOLUMES (Cont'd)

Transporter may, in making such determination take into account the fact that one or more other such Buyers have scheduled Quantities of Gas for withdrawal and delivery which are less than the Maximum Daily Withdrawal Quantities, but Transporter shall not be obligated to withdraw and deliver such excess Quantities of Gas except to the extent that Transporter may, in its sole judgment, determine that it is expedient for it to do so. Having made such determination, Transporter will withdraw and deliver excess gas to the extent consistent with such determination. Where two or more such Buyers request the withdrawal and delivery of excess Quantities of Gas on any day and Transporter so determines that it will withdraw and deliver a portion but not the totality of all such requested Quantities of Gas, it shall apportion the excess Quantity of Gas to be withdrawn and delivered on such day among the requesting Buyers under Transporter's Rate Schedules ESS, FSS, SS-1 and SS-2 in the relation of their respective Maximum Daily Withdrawal Quantities and shall withdraw and deliver excess gas accordingly.

9. CONVERSION TO DEKATHERM BASIS

All services provided under this Rate Schedule SS-2 shall be provided on a dekatherm basis, for operational, gas accounting, billing and all other purposes. Shippers under this rate schedule shall have:

- (a) an Annual Storage Quantity equal to the product obtained by multiplying the Annual Storage Volume set forth in the Shipper's service agreement by 1.032;
- (b) a Maximum Daily Injection Quantity equal to the product obtained by multiplying the Maximum Daily Injection Volume set forth in the Shipper's service agreement (as said volume may vary according to the percentage of Annual Storage Quantity occupied) by 1.032; and
- (c) a Maximum Daily Withdrawal Quantity equal to the product obtained by multiplying the Maximum Daily Withdrawal Volume set forth in the Shipper's service agreement (as said volume may vary according to the percentage of Annual Storage Quantity occupied) by 1.032.

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

- 2.7 Service under this P-1 Rate Schedule shall be provided on a basis that is equal in quality for all P-1 Services hereunder, whether or not gas is purchased from Transporter.

3. RATE

- 3.1 The maximum and minimum rates for Parking are set forth on the currently effective Sheet No. 6 of this tariff. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff. These rates include a First Day charge for the quantities of gas for the day of injection and a charge for such subsequent day until withdrawal, on a first-in first-out basis. The current Posted Rate (ranging between the maximum and minimum rates) will be posted on Transporter's Electronic Bulletin Board, which is subject to periodic changes. Shipper shall pay the current Posted Rate on the date the Shipper's Service Request Form is received, as verified by telephone approval, and Shipper's P-1 service agreement will be deemed to be so amended.
- 3.2 If during the term of a Parking service agreement, Transporter posts a lower current Posted Rate on the Electronic Bulletin Board, Shipper's service agreement will be deemed amended to reduce the rate to the current Posted Rate for the remaining term of the Nomination; provided, however, if the current Posted Rate is subsequently increased during the term of that Nomination, the P-1 Service Agreement will be deemed amended for the remaining term of the nomination to reflect the increased rate but no more than the then-current Posted Rate at the commencement of such Nomination.
- 3.3 During injection of gas hereunder, Transporter will also retain a quantity of gas equal to the product obtained by multiplying the quantity of gas received by Transporter for injection under this P-1 Rate Schedule by the percentage set forth on Sheet No. 6 as "surface operating allowance", except as provided in Subsection 3.5 hereof.

3.4 During withdrawal of gas hereunder, Transporter will retain a quantity of gas equal to the product obtained by multiplying the quantity of gas withdrawn by the percentage set forth on Sheet No. 6 as "surface operating allowance", except as provided in Sub-section 3.5 hereof.

3.5 Transporter is not obligated to offer to park or to park gas at any rates or allowances less than the maximum rate and allowances specified for this Rate Schedule on Sheet No. 6; however, nothing precludes Transporter from charging a rate between the maximum and minimum rate (current Posted Rate), or retaining less than the maximum allowances for this service under this Rate Schedule.

4. STORAGE FIELD LOSSES

In the event of a loss of gas from one or more storage fields utilized by Transporter resulting from force majeure, such loss shall be allocated among Transporter and each Shipper receiving service in proportion to the quantities of gas (excluding base gas) of each in storage immediately prior thereto as reasonably determined by Transporter, and if such extraordinary loss exceeds the top gas balances of Transporter and all such Shippers, such excess will be deemed to be from Transporter's base gas. Losses of gas from storage fields utilized by Transporter that are not losses resulting from force majeure, as defined below, will be deemed to be gas from Transporter's base gas. For purposes of this Section 4, a loss of gas resulting from force majeure is a loss caused by any acts of God, strikes, lockouts, acts of the public enemy, wars, blockades, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, washouts, arrests and restraints of rules and peoples, civil disturbances, explosions, breakage or accident to machinery or line of pipe, line freeze-ups, or similar causes.

4. STORAGE FIELD LOSSES (Cont'd)

Shipper is placed on notice that Transporter may recognize storage gas losses for rate and accounting purposes. Such losses shall be valued at the current replacement cost of gas. After accounting recognition of any such loss, Transporter shall record and maintain a regulatory asset account which shall be maintained until Transporter's next general rate change filing under Section 4 of the Natural Gas Act. In any of Transporter's general rate change filings, Transporter may propose to amortize storage gas losses through its base rates. This provision shall apply to storage gas losses incurred but unamortized as of the date upon which this provision becomes effective, and to those incurred after that date.

5. WITHDRAWALS UPON TERMINATION OF SERVICE

Not less than thirty (30) days prior to the termination of storage service provided to any Shipper under this Rate Schedule, Transporter will notify Shipper of Shipper's Storage Balance. If the Storage Balance is positive, then the Shipper will withdraw such quantities within thirty (30) days of the termination of the storage service. If the Storage Balance is negative, then the Shipper will within thirty (30) days of the end of the storage service deliver sufficient quantities of gas to make up the negative balance. If the Shipper does not deliver sufficient quantities of gas within that thirty-day period, the Shipper shall pay Transporter the Negative Imbalance Cash-Out Price as set forth in Section 14.10(a) of the General Terms and Conditions, for any remaining negative balance.

6. RECEIPT AND DELIVERY PRESSURE

Shipper shall provide gas to Transporter at pressure sufficient to enter Transporter's pipeline at the point(s) of receipt, provided, however, that such pressure shall not exceed any maximum pressure determined by Transporter from time to time. Transporter shall deliver gas to or for the account of Shipper at the delivery point(s) at the pressure existing in Transporter's system.

P-2 RATE SCHEDULE

Hub Service - Parking Schedule

1. AVAILABILITY

- 1.1 This P-2 rate schedule is available for parking service by National Fuel Gas Supply Corporation (hereinafter called "Transporter") in the geographic area encompassing Transporter's facilities at the points identified in Section 1.17 of the General Terms and Conditions of Transporter's FERC Gas Tariff, as "Hub Points", on behalf of any person (hereinafter called "Shipper") provided that Shipper meets the eligibility requirements hereof and has arranged for the transportation of the gas to be parked by Transporter hereunder. Transporter will offer parking service to any prospective Shipper on a non-discriminatory basis.
- 1.2 In addition to the information specified in Section 31 of the General Terms and Conditions of this tariff, a request for service under this rate schedule shall include the following:
 - (a) Gas Quantities: The Maximum Daily P-2 Quantity (MDQ) applicable to each Receipt Point(s) and Delivery Point(s) and the Maximum Storage Quantity (MSQ) stated in dekatherms.

2. APPLICABILITY AND CHARACTER OF SERVICE

- 2.1 The parking service provided under this P-2 Rate Schedule shall be performed under Part 284 of the Commission's Regulations. This P-2 Rate Schedule shall apply to all gas parked by Transporter for Shipper pursuant to a P-2 Service Agreement.
- 2.2
 - (a) Service hereunder shall be provided on an interruptible basis only. Interruption of service includes decreasing, suspending, or discontinuing both the receipt and delivery of gas.
 - (b) Service hereunder may be interrupted whenever necessary to provide firm transportation, firm storage, and other interruptible services that are non-Hub services. Service hereunder is also subject to the availability of any necessary upstream or downstream transportation, which shall be the responsibility of Shipper to arrange.

RATE SCHEDULE SS-1
110-DAY UNDERGROUND STORAGE SERVICE

9. CONVERSION TO DEKATHERM BASIS

All services provided under this Rate Schedule SS-1 shall be provided on a dekatherm basis, for operational, gas accounting, billing and all other purposes. Shippers under this rate schedule shall have:

- (a) an Annual Storage Quantity equal to the product obtained by multiplying the Annual Storage Volume set forth in the Shipper's service agreement by 1.032;
- (b) a Maximum Daily Injection Quantity equal to the product obtained by multiplying the Maximum Daily Injection Volume set forth in the Shipper's service agreement (as said volume may vary according to the percentage of Annual Storage Quantity occupied) by 1.032; and
- (c) a Maximum Daily Withdrawal Quantity equal to the product obtained by multiplying the Maximum Daily Withdrawal Volume set forth in the Shipper's service agreement (as said volume may vary according to the percentage of Annual Storage Quantity occupied) by 1.032.

10. GENERAL TERMS AND CONDITIONS

Section 25 of the General Terms and Conditions of this Tariff, as well as the other General Terms and Conditions to the extent not modified by Section 25, are made a part of this rate schedule.

IR-2 RATE SCHEDULE

Hub Service - Imbalance Resolution Schedule

1. AVAILABILITY

1.1 This IR-2 Rate Schedule is available for imbalance resolution service by National Fuel Gas Supply Corporation (hereinafter called "Transporter") in the geographic area encompassing Transporter's facilities at the points identified in Section 1.17 of the General Terms and Conditions of Transporter's FERC Gas Tariff, as "Hub Points", on behalf of any person (hereinafter called "Shipper") provided that Shipper meets the eligibility requirements hereof and Shipper has arranged for the transportation of the gas to be advanced by Transporter hereunder. Transporter will offer imbalance resolution service to any prospective Shipper on a non-discriminatory basis.

1.2 In addition to the information specified in Section 31 of the General Terms and Conditions of this tariff, a request for service under this rate schedule shall include the following:

(a) Gas Quantities: The Maximum Advanced Quantity (MAQ) stated in dekatherms.

2. APPLICABILITY AND CHARACTER OF SERVICE

2.1 The Imbalance Resolution service provided under this IR-2 Rate Schedule shall be performed under Part 284 of the Commission's Regulations. This IR-2 Rate Schedule shall apply to all imbalance resolutions provided by Transporter for Shipper pursuant to an IR-2 Service Agreement.

2.2 (a) Service hereunder shall be provided on an interruptible basis only. IR-2 Service shall be subordinate to any and all firm and interruptible services that are non-Hub services as supplied by Transporter including the management of Transporter's system and the use of storage to support its firm transportation services.

(b) Transporter will authorize IR-2 service for any Shipper only if, within Transporter's best operating judgement and discretion, such service is not otherwise expected to prevent

P-2 RATE SCHEDULE

Hub Service - Parking Schedule

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

(c) Transporter will treat Shippers under this Rate Schedule as not similarly situated with non-Hub Shippers.

- 2.3 Service hereunder shall consist of (i) the receipt of gas delivered into Transporter's transmission facilities at meter NFIRP pursuant to a nomination from a Hub Point to meter NFIRP under Shipper's service agreement under Transporter's EFT, FT, IT or W-1 Rate Schedule, (ii) Transporter's retention of that gas in storage or otherwise, and (iii) the delivery of that gas (after reductions as set forth in the P-2 Service Agreement and Section 4 of this P-2 Rate Schedule) into Transporter's transmission facilities at meter NFIRP for subsequent transportation pursuant to a nomination from meter NFIRP to a Hub Point under Shipper's service agreement under Transporter's EFT, FT, IT or W-1 Rate Schedule.
- 2.4 To the extent storage capacity which is being utilized by a Shipper hereunder is needed by Transporter in order to satisfy or to accommodate Transporter's obligations to firm transportation or storage customers, Transporter shall require Shipper to withdraw all, or any portion, of the gas quantities held in storage by Transporter within thirty (30) days of Transporter's notice to Shipper. If Shipper fails to arrange for the withdrawal from storage of the quantities specified by Transporter in its notice, despite the availability of capacity for the withdrawal of Shipper's gas under its P-2 Service Agreement, Transporter shall take title to Shipper's P-2 Storage Balance that Shipper was instructed to withdraw, free and clear of any adverse claims. Transporter's notice to Shipper may be verbal and in such case shall be followed by a written confirmation.
- 2.5 A P-2 Service Agreement with a primary term of one year or longer shall continue in effect beyond the expiration of the primary term until terminated by either party upon six (6) months written notice to the other as of the end of a Storage Period.

IR-2 RATE SCHEDULE

Hub Service - Imbalance Resolution Schedule

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

Transporter from meeting all of its firm and interruptible service obligations as an interstate pipeline, including Transporter's system management needs. In the event that service has already commenced and Transporter learns that the continued furnishing of service may prevent Transporter from meeting all of its firm and interruptible service obligations as an interstate pipeline, then Transporter may, at its sole discretion and upon giving appropriate notice to Shipper(s), interrupt the continuation of any or all of the services hereunder.

(c) Transporter will treat Shippers under this Rate Schedule as not similarly situated to non-Hub Shippers.

2.3 Service hereunder shall consist of (i) the advance of gas by Transporter, up to the Maximum Advance Quantity (MAQ) specified in the IR-2 Service Agreement, the delivery of such gas into Transporter's transmission facilities at meter NFIRP, and (ii) the acceptance into Transporter's transmission facilities at any Hub Point of the quantity advanced by Transporter hereunder. Shipper must arrange transportation under Transporter's EFT, FT, IT or W-1 Rate Schedule to receive the advance of gas nominated hereunder.

2.4 Shipper shall be required to return the quantity of gas advanced by Transporter.

2.5 Shipper may nominate for the return of advanced gas at any time, subject to Section 13 of the General Terms and Conditions of this Tariff and Shipper having arranged for the transportation of the gas and Transporter shall accept such gas to the extent it has capacity to do so. The voluntary return of advanced gas hereunder shall have a priority of service equal to service under the IT Rate Schedule.

2.6 Shipper must return the quantities of gas specified in Section 2.3 hereof within forty eight (48) hours of receipt of notification from Transporter.

P-2 RATE SCHEDULE

Hub Service - Parking Schedule

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

- 2.6 A Shipper receiving service under this P-2 Rate Schedule shall not lose priority for purposes of this Section by the renewal or extension of term of that service.
- 2.7 Service under this P-2 Rate Schedule shall be provided on a basis that is equal in quality for all P-2 Services hereunder, whether or not gas is purchased from Transporter.
- 2.8 Shipper shall be required to arrange for the transportation of the gas to be parked hereunder. Service provided hereunder shall not commence unless and until Shipper has demonstrated to Transporter that Shipper has arranged for the transportation of the gas to be parked by Transporter hereunder and has satisfied the nomination and scheduling requirements of that transportation service to complete the parking service as contemplated within this Rate Schedule P-2.

3. RATE

- 3.1 The maximum and minimum rates for Parking are set forth on the currently effective Sheet No. 6 of this tariff. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff. These rates include a First Day charge for the quantities of gas for the day of injection and a charge for such subsequent day until withdrawal, on a first-in first-out basis. The current Posted Rate (ranging between the maximum and minimum rates) will be posted on Transporter's Electronic Bulletin Board, which is subject to periodic changes. Shipper shall pay the current Posted Rate on the date the Shipper's Service Request Form is received, as verified by telephone approval, and Shipper's P-2 service agreement will be deemed to be so amended.

2. APPLICABILITY AND CHARACTER OF SERVICE (Cont'd)

- 2.7 Shipper shall be required to arrange the transportation of the gas to be advanced by Transporter hereunder. Service provided hereunder shall not commence unless and until Shipper has demonstrated to Transporter that Shipper has arranged the transportation of the gas to be advanced hereunder.

3. RATE

- 3.1 The maximum and minimum rates per dth delivered to Shipper for this Imbalance Resolution Service are set forth on the currently effective Sheet No. 5A of this tariff. These rates shall be applicable to service hereunder, unless Transporter and Shipper have agreed upon a negotiated rate pursuant to Section 17.2 of the General Terms and Conditions of this Tariff. These rates include a First Day charge for the quantities of gas for the day of advance and a charge for each subsequent day until the return of the gas on a first-out first-in basis. The current Posted Rate (ranging between the maximum and minimum rates) will be posted on Transporter's Electronic Bulletin Board, which is subject to periodic changes. Shipper shall pay the current Posted Rate on the date the Shipper's Hub Nomination Form is received, as verified by telephone approval, and Shipper's IR-2 service agreement will be deemed to be so amended.
- 3.2 If during the term of a IR-2 Service Agreement, Transporter posts a lower Posted Rate on the Electronic Bulletin Board, Shipper's IR-2 service agreement will be deemed amended to reduce the rate to the current Posted Rate for the remaining term of the Nomination; provided however, if the current Posted Rate is subsequently increased during the term of that Nomination, the IR-2 service agreement will be deemed amended for the remaining term of the nomination to reflect the increased rate but no more than the then-current Posted Rate at the commencement of such Nomination.

3. RATE (Cont'd)

- 3.2 If during the term of a Parking service agreement, Transporter posts a lower current Posted Rate on the Electronic Bulletin Board, Shipper's service agreement will be deemed amended to reduce the rate to the current Posted Rate for the remaining term of the Nomination; provided, however, if the current Posted Rate is subsequently increased during the term of that Nomination, the P-2 Service Agreement will be deemed amended for the remaining term of the nomination to reflect the increased rate but no more than the then-current Posted Rate at the commencement of such Nomination.
- 3.3 During injection of gas hereunder, Transporter will also retain a quantity of gas equal to the product obtained by multiplying the quantity of gas received by Transporter for injection under this P-2 Rate Schedule by the percentage set forth on Sheet No. 6 as "surface operating allowance", except as provided in Subsection 3.5 hereof.
- 3.4 During withdrawal of gas hereunder, Transporter will retain a quantity of gas equal to the product obtained by multiplying the quantity of gas withdrawn by the percentage set forth on Sheet No. 6 as "surface operating allowance", except as provided in Subsection 3.5 hereof.
- 3.5 Transporter is not obligated to offer to park or to park gas at any rates or allowances less than the maximum rate and allowances specified for this Rate Schedule on Sheet No. 6; however, nothing precludes Transporter from charging a rate between the maximum and minimum rate (current Posted Rate), or retaining less than the maximum allowances for this service under this Rate Schedule.

3. RATE (Cont'd)

3.3 Transporter will retain the percent of receipts set forth on Sheet No. 5A as "fuel, loss and company-use allowance," except that this percentage may be discounted as provided in Subsection 3.4 hereof.

3.4 Transporter is not obligated to offer to resolve imbalances or to resolve imbalances at any rates or allowances less than the maximum rates and allowances specified for this Rate Schedule on Sheet No. 5A; however, nothing precludes Transporter from charging a rate between the maximum and minimum rates (the current Posted Rate), or retaining less than the maximum allowance for this service under this Rate Schedule.

4. RECEIPT AND DELIVERY PRESSURE

Shipper shall provide gas to Transporter at pressure sufficient to enter Transporter's pipeline at the point(s) of receipt, provided, however, that such pressure shall not exceed any maximum pressure determined by Transporter from time to time. Transporter shall deliver gas to or for the account of Shipper at the delivery point(s) at the pressure existing in Transporter's system.

5. MINIMUM RECEIPT POINT QUANTITIES

Transporter shall not be required to receive or deliver gas at a receipt or delivery point where the total quantity of gas for IR-2 Service scheduled is less than that required to operate existing measurement facilities at such point.

6. GENERAL TERMS AND CONDITIONS

The General Terms and Conditions of Transporter's effective FERC Gas Tariff, Third Revised Volume No. 1, and any revisions thereof that may be proposed and made effective from time to time thereafter, shall apply to and are made a part of this Rate Schedule, to the extent such terms and conditions are not inconsistent with the express terms of this IR-2 Rate Schedule.

5. REQUESTS FOR SERVICE (cont'd)

5.3 Shipper may receive service under this Rate Schedule if it provides, no later than noon, ET, on the business day prior to the day on which gas will flow under the nomination for the desired service are due, to Transporter the amounts projected to become payable to Transporter based on the Shipper's nominated deliveries for the period covered by the nomination either in the form of:

- (a) a prepayment to a bank designated by Transporter in U.S. Federal funds or;
- (b) a letter of credit, irrevocable for ninety (90) days, from a financial institution acceptable to Transporter. Transporter shall accept a nomination from Shippers qualifying for service under this Section 5.3 only to the extent that the prepayment or letter of credit in effect as of such time is sufficient to cover an amount projected to become payable to Transporter based on such nomination.

5.4 Upon Transporter's determination that Shipper's request for service is complete, Transporter will enter such request on a list of pending complete requests and so notify Shipper. Transporter shall process requests for service within a reasonable period of time. If Transporter rejects a request for service which has been entered on Transporter's list of pending complete requests, Transporter will so notify Shipper within ten (10) days of such rejection. In such event, Shipper's request for service will not remain entered on such list unless Shipper notifies Transporter, within thirty (30) days of Transporter's notification of rejection, that its request should remain so entered.

Upon receipt of such written notification by Shipper, Shipper's request will remain entered for an additional six (6) months, and for additional six (6) month periods thereafter, provided that Shipper notifies Transporter, in writing, prior to the conclusion of a six (6) month period, that it requests an extension.

5.5 A P-2 Service Agreement shall be executed by Shipper and Transporter following Transporter's acceptance in writing of Shipper's request for service. In the event the P-2 Service Agreement is not executed and returned by Shipper within thirty days after Transporter tendered the agreement, Transporter shall consider the request for service invalid.

7. WITHDRAWALS UPON TERMINATION OF SERVICE

Not less than thirty (30) days prior to the termination of storage service provided to any Shipper under this Rate Schedule, Transporter will notify Shipper of Shipper's Storage Balance. If the Storage Balance is positive, then the Shipper will withdraw such quantities within thirty (30) days of the termination of the storage service. Shipper will be responsible for arranging of the transportation service to complete the withdrawal of gas parked hereunder. If the Storage Balance is negative, then the Shipper will within thirty (30) days of the end of the storage service deliver sufficient quantities of gas to make up the negative balance. Shipper will be responsible for the arrangement of the transportation service to complete the delivery of gas to Transporter. If the Shipper does not deliver sufficient quantities of gas within that thirty-day period, the Shipper shall pay Transporter the Negative Imbalance Cash-Out Price as set forth in Section 14.10(a) of the General Terms and Conditions, for any remaining negative balance.

8. RECEIPT AND DELIVERY PRESSURE

Shipper shall provide gas to Transporter at pressure sufficient to enter Transporter's facilities at the point(s) of receipt, provided, however, that such pressure shall not exceed any maximum pressure determined by Transporter from time to time. Transporter shall deliver gas to or for the account of Shipper at the delivery point(s) at the pressure existing in Transporter's system.

9. MINIMUM RECEIPT POINT QUANTITIES

Transporter shall not be required to receive or deliver gas at a receipt or delivery point where the total quantity of gas for Parking scheduled is less than that required to operate existing measurement facilities at such point.

10. GENERAL TERMS AND CONDITIONS

The General Terms and Conditions of Transporter's effective FERC Gas Tariff, Third Revised Volume No. 1, and any revisions thereof that may be proposed and made effective from time to time thereafter, shall apply to and are made a part of this Rate Schedule, to the extent such terms and conditions are not inconsistent with the express terms of this P-2 Rate Schedule.

Effective Date: 08/01/1993 Status: Effective

FERC Docket: RS92- 21-001

Original Sheet No. 132 Original Sheet No. 132 : Superseded

GENERAL TERMS AND CONDITIONS

1. DEFINITION OF TERMS

Except where another meaning is expressly stated, the following terms when used in this tariff and in any service agreement incorporating this tariff, are intended and used and shall be construed to have the following meanings:

- 1.1 The term "Seller" or "Transporter" shall mean National Fuel Gas Supply Corporation ("National") acting in its capacity as a seller or transporter of natural gas. The term "Seller" shall include the term "Transporter".
- 1.2 The term "Buyer" or "Shipper" shall mean any sales or transportation customer of National. The term "Buyer" shall include the term "Shipper."
- 1.3 The term "day" shall mean a period of twenty-four (24) consecutive hours beginning and ending at 8:00 a.m. local time (in the time zone in which the delivery of gas is made) or at such other hour as Buyer and Seller shall agree upon.
- 1.4 The term "month" shall mean the period beginning at 8:00 a.m. on the first day of the calendar month and ending at 8:00 a.m. on the first day of the next succeeding calendar month, or at such other hour as Buyer and Seller shall agree upon.
- 1.5 The term "year" shall mean a period of 365 consecutive days provided, however, that any year which contains the date "February 29" shall consist of 366 consecutive days.
- 1.6 The term "cubic foot" shall mean the volume of natural gas which occupies one cubic foot when such gas is at a temperature of 60 degrees Fahrenheit and at an absolute pressure of 14.73 pounds per square inch.
- 1.7 The term "Mcf" shall mean 1,000 cubic feet of gas.
- 1.8 The term "British thermal unit" or "Btu" shall mean the amount of heat required to raise the temperature of one pound of water 1 degree Fahrenheit at 60 degrees Fahrenheit.
- 1.9 The term "Dekatherm" or "Dth" shall mean the quantity of heat energy which is equal to 1,000,000 Btu's.

FERC Docket: RP97-201-000

Second Revised Sheet No. 133B Second Revised Sheet No. 133B : Superseded
Superseding: First Revised Sheet No. 133B
GENERAL TERMS AND CONDITIONS

1. DEFINITIONS OF TERMS (Cont'd)

- 1.23 The term "GISB Standards" shall mean those standardized procedures and mechanisms for electronic communication that have been adopted by the Gas Industry Standards Board and incorporated by reference in the Commission's regulations.
- 1.24 The term "Operator" shall mean a party that operates facilities that interconnect with the facilities of Transporter.
- 1.25 The term "EDI" shall mean electronic data interchange as defined by then-effective standards established by the Gas Industry Standards Board and approved by the Federal Energy Regulatory Commission.

2. QUALITY

- 2.1 Processing of Gas. The gas delivered by Transporter to Shipper shall be natural or mixed gas from Transporter's present or future sources of supply, including gas received by Transporter for Shipper's account; provided, however, that helium, natural gasoline, butane, propane and any other hydrocarbons except for methane, may be removed prior to delivery to Shipper. Transporter may subject, or permit the subjection of, the gas to compression, cooling, cleaning and other processes.
- 2.2 Total Heating Value. The gas delivered by Transporter to Shipper or received by Transporter from Operator for the Shipper's account shall have a total heating value at the point(s) of delivery and receipt of not less than 967 BTU per cubic foot. Transporter and Shipper shall have the option to refuse to accept said gas so long as the total heating value of the gas remains below 967 BTU per cubic foot; provided, however, that Transporter and Shipper may elect to accept receipt or delivery of said gas.
- 2.3 Absence of Objectionable Matter
 - (a) Delivery by Transporter. The gas delivered by Transporter to Shipper shall be commercially free from objectionable odors, dust or other solid or liquid or gaseous matters which might interfere with the merchantability of the gas or cause injury to or interference with proper operation of Transporter's lines, regulators, meters or other appliances through which the gas flows.

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-000

First Revised Sheet No. 134 First Revised Sheet No. 134 : Superseded

Superseding: Original Sheet No. 134

GENERAL TERMS AND CONDITIONS

2. QUALITY (Cont'd.)

- (b) Delivery for the Account of Shipper. The provisions set forth in this Subsection 2.3(b) shall apply to all gas delivered to Transporter by Operator for the account of Shipper, except for gas delivered to Transporter by another interstate pipeline, in which case the quality standards set forth in the interconnection or other agreement between Transporter and such pipeline shall apply, or in the absence thereof, the FERC Gas Tariff of such pipeline.
 - 1. All gas shall be commercially free from dust, hydrocarbon liquids, water, objectionable odors, or other gaseous, solid or liquid matters which might become separated from the gas in Transporter's facilities, or which might interfere with the merchantability of the gas or cause injury, or interfere with the proper operation of the pipelines, regulators, meters, or other equipment through which it flows; and Operator shall furnish, install, operate, maintain and keep in efficient operating condition, such drips, separators, dehydrators, alcohol bottles, gas cleaners and other devices or equipment as may be or become necessary to effect compliance with this requirement (after having secured the prior approval of Transporter as to the design and construction of such facilities, which approval shall not be unreasonably withheld);
 - 2. All gas shall contain no more than twenty (20) grains of total sulfur (S), nor more than three-tenths (0.3) grain of hydrogen sulfide (H₂S) per one hundred (100) cubic feet;
 - 3. All gas shall contain no more than two-tenths of one percent (0.2 of 1%) by volume of oxygen (O₂), and Operator shall make every reasonable effort to keep the gas free of oxygen (O₂);
 - 4. All gas shall contain no more than four percent (4%) by volume of a combined total of carbon dioxide (CO₂) and nitrogen (N₂) components; provided, however, that the total carbon dioxide (CO₂) content shall not exceed two percent (2%) by volume;

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-000

First Revised Sheet No. 135 First Revised Sheet No. 135 : Superseded

Superseding: Original Sheet No. 135

GENERAL TERMS AND CONDITIONS

2. QUALITY (Cont'd.)

5. All gas shall have a temperature of not more than one hundred twenty degrees Fahrenheit; and
6. All gas shall have been dehydrated by Operator for removal of water in a vapor state, and in no event, contain more than seven (7) pounds of water vapor (H2O) per million cubic feet, as determined by Transporter. In no event shall Operator deliver to Transporter free or entrained water (H2O).

(c) Non-Conformance by Shipper.

1. In the event any of the above substances enter Transporter's facilities at any interconnection in quantities greater than the levels, if any, permitted above, or, where applicable, by the quality standards set forth in the interconnection or other agreement with, or the FERC Gas Tariff of, the delivering interstate pipeline, with or without Transporter's knowledge, and cause, directly or indirectly, damage to any such facility, Transporter may, at Shipper's expense, (or where an interconnection agreement between Transporter and Operator is in effect with respect to the interconnection, at Operator's expense), clean up and/or repair such facility.
2. In the event any of the above substances enter Transporter's facilities at any interconnection in quantities greater than the levels, if any, permitted above, or where applicable by the quality standards set forth in the interconnection or other agreement with, or the FERC Gas Tariff of, the delivering interstate pipeline, and subsequently enter the facilities of downstream transporters, end-users or others, with or without Transporter's knowledge, and cause, directly or indirectly, property or environmental damage, or

FERC Docket: RP97-201-000

First Revised Sheet No. 136 First Revised Sheet No. 136 : Superseded

Superseding: Original Sheet No. 136

GENERAL TERMS AND CONDITIONS

2. QUALITY (Cont'd.)

personal injury, Shipper, (or, where an interconnection agreement between Transporter and Operator is in effect with respect to the interconnection, Operator) shall indemnify Transporter against, hold it harmless from, and undertake the defense of Transporter with respect to any and all claims, losses, damages (including punitive damages, to the extent permitted by law), and injuries (property and environmental damage and personal injury, including death) arising therefrom and shall indemnify Transporter for any expenses, including attorney's fees, clean-up costs, fines and penalties, incurred in partial or full satisfaction of any such claims, losses, damages and injuries. This Subsection 2.3(c)(2) shall not, however, relieve Transporter from liability for damage caused by Transporter's negligence or willful misconduct.

3. As to gas delivered by Operator which does not meet the specifications incorporated or stated in this Section, Transporter shall have the rights, on a continuing basis, and in addition to any other remedies provided herein, to:

- (i) Continue to receive such gas; or
- (ii) Discontinue the flow of such gas, and, in the event Operator or Shipper shall not correct such deficiency within a reasonable time period, to terminate the interconnection or transportation agreement as to such gas; or
- (iii) Receive such gas and, at Operator's expense, treat or otherwise process the same so as to cause it to conform to the above quality specifications.

- 2.4 Commingling. Transporter shall have the unqualified right to commingle gas transported hereunder with gas from other sources, and to treat and handle all such gas as its own. It is recognized that gas delivered to or for the account of Shipper may or may not consist of the same molecules as those received from Shipper or for Shipper's account.

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-000

First Revised Sheet No. 138 First Revised Sheet No. 138 : Superseded

Superseding: Original Sheet No. 138

GENERAL TERMS AND CONDITIONS

3. MEASUREMENT (Cont'd.)

Transmission Measurement Committee Report No. 8 "Compressibility and Supercompressibility for Natural Gas and Other Hydrocarbon Gases." If the composition of the gas is such as to render the above procedure inapplicable, other methods for determination of the deviation factors, mutually agreed upon by Shipper and Transporter, shall be used.

- 3.7 Total Heating Value. The total heating value of the gas per cubic foot shall be determined for any month by taking the average of the heating values as recorded each day by a calorimeter or chromatograph or as determined by chromatographic analysis of a sample of gas, or methods outlined in AGA Gas Measurement Report No. 5, or any other method mutually agreed upon by Transporter and Operator.

4. MEASURING EQUIPMENT

Unless otherwise agreed upon, Transporter or Transporter's designee will install, as necessary, maintain and operate measuring stations at or near the receipt and delivery point(s) properly equipped with displacement, turbine or orifice meters, gas samplers, chromatographs and other necessary measuring equipment by which the quantity of gas delivered hereunder shall be measured. The cost of Transporter's or Transporter's designee's installing any incremental measuring facilities necessary with respect to the receipt and delivery of gas shall be borne by the Shipper(s) of such gas, unless otherwise expressly agreed. Transporter may require Shipper or Operator to provide records and/or charts from orifice meters measuring deliveries of gas by Shipper to Transporter within the period of time prescribed by Transporter.

Orifice meters shall be installed and operated in accordance with specifications recommended in Gas Measurement Committee Report No. 3 of the American Gas Association, as the same may be amended from time to time, applied in a practical manner. Displacement or turbine meters, if used, shall be installed and gas volumes computed, in accordance with generally accepted industry practices.

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-000

First Revised Sheet No. 139 First Revised Sheet No. 139 : Superseded

Superseding: Original Sheet No. 139

GENERAL TERMS AND CONDITIONS

4. MEASURING EQUIPMENT (Cont'd.)

- 4.2 Demand Meters. If the Rate Schedule according to which gas delivered to Shipper is billed includes a demand charge based on the Dth taken by Shipper on the day of greatest delivery during a billing month, Transporter shall use meters suitable for determining such greatest daily delivery.
- 4.3 Check Meters. Shipper or Operator may install, maintain and operate, at its own expense, such check measuring equipment as it shall desire. Such equipment shall be so installed as not to interfere with the operation of Transporter's measuring equipment at or near the points of delivery. The Transporter shall have access to such check measuring equipment at all reasonable hours, but the reading, calibrating and adjusting thereof and the changing of charts shall be done only by the Shipper or Operator.
- 4.4 Installation. All installations of measuring equipment, applying to or affecting receipts or deliveries by Transporter, shall be made in such manner as to permit an accurate determination of the quantity of gas delivered and ready verification of the accuracy of measurement. Reasonable care shall be exercised in the installation, maintenance and operation of any pressure regulating equipment so as to avoid, as far as practicable, any inaccuracy in the determination of the volume of gas delivered hereunder.
- 4.5 Access to Meters and Records. Transporter and Shipper or Operator shall have the right to be present at the time of any installing, reading, cleaning, changing, repairing, inspecting, testing, calibrating, or adjusting done in connection with the other's equipment used in measuring or checking receipts and deliveries of gas. The records from such equipment shall remain the property of their owner, but upon request, each will submit to the other its records and/or charts, together with calculations therefrom, for inspection and verification, subject to return within ten (10) days after receipt thereof.
- 4.6 Measurement Equipment Failures. In the event measurement equipment is out of service, or registering inaccurately, the quantity and/or volume of gas received or delivered by Transporter shall be estimated:

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-000

First Revised Sheet No. 140 First Revised Sheet No. 140 : Superseded

Superseding: Original Sheet No. 140

GENERAL TERMS AND CONDITIONS

4. MEASURING EQUIPMENT (Cont'd.)

- (a) By using the registration of any check meter, meters or other measurement equipment if installed and accurately registering, or in the absence of "(a)";
- (b) By correcting the error if the percentage of error is ascertainable by calibration, test or mathematical calculation or, in the absence of both "(a)" and "(b)", then;
- (c) By estimating the quantity of receipt or delivery by reference to receipts or deliveries during periods under similar conditions when the meter was registering accurately.

4.7 Accuracy of Measuring Equipment. The accuracy of Transporter's or Operator's measuring equipment shall be verified at reasonable intervals, and if requested, in the presence of representatives of Operator or Transporter, but neither party shall be required to verify the accuracy of equipment more frequently than once in any thirty (30)-day period. In the event either party shall notify the other that it desires a special test of any measuring equipment, the parties shall cooperate to secure a prompt verification of the accuracy of such equipment. The expense of any special test, if called for, shall be borne by the requesting party if the measuring equipment tested is found to be in error by no more than two percent.

4.8 Correction of Measuring Equipment Errors. If, upon test, any measuring equipment is found to be in error not more than 2%, previous recordings of such equipment shall be considered accurate in computing deliveries hereunder; but such equipment shall be adjusted at once to record correctly.

If, upon test, any measuring equipment shall be found to be inaccurate by an amount exceeding 2%, any previous recordings of such equipment shall be corrected to zero (0) error for any period which is known definitely or agreed upon, but in case the period is not known definitely or agreed upon, such correction shall be for a period extending over one-half of the time elapsed since the date of last test, not exceeding a correction period of sixteen (16) days.

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-000

Original Sheet No. 140A Original Sheet No. 140A : Superseded

GENERAL TERMS AND CONDITIONS

4. MEASURING EQUIPMENT (Cont'd.)

- 4.9 Preservation of Records. Each party shall preserve for a period of at least three (3) years all test data, charts and other similar records.

Effective Date: 08/01/1993 Status: Effective

FERC Docket: RS92- 21-001

Original Sheet No. 141 Original Sheet No. 141 : Superseded

GENERAL TERMS AND CONDITIONS

5. BILLING AND PAYMENT

- 5.1 Statements. A statement shall be submitted by Transporter to Shipper on or before the tenth (10th) day of each calendar month for all services furnished hereunder during the preceding billing period. When information necessary for billing purposes is in the control of Buyer, Buyer shall furnish such information to Seller on or before the fifth (5th) day following the date of the final meter reading of each month.
- 5.2 Payments. Shipper shall pay Transporter by wire transfer of Federal Funds which are made immediately available to Transporter at such bank account as Transporter shall designate, on or before the twenty-fifth (25th) day of the month in which the bill is received, for all services rendered by Transporter during the preceding billing period, as shown by the statement, except when the twenty-fifth (25th) day of the month is a Saturday or Sunday or federal bank holiday, in which case payment is due on the following business day. Provided, however, a Shipper whose monthly statement total amount due is less than \$50,000.00 may elect to make payment by check to be received by Transporter on or before the twenty-fifth (25th).
- 5.3 Verification and Correction of Errors. Both Transporter and Shipper shall have the right to examine, at reasonable times, books, records and charts of the other to the extent necessary to verify the accuracy of any statement, charge or computation made under or pursuant to any of the provisions of the underlying gas sales contract or transportation contract. If an error is discovered in any statement, such error shall be adjusted, provided that the claim of error and request for adjustment shall have been made within twelve (12) months from the date of such statement.
- 5.4 Delayed Payment. Should Shipper fail to pay all of the amount of any bill, as herein provided, when such amount is due, interest on the unpaid portion of the bill shall accrue at the then effective prime interest rate (Chase Manhattan Bank). Transporter may suspend service to any Shipper which is delinquent in payments, provided that Transporter shall give Shipper written notice of the delinquency and of Transporter's intent to suspend if the delinquency is not remedied within fifteen (15) days of the date of the notice. Transporter may terminate service to any Shipper which is delinquent in

First Revised Sheet No. 142 : Effective

Superseding: Original Sheet No. 142

GENERAL TERMS AND CONDITIONS

5. BILLING AND PAYMENT (Cont'd)

(6) months from the date of such statement (in the case of any transportation or storage service) or within seven (7) months (in the case of a sales service). The party receiving a claim of error and request for adjustment shall have three (3) months to rebut such claim, otherwise the statement shall be adjusted as requested. The time limitations set forth in this Section 5.3 shall not apply in the case of deliberate omission or misrepresentation, mutual mistake of fact or government required rate changes; nor shall the parties other statutory or contractual rights be diminished by this Section.

- 5.4 Delayed Payment. Should Shipper fail to pay all of the amount of any invoice, as herein provided, when such amount is due, interest on the unpaid portion of the invoice shall accrue at the then effective prime interest rate (Chase Manhattan Bank). Transporter may suspend service to any Shipper which is delinquent in payments, provided that Transporter shall give Shipper written notice of the delinquency and of Transporter's intent to suspend if the delinquency is not remedied within fifteen (15) days of the date of the notice. Transporter may terminate service to any Shipper which is delinquent in payments, provided Transporter shall give Shipper written notice of the delinquency and of Transporter's intent to curtail or terminate if the delinquency is not rendered within thirty (30) days of the notice and then only upon written notice to the Commission and, if required by the Commission's regulations, authorization by the Commission.

However, if Shipper in good faith shall dispute the amount of any such invoice or part thereof and shall pay to Transporter such amounts as it concedes to be correct, accompanied by documentation identifying the basis for the dispute, and at any time within thirty (30) days after a demand made by Transporter, shall furnish good and sufficient surety bond, guaranteeing payment to Transporter of the amount ultimately found due upon such bills after a final determination which may be reached either by agreement or judgment of the courts, as may be the case, then suspend or terminate service on account of such disputed claim while so secured, until default be made in the conditions of such bond.

FERC Docket: RP97-201-000

First Revised Sheet No. 143 First Revised Sheet No. 143 : Superseded

Superseding: 2nd Sub. Original Sheet No. 143

GENERAL TERMS AND CONDITIONS

7. WARRANTY OF TITLE TO GAS

This Section 7 shall apply to all transportation service unless otherwise provided in the applicable Rate Schedule or Service Agreement. Shipper (and, where an interconnection agreement between Transporter and Operator is in effect with respect to an inter-connection, Operator) warrants for itself, its agents, its principals, successors and assigns, that it will have, at the time of delivery of gas to Transporter for transportation hereunder, good title or the good right to deliver the gas. Shipper (and Operator, where applicable as set forth above) warrants for itself, its agents, its principals, successor and assigns, that the gas it warrants hereunder shall be free and clear of all liens, encumbrances and claims whatsoever, and except insofar as Shipper or Operator is in breach of its obligations or has an obligation to indemnify and save Transporter harmless pursuant to this Section 7, Transporter agrees to indemnify and save Shipper harmless from all suits, actions, debts, accounts, damages, costs, losses and expenses arising out of adverse claims of any and all persons to the natural gas during its transportation by Transporter for Shipper's account.

Shipper and Operator each agrees to indemnify Transporter and save it harmless from all suits, actions, debts, accounts, damages, costs, losses, and expenses arising from or out of any adverse claims of any and all persons to said gas and/or to royalties, taxes, license fees, or charges thereon which are applicable for such delivery of gas to Transporter or any required upstream or downstream transportation and to indemnify Transporter and save it harmless from all taxes or assessments which may be levied and assessed upon such delivery or transportation and which are by law payable by and the obligation of the party making such delivery or performing such transportation.

If Shipper's title or right to deliver gas to be transported, or the title or right to deliver gas of the Operator of a receipt point utilized by Shipper, is questioned or involved in any action, Shipper shall not qualify for or shall be ineligible to continue to receive service hereunder until such time as Shipper's title or right to deliver is free from question; provided, however, Transporter shall allow Shipper to qualify for or continue receiving service hereunder if Shipper furnishes a bond satisfactory to Transporter. Title to the gas received by Transporter at the receipt point(s) shall not pass to Transporter, except that title to gas delivered for fuel and loss retention or surface operating allowance shall pass to Transporter upon receipt by Transporter.

FERC Docket: RP97-201-000

First Revised Sheet No. 144 First Revised Sheet No. 144 : Superseded

Superseding: Original Sheet No. 144

GENERAL TERMS AND CONDITIONS

8. FORCE MAJEURE AND REMEDIES

- 8.1 Relief from Liability. No party shall be liable in damages to another for any act, omission or circumstances occasioned by or in consequence of any acts of God, strikes, lockouts, acts of the public enemy, wars, block-ades, insurrections riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, washouts, arrests and re-straints of rulers and peoples, civil disturbances, explosions, power outages, telecommunications failure, breakage or accident to machinery or lines of pipe, line freeze-ups, temporary failure of gas supply, the binding order of any court or governmental authority and any other cause, whether of the kind herein enumerated, or otherwise and whether caused or occasioned by or happening on account of the act or omission of one of the parties to the agreement or some person or concern not a party thereto, not within the reasonable control of the party claiming suspension and which by the exercise of due diligence such party is unable to prevent or overcome. A failure to settle or prevent any strike or other controversy with employees or with anyone purporting or seeking to represent employees shall not be considered to be a matter within the control of the party claiming suspension.
- 8.2 Liabilities Not Relieved. Such causes or contingencies affecting the performance of any agreement by either party, however, shall not relieve it of liability in the event of its concurring negligence or in the event of its failure to use due diligence to remedy the situation and remove the cause in an adequate manner and with all reasonable dispatch, nor shall such causes or contingencies affecting the performance of said agreement relieve either party from its obligations to make payments of amounts due thereunder, nor shall such causes or contingencies relieve either party of liability unless such party shall give notice and full particulars of the same in writing or by telegraph to the other party as soon as possible after the occurrence relied on.
- 8.3 Termination of Agreement. If either party shall fail to perform any of the covenants or obligations imposed upon it by an agreement executed pursuant to this Tariff, then in such event the other party may at its option terminate said agreement by proceeding as follows: the party not in default shall cause a

written notice to be served on the party in default stating specifically the cause for terminating the agreement and declaring it to be the intention of the party giving the notice to terminate the same; thereupon, the party in default shall have thirty (30) days after the service of the aforesaid notice in which to remedy or remove the cause or causes stated in the notice for terminating the agreement, and if within said period of thirty (30) days the party in default does so remove and remedy said cause or causes and fully indemnify the party not in default for any and all consequences of such breach, then such notice shall be withdrawn and the agreement shall continue in full force and effect.

In case the party in default does not so remedy and remove the cause or causes or does not indemnify the party giving the notice for any and all consequences of such breach within said period of thirty (30) days, the agreement shall terminate; provided, however, that Transporter may not terminate a Service Agreement until it has obtained the authorization required by valid laws, order, rules and regulations of duly constituted authorities having jurisdiction. Any termination of a Service Agreement pursuant to the provisions of this Section 8.3 shall be without prejudice to the right of Transporter to collect any amounts then due to Transporter for services rendered prior to the time of termination, and shall be without prejudice to the right of Shipper to receive any service which it has not received, but for which it has paid prior to the time of termination, and without waiver of any remedy to which the party not in default may be entitled for violations of the Service Agreement.

The provisions of this Subsection 8.3 of Section 8 shall be in addition to such other remedies as would be available under Subsection 5.4 of Section 5 hereof.

- 8.4 Waiver of Claims. Except as expressly provided hereunder, in the absence of negligence or willful misconduct on the part of Transporter, Shipper waives any and all claims and demands against Transporter, its officers, employees or agents, arising out of or in any way connected with:

GENERAL TERMS AND CONDITIONS

9. ELECTRONIC BULLETIN BOARD (Cont'd.)

Transporter shall maintain and retain daily back-up records of the information displayed on the EBB System for three (3) years and permit an EBB System Subscriber to review those records, which will be archived and reasonably accessible electronically. Transporter will periodically delete transactions from the EBB System files when transactions have been completed. Information on the most recent entries will appear ahead of older information.

9.3 General and Detailed Inquiries

An EBB System Subscriber has the option to utilize the EBB System for the purposes of:

(a) General Inquiries

- (1) reviewing and downloading Transporter's Tariff;
- (2) reviewing and downloading nomination forms and instructions;
- (3) reviewing and downloading Transporter's policy statements; and
- (4) reviewing all information on Transporter's transportation transactions required by currently applicable Commission regulations to be displayed on the EBB.

(b) Detailed Inquiries

- (1) reviewing alert boards for any "emergency" conditions that might affect the customer's services through Transporter;
- (2) monitoring available capacity both from the Transporter and capacity released by a customer(s) of the Transporter at receipt points, delivery points, on the mainline and in storage;
- (3) making a nomination for service;
- (4) releasing capacity subject to Section 10;
- (5) bidding for and offering to purchase capacity subject to Sections 10 and 11;

9. ELECTRONIC BULLETIN BOARD (Cont'd.)

- (6) imbalance trading with other Transporter customers subject to Section 14; and
- (7) E-mail communication with Transporter personnel and other EBB System Subscribers.

9.4 Available Capacity

- (a) Transporter shall inform EBB System Subscribers, on a timely basis via the EBB System, about the availability of firm and interruptible capacity:

- (1) at Point(s) of Receipt for which Transporter receives real-time measurement information;
- (2) on the Transporter's mainline(s);
- (3) at Point(s) of Delivery for which Transporter receives real-time measurement information; and
- (4) in Transporter's storage system.

The EBB System shall also disclose whether the capacity is available from Transporter directly, or through Transporter's capacity reallocation mechanism as set forth in Section 10 of these General Terms and Conditions.

Transporter will provide on request operationally available capacity separate from unsubscribed capacity.

- (b) Additionally, Transporter shall maintain both in written form and on the EBB System a Master Receipt and Delivery Point List containing the following information for each Point, updated promptly whenever any Point(s) of Receipt or Delivery are added to the system.

Effective Date: 04/01/1997 Status: Effective

GENERAL TERMS AND CONDITIONS

9. ELECTRONIC BULLETIN BOARD (Cont'd.)

- (1) Name of the Point of Receipt or Delivery;
 - (2) Meter number of the Point;
 - (3) Location of Point;
 - (4) Operator name and phone number to the extent available;
 - (5) Design capacity; and
 - (6) Any firm capacity already assigned at such point;
- (c) The EBB System will not include as "available capacity" any capacity which would be created by a backhaul, displacement or exchange. A Potential Shipper who wishes to inquire whether there is available capacity on a specific transportation path not shown on the EBB system may make that inquiry to Transporter by an E-Mail message. Transporter will respond to that E-Mail message (or a similar inquiry received by mail, fax, telephone, or in person) by posting an answer on an alert board accessible to all EBB System Subscribers.
- (d) Potential Shippers are cautioned that interruptible capacity which is posted on the EBB system as being "available" can be "bumped" if the holder of firm capacity on that transportation path changes his nomination or reallocates some of his capacity to someone else.

9.5 Charges and Startup

- (a) Any person wishing to become an EBB System Subscriber must pay Transporter a one time administrative fee of \$200 for setup. That charge is exclusive of any state or local sales, use, or similar taxes. If any such taxes are applicable, they will be charged to the EBB System Subscriber's account.
- (b) To receive more information about the EBB System, or to become an EBB system subscriber, call or write to:

9.6 Intellectual Property Rights

Transporter is the exclusive proprietor of the files of the EBB System and of all the copyrights and proprietary interests therein, except insofar as any third party (whose materials are made available in the files of the EBB System under license to Transporter) possesses a copyright or proprietary interest in such materials. An EBB System Subscriber will not by virtue of this section or the executed EBB System agreement acquire any proprietary interests in the files of the EBB System. An EBB System Subscriber will not publish, broadcast, or sell any material retrieved from the files of the EBB System in any manner whatsoever. An EBB System Subscriber, solely for its own use and benefit, may by any electronic, electrical, magnetic, optical, laser, acoustic, compression, or similar transcriptive means make or maintain a copy of any portion of the files of the EBB System.

9.7 Interactivity. Every person who requests to subscribe to the EBB and pays the set-up fee shall become a "Subscriber", and receive a password which is necessary to send E-Mail messages and otherwise utilize the EBB. By accepting assignment of a password, a Subscriber thereby agrees that any E-Mail message (including nominations, requests for service, completed forms and similar documents) sent by that Subscriber via the EBB to Transporter is a legally effective and enforceable communication from that Subscriber, exactly as if that Subscriber had written that communication on paper, signed it by an officer or other authorized person of that Subscriber, and delivered it by hand to Transporter.

10. CAPACITY REALLOCATION (Cont'd.)

10.2 Notice Required by Existing Shipper and Transporter:

(a) Notice by Existing Shipper

A firm Shipper that wants to release any or all of its capacity must notify Transporter that it wants to release such capacity and the terms and conditions of such release (hereinafter called "Shipper's Notice"). Such Shipper's Notice may be communicated through Transporter's Electronic Bulletin Board. Such Shipper's Notice shall provide the terms and conditions of the release as follows:

- (i) on a permanent or temporary basis;
- (ii) on a recallable or non-recallable basis;
- (iii) the specific quantity to be released expressed in Dth and as a percentage of the source agreement MDTQ or MSQ, provided that a notice requesting a release of capacity subject to an ESS Service Agreement must be accompanied by a notice requesting a corresponding release of capacity subject to an EFT Service Agreement of a quantity equal to the Maximum Daily Withdrawal Quantity associated with the storage capacity to be released, and for a coincident term,
- (iv) location of capacity to be released, and receipt and delivery points associated therewith, which must be primary receipt and delivery points under the source agreement, or receipt and delivery points as set forth in Section 2.4 of the EFT Rate Schedule, Section 2.4 of the FT Rate Schedule, or Section 2.5 of the FST Rate Schedule;
- (v) the source agreements;
- (vi) the period of time or term, including any right of recall,
- (vii) the length of time the Existing Shipper's notice is to be posted,

GENERAL TERMS AND CONDITIONS

10. CAPACITY REALLOCATION (Cont'd.)

- (vi) the period of time or term, including any right of recall;
- (vii) the length of time the Existing Shipper's notice is to be posted, but not later than the time set by Section 10.3(a);
- (viii) any Prearranged Shipper (which must appear on Transporter's approved bidder list) proposed by the Existing Shipper to obtain released capacity under the rates, terms and conditions contained in the Shipper's Notice, and where the term of the proposed release is less than one month, whether the Existing Shipper wants Transporter to solicit bids for the capacity to be released;
- (ix) releasing shipper has choice to specify dollars and cents or percents of maximum tariff rate in the denomination of bids and all transportation service provides should support this; once the choice is made by Releasing Shipper, the bids should comport with the choice;
- (x) the minimum price, if any; any maximum/minimum rates specified by the releasing Shipper should include the tariff reservation rate and all demand surcharges as a total number or stated separately;
- (xi) the standard(s) to be utilized by Transporter for determining the best bid for the capacity to be released and for selecting among more than one "best bid" (if different from the standards set forth at Sections 10.5(a) and 10.5(b) hereof, which standards must be objectively stated, applicable to all Potential Shippers, and non-discriminatory;

10. CAPACITY REALLOCATION (Cont'd.)

- (xii) reput rights if any; reput rights should be specified at the time of the deal; reput method and rights are individually negotiated between the Existing Shipper and Replacement Shipper;
 - (xiii) whether volumetric bids or bids based upon other variants of the rates applicable to the capacity to be released are to be solicited;
 - (xiv) whether the Existing Shipper requests the assistance of Transporter's Interstate Marketing Department in locating Potential Shippers for the capacity to be released;
 - (xv) whether the Replacement Shipper will be required to enter into an agreement with the Existing Shipper, and if so, a description of the terms and conditions of such agreement; and
 - (xvi) whether Potential Shippers may submit bids subject to contingencies that extend beyond the posting period applicable to the notice.
- (b) Offers are binding until written or electronic notice of withdrawal is received by Transporter. The releasing party may withdraw its offer during the bid period where unanticipated circumstances justify and no minimum bid has been made. The withdrawal must be via written notice, facsimile transmission or through the EBB System E-Mail, or via EDI, including an affidavit establishing unanticipated circumstances justifying the withdrawal. A Shipper's Notice of a Prearranged Deal transmitted via EDI must be withdrawn via EDI.

10.3 Posting of Shipper's Notices

- (a) Except as set forth in Section 10.3(b), Shipper may deliver its completed notice to Transporter at any time, but it must be received by Transporter
- (i) no later than 1:00 p.m. central clock time on the day before nominations for short-term releases (less than five months), and

GENERAL TERMS AND CONDITIONS

10. CAPACITY REALLOCATION (Cont'd.)

- (ii) no later than 1:00 p.m. central clock time four business days before award for long-term releases (five months or longer).

If Shipper provides Transporter with a notice via EDI, Transporter shall post Shipper's completed notice on the EBB System upon receipt or as requested by Shipper. All posted notices shall be accessible via EDI throughout the posting period. If the Shipper requests a posting time, Transporter will support such request insofar as it comports with the standard timeline set forth in this Section 10. Shipper's notice shall remain posted until 2:00 p.m. central clock time on the day before nominations are due (open season is three business days). Bids and offers should be complete before being posted. Only posted bids and offers will be available electronically.

- (b) Where an Existing Shipper's Notice requests a release of capacity to a Prearranged Shipper (i) for a term of 31 days or less and the Existing Shipper has not requested that its notice be posted for purposes of soliciting competitive bids, or (ii) where the Prearranged Shipper offers to pay the maximum rate for the entire term of the proposed release, the notice will be posted for informational purposes only, and not to solicit bids. This Section 10.3(b) shall not be applicable to the posting of Existing Shipper Notices requesting a continuation of a release transaction previously posted for informational purposes only pursuant to clause (i) of this Section 10.3(b), or a renewal of such a previously posted transaction unless at least twenty-eight days have elapsed since the expiration of such transaction. The notice described in this Subsection 10.3(b) may be posted on the EBB System as late as 9:00 a.m. central clock time the day of nominations.

Superseding: First Revised Sheet No. 155

GENERAL TERMS AND CONDITIONS

10. CAPACITY REALLOCATION (Cont'd.)

10.4 Bidding Procedure

- (a) During the posting period applicable to an Existing Shipper's Notice that is subject to competitive bidding, Transporter will accept bids from Potential Shippers on Transporter's approved bidder list for the capacity proposed to be released. A request to be added to Transporter's approved bidder list must be tendered to Transporter in writing to:

National Fuel Gas Supply Corporation
Room 1401
10 Lafayette Square
Buffalo, New York 14203

Such requests must include the information required by Section 31 of these General Terms and Conditions and by Transporter's Transportation Service Request Form as posted on the EBB System from time to time. To be placed on and to remain on Transporter's approved bidder list, a Potential Shipper must satisfy, initially and on a continuing basis, Transporter's credit requirements as outlined in Section 31 of these General Terms and Conditions, and execute a master service agreement for each service it wishes to bid on.

- (b) Bids may be submitted by Potential Shippers to Transporter via the EBB System or via EDI during the posting period applicable to the Existing Shipper's Notice. Transporter will post the terms of each complete bid, but will not post the identity of the bidder, on the EBB System. Posted bids shall be accessible via EDI. Transporter shall reject bids

which do not match or exceed any minimum rate or term specified by the Existing Shipper's Notice, or are in other respects incomplete or non-responsive to such notice. Any bid received by Transporter offering to pay rates in excess of Transporter's applicable maximum rates, inclusive of surcharges, shall be treated by Transporter as an offer to pay rates equal to Transporter's applicable maximum rates, inclusive of surcharges, and no payments may be made or accepted at rates in excess of Transporter's applicable maximum rates, inclusive of surcharges. Where the Existing Shipper has specified that volumetric bids or bids based upon other variants of the rates applicable to the capacity to be released will be accepted, any bid which has a one hundred percent (100%) load factor derivative more than the one hundred percent (100%) load factor derivative of the maximum rates applicable to the capacity to be released shall be deemed to be a bid offering to pay rates in excess of Transporter's applicable maximum rates. Potential Shippers may revise their bids during the posting period. Potential Shippers may not submit multiple bids for the same package of capacity. A Prearranged Shipper may match the "best bid" received by Transporter during the posting period between 2:00 p.m. and 3:00 p.m. central clock time on the last day of the posting period.

- (c) Bids are binding until written or electronic notice of withdrawal is received by Transporter. Bids cannot be withdrawn after the bid period ends. Following the withdrawal of a bid, a Potential Shipper may not submit a bid lower than the bid withdrawn during the remainder of the posting period. For this purpose, bids will be determined to be "higher" or "lower" than the withdrawn bid by application of the standard applicable to the determination of best bid, as set forth in Section 10.5.

Superseding: Sub. Original Sheet No. 157

GENERAL TERMS AND CONDITIONS

10. CAPACITY REALLOCATION (Cont'd.)

10.5 Determination of Best Bid

- (a) Upon the conclusion of the posting period, Transporter shall determine the "best bid" for the capacity described in an Existing Shipper's Notice by applying the standard described by the Existing Shipper pursuant to Section 10.2(a)(x) hereof, or, if no standard was so described, Transporter shall make such determinations according to which bid would generate the revenue stream with the greatest net present value, without assuming any throughput, applying as the discount rate the rate under Section 154.501 of the Commission's regulations. Transporter is required to meet the capacity release timelines for processing capacity reallocations only if the Existing Shipper's best bid methodology is either (i) highest rate, (ii) net revenue, including the default standard provided by this Section 10.5(a), or (iii) present value.
- (b) Where the Existing Shipper's Notice proposes and aggregate release transaction involving capacities on upstream or downstream pipelines, Transporter shall consult with the other pipelines involved in the proposed release transaction following the conclusion of the posting periods of all involved pipelines, and collectively determine the best bid among bidders meeting the requirements of all involved pipelines in accordance with the standard described by the Existing Shipper pursuant to Section 10.2(a)(x) hereof.
- (c) Unless its bid is matched by a Prearranged Shipper, the released capacity shall be allocated to the Potential Shipper submitting the "best bid". If more than one Potential Shipper submits bids that each qualifies as a "best bid", the released capacity will be allocated to the Potential Customer who submitted the "best bid" first in time, unless a different tie-breaking method is specified by the Existing Shipper.

GENERAL TERMS AND CONDITIONS

10. CAPACITY REALLOCATION (Cont'd.)

Shipper with a right to match by 3:00 p.m. central clock time that day. The Prearranged Shipper must communicate to Transporter its desire to match the winning bid by 4:00 p.m. central clock time that day. Transporter will post the award on the EBB System by 5:00 p.m. central clock time that day.

10.6 Tendering and Execution of Service Agreements

The Replacement Shipper initiates confirmation of pre-arranged deals electronically. Transporter shall deliver by 10:00 a.m. central clock time the day of nominations such service agreements (including contract number) to the Potential Shipper or Prearranged Shipper as are necessary to effectuate the release transaction, via the EBB System or via EDI. Transporter must receive the executed service agreement, executed electronically by a password which was issued pursuant to a written request by an officer or principal of Shipper, via the EBB System or via EDI, before Transporter is required to accept a nomination. In the event all necessary service agreements are not executed by the Potential Shipper or Prearranged Shipper and returned to and received by Transporter by 11:00 a.m. central clock time on the day of nominations, the allocation of the released capacity to said Potential Shipper or Prearranged Shipper shall be nullified. In such event, the capacity shall be offered to the Potential Shipper that submitted the best bid, in relation to the applicable standard, from among remaining bids. A potential Shipper other than a Prearranged Shipper failing to timely execute and return its service agreement shall be removed from Transporter's approved bidder list for three (3) months. In the event that a Prearranged Shipper identified in an Existing Shipper's Notice that is exempt from the competitive bidding procedure fails to execute the necessary service agreements within the above described period, Transporter will so advise the

GENERAL TERMS AND CONDITIONS

10. CAPACITY REALLOCATION (Cont'd)

Shipper but will otherwise have no further obligations with regard to the Existing Shipper's Notice. If the Potential or Prearranged Shipper satisfies Transporter's applicable tariff provisions governing shipper eligibility and its bid is accepted by Transporter, Transporter will execute the necessary service agreements with the Potential or Prearranged Shipper, which shall hereinafter be referred to as the Replacement Shipper.

10.7 Obligations of Existing Customer

The service agreements of the Existing Shipper releasing capacity will remain in full force and effect, with a portion of the proceeds attributable to any release credited to the Existing Shipper's bill as provided in Section 10.9 hereof. The Existing Shipper shall remain liable to Transporter under the terms of its service agreement with Transporter during and irrespective of any assignments of the rights and obligations under the service agreement for all reservation, demand and capacity charges, and any surcharges applicable to such charges, but excluding commodity or usage charges and imbalance penalties.

Where an Existing Shipper proposes to release capacity to a Replacement Shipper for the entire remaining term of the applicable service agreement between Transporter and the Existing Shipper, the Existing Shipper may request Transporter to release the Existing Shipper from any further obligations to Transporter upon the effectiveness of the service agreement between Transporter and the Replacement Shipper. Transporter shall be under no obligation to grant such requests unless the Replacement Shipper (i) agrees to pay for the released capacity of Transporter's maximum rates and (ii) demonstrates to Transporter that it possesses sufficient financial stability, or if it provides such security as is necessary, to make Transporter reasonably secure that the Replacement Shipper will pay for service on a timely basis throughout the remaining term of the service agreement between Transporter and the Existing Shipper. Transporter shall exercise its discretion under this provision in a non-discriminatory manner.

Effective Date: 04/01/1997 Status: Effective

Original Sheet No. 159A Original Sheet No. 159A : Effective

GENERAL TERMS AND CONDITIONS

10. CAPACITY REALLOCATION (Cont'd)

10.8 Rights and Obligations of Replacement Shippers.

Once the Replacement Shipper enters into a service agreement with Transporter, the Replacement Shipper becomes an Existing Shipper like any other Shipper and is subject to the provisions set forth in this FERC Gas Tariff including all requirements concerning nominations and scheduling. In addition, the Replacement Shipper as an Existing Shipper (hereinafter called a "Secondary Existing Shipper") may also release its capacity pursuant to this section.

10.9 Billing Adjustments

Transporter shall credit the bill of the Existing Shipper with any reservation, demand or capacity charges (including surcharges thereon) billed to a Replacement Shipper utilizing capacity released by the Existing Shipper; provided, however, that should a Replacement Shipper (including a Replacement Shipper of any Secondary Existing Shipper) default on its obligation to make timely payment for the charges billed by Transporter, such credit shall be reversed, as of the date the credit was made, and the Existing Shipper shall be liable for such charges, together with interest as set forth in Section 5.4 of these General Terms and Conditions. The bill of the Existing Shipper shall be credited with any reservation, demand or capacity charges (including surcharges thereon) received by Transporter subsequent to the reversal of such credit.

10.10 Marketing Assistance

If the Existing Shipper requests the assistance of Transporter's Interstate Marketing Department in locating a replacement shipper, a representative from such department shall contact the Existing Shipper and discuss the services that are available at such time and the fees for such services. If the Existing Shipper and Transporter enter into a mutually agreeable marketing assistance arrangement, Transporter shall bill the Existing Shipper according to the terms of such agreement.

GENERAL TERMS AND CONDITIONS

11. PROCEDURES FOR AVOIDANCE OF PREGRANTED ABANDONMENT

11.1 Eligible Service Agreements. To the extent a Shipper satisfies the bid matching requirements of this Section 11 or Transporter and Shipper reach agreement as contemplated by Section 11.6, such Shipper may retain its capacity and continue to receive firm service under a long-term firm service agreement under the FT, EFT, FST, ESS or FSS Rate Schedules for which Transporter has served notice of termination. If Transporter receives one or more acceptable bids for such capacity and Shipper does not satisfy the bid matching requirements of this Section 11 or if Transporter does not receive any acceptable bids for such capacity and Transporter and Shipper do not reach agreement as contemplated by Section 11.6, Shipper shall no longer have, as of the effective date of Transporter's notice of termination, rights under the long-term firm service agreement for which Transporter has served notice of termination and Transporter shall have all necessary abandonment authorizations under the Natural Gas Act. This Section 11 is not applicable and Shipper shall have no rights hereunder to the extent the long-term service agreement is terminated by Shipper and Transporter shall have all necessary abandonment authorization under the Natural Gas Act. Short-term service agreements under the FT, EFT, FST, FSS and ESS Rate Schedules are not subject to the abandonment protection of this Section 11. Upon termination of a short-term service agreement, Transporter shall have all necessary abandonment authorization under the Natural Gas Act effective as of such termination date. For purposes of this Section 11, the term "long-term service agreement" shall include any service agreement with a primary or extended term of one (1) year or longer, and the term "short-term service agreement" shall include any service agreement with a primary or extended term of less than one (1) year.

11. PROCEDURES FOR AVOIDANCE OF PREGRANTED ABANDONMENT (Cont'd.)

capacity and continue to receive service at the applicable maximum rates, or at a rate between the minimum and maximum negotiated by Transporter and Shipper, for a term specified by Shipper. In the event Transporter and Shipper have not reached agreement on the terms and conditions under which service will be extended for Shipper before the later of the date which is two (2) months following the date of Transporter's notice to Shipper that no acceptable bids have been received, then Transporter shall have all necessary abandonment authorization under the Natural Gas Act as of the date of termination of the long-term service agreement.

- 11.7 Special Provisions Concerning Agreements With Terms of Two Years or Less. If the primary or extended term of Shipper's service agreement, whichever is applicable, is two (2) years or less, the five (5) month posting period described in Subsection 11.3 will not apply, and a two (2) month posting period will apply in lieu thereof, and the deadline by which Transporter and Shipper must reach agreement on the terms and conditions under which service will be extended as described in Subsection 11.6 will be the date which is one (1) month following the date of Transporter's notice to Shipper that no acceptable bids have been received. Except as set forth in this Subsection 11.7, the provisions of Subsections 11.1-11.6 shall be applicable to all long-term service agreements.

12. UPSTREAM CAPACITY

Where Transporter, pursuant to a certificated exchange agreement, may cause another pipeline to receive gas associated with a source of Appalachian production at one or more points of receipt ("Exchange Points") and deliver such gas to Transporter, such Exchange Points may be used by a Shipper receiving service under the FT, EFT, FST, IT, or IAS Rate Schedule as a receipt point, subject to the terms and conditions set forth in such Rate Schedule. Transporter shall pass-through any costs and retainages imposed by such other pipeline to the Shippers using Exchange Points as receipt points, on an as-billed basis.

GENERAL TERMS AND CONDITIONS

12. UPSTREAM CAPACITY (Cont'd.)

- (d) When an increment of upstream capacity is rejected by a former RQ or CD customer (either affirmatively or by failing to execute necessary documentation), Transporter shall give notice on its Electronic Bulletin Board of such rejection. For a period of three (3) business days following any such notice, another former RQ or CD customer may notify Transporter of its desire to exchange its right to take assignment of an equal amount of other upstream capacity for the rejected capacity, and to exchange corresponding receipt entitlements under Transporter's EFT Rate Schedule. Upon the conclusion of such three (3) business day period, the former RQ or CD customer making such notification shall acquire the right to take assignment of the requested increment of upstream capacity, the upstream capacity exchanged therefor shall be deemed to have been rejected by such customer, and the EFT receipt entitlements of the requesting and rejecting customer shall be adjusted accordingly. The rejection of an increment of capacity by a former RQ or CD customer shall be deemed to include the customer's consent to such a corresponding adjustment of EFT receipt entitlements. If more than one former EFT customer requests assignment of the same increment of rejected upstream capacity, the right to take assignment of such capacity shall be apportioned among the requesting customers in proportion to their respective Contract Maximum Daily Quantities under the EFT Rate Schedule. All exchanges of upstream capacity and EFT receipt entitlements consummated in accordance with the procedures set forth in this Subsection 12.3(d) between April 1, 1993 and August 1, 1993 shall be effective as of August 1, 1993.

- 12.4 Subsequent Assignments. Following the initial assignments described in Subsection 12.3 of this Section 12, Transporter shall give notice on its Electronic Bulletin Board of any remaining upstream capacity that is available for permanent assignment as of August 1, 1993. Upstream capacity will be assigned on a first-come first-served basis according to the date Transporter receives from a requesting assignee a request describing the capacity described, which must include evidence

GENERAL TERMS AND CONDITIONS

12. UPSTREAM CAPACITY (Cont'd.)

satisfactory to Transporter that the requesting assignee has received all consents and approvals as are necessary to effectuate an assignment meeting the requirements of Subsection 12.2 of this Section 12.

- 12.5 Purchases Under Remaining Bundled Sales Contracts. If, upon August 1, 1993, Transporter remains a bundled, firm sales customer of an upstream pipeline such bundled, firm sales contract or portion thereof shall not be made available for assignment pursuant to Subsection 12.4 of this Section 12, but shall be retained by Transporter until assignment to its former RQ and CD customers can be arranged or until the bundled sales contract is converted into a firm transportation and/or firm storage contract, whereupon Transporter's former RQ and CD customers may again seek an assignment of capacity as set forth in Subsection 12.3 of this Section 12. Prior to the assignment or conversion of the capacity associated with such bundled sales contract, the firm transportation service provided by Transporter to Shipper shall include the sale by Transporter to Shipper of the gas purchased by Transporter from the upstream pipeline. Such sale shall occur at the interconnection(s) between Transporter and the upstream pipeline. For such sales service, Transporter shall bill to its former RQ and CD customers, on an as-billed basis, such amounts as are necessary to fully recover the costs incurred by Transporter under such upstream pipeline contract, including all surcharges, refunds and other adjustments, regardless of when imposed or authorized. Demand and other fixed charges billed by the pipelines listed below shall be allocated among its former RQ and CD customers according to the percentages set forth in the table below. Upon the request of a former RQ or CD customer, Transporter shall arrange for the purchase of quantities of gas from one or more of the pipelines listed below, up to the quantities shown below, and the delivery of such quantities at the customer's receipt point(s) into Transporter's system. Commodity and other variable charges billed by the pipelines listed below shall be allocated among Transporter's former RQ and CD customers in proportion to the quantities purchased by Transporter at the request of each customer.

12.8 Special Provision regarding certain exchange agreements.

Where Transporter, pursuant to a certificated exchange agreement, may cause another pipeline to receive gas associated with a source of Appalachian production at one or more points of receipt ("Exchange Points") and deliver such gas to Transporter, such Exchange Points may be used by a Shipper receiving service under the FT, EFT, FST, IT, or IAS Rate Schedule as a receipt point, subject to the terms and conditions set forth in such Rate Schedule. Transporter shall pass-through any costs and retainages imposed by such other pipeline to the Shippers using Exchange Points as receipt points, on an as-billed basis.

2nd Sub. First Revised Sheet No. 181 2nd Sub. First Revised Sheet No. 181 : Superseded
Superseding: 1st Rev. 2nd Sub. Original Sheet No. 181

GENERAL TERMS AND CONDITIONS

13. NOMINATING AND SCHEDULING TRANSPORTATION SERVICE

- 13.1 Nominations. Upon Transporter's acceptance of Shipper's Service Request and Transporter's and Shipper's execution of a service agreement, Shipper shall be entitled to make nominations for transportation service, as provided herein.

No transportation service will commence unless and until Transporter has received a completed "Customer Nomination" and Shipper has been advised by Transporter that the service may commence. All standard and intra-day nominations for transportation service shall be made either via facsimile transmission or via EDI. Transporter shall not be required to accept any purported nomination received via mail, written notice, courier service, personal delivery or telephone.

The completed Customer Nomination shall include a notation indicating whether it is submitted as a standard or intra-day nomination. The standard quantity for nominations, confirmations and scheduling shall be dekatherms per day. A nomination requesting modifications to an existing nomination need reflect only the proposed changes and the proposed effective date and time.

Transporter will support a seven-day-a-week, twenty-four-hours-a-day nomination process. It is recognized that the success of seven days a week, twenty four-hour a day nominations process is dependent on the availability of affected parties' scheduling personnel on a similar basis. Party contacts need not be at their ordinary work sites, but should be available by telephone or beeper.

Effective June 1, 1997, nominations for the receipt of gas by Transporter shall be accepted by Transporter only if the point of receipt is either (i) an interconnection with another interstate pipeline whose FERC Gas Tariff incorporates the GISB Standards, or (ii) an interconnection with an Operator that is a party to a currently effective Interconnection Agreement with Transporter applicable to such interconnection. The form of Interconnection Agreement is set forth herein beginning at Tariff Sheet No. 336.

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-002

Alt. Second Revised Sheet No. 182 Alt. Second Revised Sheet No. 182 : Superseded
Superseding: First Revised Sheet No. 182

GENERAL TERMS AND CONDITIONS

13. NOMINATING AND SCHEDULING TRANSPORTATION SERVICE (Cont'd.)

- (a) Standard Nominations. A "standard nomination" is a nomination for transportation service beginning at the start of a day and ending at the end of a day. All nominations should include shipper defined begin dates and end dates. All nominations excluding intra-day nominations should have roll-over options. Specifically, shippers should have the ability to nominate for several days, months, or years, provided the nomination begin and end dates are within the term of shipper's contract. A standard nomination should be based on a daily quantity, and may be modified either by a superseding standard nomination or by an intra-day nomination as described in Section 13.1(b). A standard nomination which is superseded by an intra-day nomination shall, at the conclusion of the day on which the intra-day nomination was in effect, revert to the quantities, locations and end date submitted in the superseded standard nomination. A standard nomination which is superseded by a standard nomination shall, at the conclusion of the end date in the superseding standard nomination, revert to the quantities, locations and end date submitted in the superseded standard nomination.
- (b) Intra-day Nominations. If Shipper desires to initiate or modify transportation service effective at any time at or after 1:00 p.m. central clock time on the effective day of the nomination, Shipper shall provide Transporter with a completed Customer Nomination specifying the effective date and time, and received by Transporter at least two hours before gas flow, subject to confirmation received by Transporter no later than one hour before gas flow that the delivering and receiving parties will implement such revision and adjust gas flows accordingly. An intra-day nomination should be based on a daily quantity; thus, an intra-day nominator need not submit an hourly nomination. The interconnected parties must agree on the hourly flows of the intra-day nomination, if not otherwise addressed in Transporter's contract or tariff. An intra-day nomination shall span only a single day, terminating at the conclusion of the day on which the intra-day nomination is effective. Intra-day nominations will be processed after timely standard nominations have been

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-002

Sub. Second Revised Sheet No. 183 Sub. Second Revised Sheet No. 183 : Superseded
Superseding: 1st Rev. First Revised Sheet No. 183

GENERAL TERMS AND CONDITIONS

13. NOMINATING AND SCHEDULING TRANSPORTATION SERVICE (Cont'd.)

scheduled. Transporter shall not be required to accept an intra-day nomination whose effect would be to reschedule quantities of gas flowing for other Shippers under standard nominations. Transporter shall schedule an intra-day nomination to the extent that capacity is available. No intra-day nomination shall be for a quantity that is less than the quantity of gas that has been scheduled to flow on such day prior to the effective time of such intra-day nomination. The last intra-day nomination received with respect to a day shall be deemed to be the valid nomination for such day and shall supersede any previous nomination for such day.

- (c) Validation and Confirmation. The standard nominations timeline should be as follows: 11:30 am central clock time for nominations leaving the control of the nominating party; 11:45 am for receipt of nominations by Transporter; noon central clock time for a quick response; 3:30 PM for receipt of completed confirmations by Transporter from upstream and downstream connected parties; 4:30 PM for receipt of scheduled quantities by Shipper and point operator (central clock time on the day prior to flow). In addition, at the end of each day Transporter shall make available to Shippers, via EDI, information containing scheduled intra-day nominations and any other scheduling changes. The process (excluding timelines) of quick response, confirming with upstream and downstream parties and scheduling also applies to intra-day nominations.

Transporter, as receiver of a nomination, initiates confirmation with the caveat that the receiver of the confirmation may relieve Transporter of the obligation to send. The sending party should adhere to nomination, confirmation, and scheduling deadlines. It is the party receiving the request who has the right to waive the deadline. At a receipt or delivery point, the "lesser of" rule (confirmed or nominated flow) applies when confirming. If no communication is received, the lesser of the new nomination or previously scheduled quantity applies.

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-002

Sub. Second Revised Sheet No. 183A Sub. Second Revised Sheet No. 183A : Superseded
Superseding: 1st Rev First Revised Sheet No. 183A

GENERAL TERMS AND CONDITIONS

13. NOMINATING AND SCHEDULING TRANSPORTATION SERVICE (Cont'd.)

- (d) Other Nominations. At its option, Transporter may accept nominations which are not timely, or are not transmitted via facsimile transmission or EDI, but Transporter shall not be required to comply with the standard nomination timelines set out in Section 13.1(c) of these General Terms and Conditions with respect to such nominations. Nominations received after nomination deadline should be scheduled after the nominations received before the nomination deadline.
- (e) Pooling at Appalachian Production Receipt Points. Any Shipper or Operator may request the creation of a pool of certain Appalachian production receipt points on Transporter's system by submitting to Transporter, in writing on or before 9:00 central clock time the 20th day of the month preceding the desired effective date, a Pool Operator Confirmation signed by the Operators at each receipt point within the proposed pool and, if different, by the proposed pool operator. A list of the Appalachian production receipt points currently eligible for pooling (which is subject to change from time to time in Transporter's sole discretion), and the corresponding pooling zone, can be obtained via the EBB System. Pools will be established for a month and shall continue from month-to-month thereafter until terminated by the pool operator or by Transporter by notice at least ten

Effective Date: 04/01/1997 Status: Effective

Original Sheet No. 183B Original Sheet No. 183B : Superseded

GENERAL TERMS AND CONDITIONS

13. NOMINATING AND SCHEDULING TRANSPORTATION SERVICE (Cont'd.)

days before the effective date of termination. The Operator of a receipt point may withdraw his point by notice to Transporter at least ten days before the effective date of withdrawal. All the receipt points in a single pool must be within one of the following "pooling zones":

Pooling Zone Name	State
M&N System	PA
Pennsylvania Non-Gathering	PA
Pennsylvania Gathering	PA
New York Non-Gathering	NY
New York Gathering	NY

Any eligible receipt point within a pooling zone may be pooled with any other eligible receipt point in that pooling zone. A receipt point shall be associated with one pool only. While a receipt point is included within a pool, Shippers must nominate from the pool instead of the receipt point. The pool operator shall confirm nominations from the pool with Transporter. As a part of the scheduling process Transporter may require Shipper to adjust nominations from a pool to reflect Transporter's best estimate of associated production volumes within that pool. Pool operators must submit a pre-determined allocation form described in Section 14.5 of these General Terms and Conditions prior to the beginning of each month, applicable to the pool as a whole and not to individual receipt points within the pool. In the absence of a timely predetermined allocation form, Transporter shall allocate receipts from the pool among service agreements on a pro-rata basis. Transporter shall schedule receipts from an Appalachian pool as secondary receipt points, unless all receipt points within the pool are primary receipt points.

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-000

Original Sheet No. 183C Original Sheet No. 183C : Superseded

GENERAL TERMS AND CONDITIONS

13. NOMINATING AND SCHEDULING TRANSPORTATION SERVICE (Cont'd.)

- (f) Pooling at Pipeline Interconnections. A Shipper who is delivering gas into Transporter's system from more than one contract on an interconnecting interstate or intrastate pipeline at a single receipt point may request the creation of a pool of gas at that point by submitting to Transporter in writing on or before 9:00 a.m. central clock time on the 20th day of the month preceding the desired effective date, a Pool Operator Confirmation signed by Shipper and, if different, by the proposed pool operator. Pools will be established for a month and shall continue from month-to-month thereafter until terminated by the pool operator or by Transporter by notice at least ten days before the effective date of termination. Shippers shall nominate from the pool instead of from the individual upstream contracts within the pool. The pool operator shall confirm nominations to and from the pool with Transporter. As part of the scheduling process, Transporter may require Shippers to adjust nominations from a pool to reflect scheduled receipts into Transporter's system.

- 13.2 Scheduling. When deemed necessary by Transporter, Transporter may require confirmation from any Operator that scheduled receipts and deliveries will occur prior to scheduling receipts and deliveries on its system. Transporter may decline to schedule receipts and deliveries through segments of its system if such action is required in Transporter's judgment by weather or the necessity to conduct maintenance, repair or replacement activities with regard to its facilities, to schedule Department of Transportation compliance activities, to install taps, to test storage fields, operational equipment, compressors or compressor station equipment, or similar activities affecting capacity and operations of portions of its system, or as a result of conditions of force majeure, as described at Section 8.1 of these General Terms and Conditions. Transporter shall schedule receipts and deliveries of gas for shippers in a sequence that is the reverse of the order in which capacity is curtailed pursuant to Sections 16.1, 16.2 and 16.3 of these General Terms and Conditions, provided, however, that Transporter shall notify each

GENERAL TERMS AND CONDITIONS

13. NOMINATING AND SCHEDULING TRANSPORTATION SERVICE (Cont'd.)

Shipper whose interruptible or overrun service would not be scheduled only because its service agreement specifies a discounted rate, and provide such Shipper with one opportunity to offer to pay a higher rate. If such Shipper agrees to pay a higher rate within the time period specified by Transporter in its notice to Shipper (which shall in no event be less than two (2) hours), such Shipper's nomination will have the scheduling priority commensurate with such higher rate.

Superseding: Original Sheet No. 184

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES

14.1 Introduction. Imbalances result whenever the amount of gas a Shipper receives from Transporter's system differs from the amount that Shipper delivered into Transporter's system (net of various adjustments). Imbalances can result from a difference between the amount of gas nominated at a particular receipt or delivery point and the amount of gas measured actually passing through that point. This Section 14 describes Transporter's methodology for allocating shortfalls and overruns at receipt and delivery points, and includes the various control measures intended to discourage, minimize and correct imbalances. Scheduled receipts and deliveries will be the basis for allocation of actual deliveries or receipts. The allocation methodology applied to actual deliveries or receipts shall be determined in accordance with an Operational Balancing Agreement as set forth in Section 14.2 hereof, information supplied by Shipper or other entities as set forth in Sections 14.3(b) and 14.4(b) hereof, or the default methodologies set forth in Sections 14.3(c) and 14.4(c) hereof.

14.2 Operational Balancing Agreements

- (a) Any imbalances arising under any transportation agreement between Shipper and Transporter that are attributable to variances (1) between actual receipts of natural gas and scheduled receipts of natural gas at receipt points into Transporter's system, or (2) between actual deliveries of natural gas and scheduled deliveries of natural gas at delivery points from Transporter's system, which receipt and/or delivery points are subject to Operational Balancing Agreements, as more fully described in subsection (b) hereof, on the day or days such variances arise, will be resolved by Transporter pursuant to the terms of the applicable Operational Balancing Agreement and Shipper shall not be subject to any imbalance charges or penalties pursuant to its service agreements with Transporter for such imbalances.

Effective Date: 04/01/1997 Status: Effective

First Revised Sheet No. 185 First Revised Sheet No. 185 : Superseded
Superseding: Sub. Original Sheet No. 185

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

- (b) For the purpose of minimizing operational conflicts between various pipeline facilities with respect to the delivery of gas to and from Transporter's facilities, Transporter is willing to negotiate and execute Operational Balancing Agreements with Operators that are not among parties described in Section 14.2(c)(i)-(iv) hereof (herein called the OBA Party). Transporter is also willing to negotiate with any other party which does not qualify to be an OBA Party as defined above, toward an Operational Balancing Agreement which would provide Transporter with assurances equivalent to those contained in the above definition of an OBA Party. Such Operational Balancing Agreements shall specify the gas custody transfer procedures to be followed by Transporter and the OBA Party for the scheduling of quantities to be received by Transporter at receipt points and delivered by Transporter at delivery points. Such Operational Balancing Agreements will provide that any variance between actual quantities and scheduled quantities for any day shall be resolved in-kind promptly pursuant to the terms of the Operational Balancing Agreement.

To facilitate such determination of variances on a timely basis, Transporter and the OBA Party will agree in the Operational Balancing Agreement on necessary and timely measurement, reporting and accounting procedures. Transporter shall post on the Electronic Bulletin Board System those receipt and delivery points which are subject to an Operational Balancing Agreement.

- (c) It is Transporter's intent to negotiate and execute Operational Balancing Agreements on a non-discriminatory basis with any OBA Party. However, Transporter shall have no obligation to negotiate and execute Operational Balancing Agreements with any party that:

Superseding: Original Sheet No. 186

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

- (i) is not sufficiently creditworthy to qualify for transportation service under Transporter's FT Rate Schedule of a Maximum Daily Transportation Quantity equal to the sum of the delivery capacities of the receipt and delivery points that would be subject to the Operational Balancing Agreements, and for purposes of Section 3.2 of the FT Rate Schedule, the cost of performing the service requested by Shipper for a three-month period would be arrived at by multiplying one-half (1/2) of the Negative Imbalance Cash-Out Price specified in Section 14.10(a) hereof by forty-five (45) times the daily delivery capacity of such receipt and delivery points;
 - (ii) does not maintain a dispatching operation which is staffed on a continuous, around-the-clock basis 365 days per year;
 - (iii) would result in the imposition of substantial additional regulatory requirements upon Transporter; or
 - (iv) does not commit to timely determination of variances based on reasonably available measurement technology.
- (d) Nothing in this Section 14.2 nor any executed Operational Balancing Agreement shall limit Transporter's rights to take action as may be required to adjust receipts and deliveries under any transportation agreement to reflect actual experience or to alleviate conditions which threaten the integrity of Transporter's system, including maintenance of service to higher priority Shippers and/or service.

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

At interconnections between the facilities of Transporter and another interstate pipeline or intrastate pipeline, or in the absence of such designee(s) at another receipt point, Transporter will rely:

- (A) upon information received from the delivering entity; or
- (B) in the absence of information received from the delivering entity, upon information received from Shippers on the delivering entity; or
- (C) in the absence of information received from the delivering entity or Shippers thereon, upon information received from the upstream supplier;

Provided, however, that Transporter will not rely upon information concerning any day received after 12:00 p.m. on the immediately previous day, or if reliance upon that information would be inconsistent with Transporter's tariff, be difficult to administer, create imbalances (in concert with instructions for corresponding delivery meters), force Transporter to operate in violation of its tariff, or be based upon the allocation of a delivery meter off a downstream party's system.

The Pre-Determined Allocation Methodology Form appearing at Section 14.5 hereof may be used for conveying such information.

- (ii) If the procedures in Subsection 14.3(b)(i) above are not sufficient to allocate receipts, the following default procedure shall apply. If the quantities received by Transporter for all Shippers at a receipt point, or the balance thereof remaining for allocation to a given service, is other than the sum of the scheduled receipts at that point under the applicable rate

schedules, receipts will be prorated among Shippers on the basis of the receipts scheduled by Transporter for each Shipper under all rate schedules.

(c) Allocation of Receipts Among Services.

- (i) Where a Shipper proposes to deliver gas to Transporter at a receipt point or a combination of receipt points under more than one Rate Schedule or agreement, Transporter may require such Shipper to instruct Transporter with regard to the allocation of Shipper's allocated share of receipts among services. Shipper shall provide or cause its designee to provide Transporter with the instructions set forth in this Section prior to the initiation of service and prior to each month of service thereafter. Such information shall be supplied to Transporter utilizing the "Pre-Determined Allocation Methodology Form" (see Section 14.5 hereof) by 12:00 P.M. on the day prior to commencement of service. If reasonably practicable, Transporter will allocate receipts among services in accordance with such instructions.
- (ii) If the procedures set forth in Subsection 14.3(c) (i) above are not sufficient to allocate receipts among services, the following default procedure shall apply. When Transporter receives, at any one receipt point, on the same day, gas for the account of Shipper under more than one rate schedule, Transporter's actual receipts will be allocated, for billing and gas accounting purposes, first to scheduled receipts under the IAS Rate Schedule, second to scheduled receipts under the FT and FST Rate Schedules, third to scheduled receipts under the SS-1 and SS-2 Rate Schedule, fourth to receipts under the EFT Rate Schedule, and fifth to scheduled receipts under the IT Rate Schedule.

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

14.4 Allocation of Deliveries.

(a) General

Transporter will use the best information it has available in order to allocate deliveries among Shippers and services. Transporter strongly encourages Shippers to complete and submit a Pre-Determined Allocation Methodology Form as described in Section 14.5 hereof.

(b) Allocation of Deliveries Among Shippers

- (i) Where more than one Shipper requests deliveries of gas from Transporter at a delivery point other than an interconnection between the facilities of Transporter and another interstate pipeline, intrastate pipeline or local distribution company, Transporter may require such Shippers to instruct Transporter with regard to the allocation of such Shippers' respective allocated shares of deliveries. Such Shippers shall provide or cause their designee(s) to provide Transporter with the instructions set forth in this section prior to the initiation of service and prior to each month of service thereafter. Such information shall be provided to Transporter using the Pre-Determined Allocation Methodology Form (See Section 14.5 hereof) by 12:00 p.m. on the day prior to the commencement of service. If reasonably practicable, Transporter will allocate deliveries among Shippers in accordance with such instructions. At interconnections between the facilities of Transporter and another interstate pipeline, intrastate pipeline or local distribution company, or in the absence of such a single designee at another delivery point, Transporter will rely:

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

- (A) upon information received from the receiving entity; or
- (B) in the absence of information received from the delivering entity, upon information received from Shippers on the receiving entity;

Provided, however, that Transporter will not rely upon information concerning any day received after 12:00 p.m. on the immediately previous day, or if reliance upon that information would be inconsistent with Transporter's tariff, be difficult to administer, create imbalances (in concert with instructions for corresponding receipt meters), force Transporter to operate in violation of its tariff, or be based upon the allocation of a delivery meter or end-use off a downstream party's system.

If the Pre-Determined Allocation Methodology Form for a Delivery Point identifies a service agreement, other than the service agreement with the party operating facilities that interconnect with Transporter's system at that Delivery Point, to be allocated the last quantities of gas through the meter, the Shipper whose service agreement has been identified must agree to the allocation methodology before it may become effective.

The Pre-Determined Allocation Methodology form appearing at Section 14.5 hereof may be used for conveying such information.

- (ii) If the procedures set forth in Subsection 14.4(b)(i) above are not sufficient to allocate deliveries among Shippers, the following default procedure shall apply. If on any day, for any reason, the quantity delivered by Transporter, or the balance thereof remaining for application to a

given service, is other than the sum of the scheduled deliveries under all applicable rate schedules, deliveries will be prorated first among Shippers under the FT, FST, SS-1 and SS-2 Rate Schedules on the basis of the deliveries scheduled by Transporter for each Shipper, then among Shippers under the EFT Rate Schedule on the same basis, and then among Shippers under the IT Rate Schedule on the same basis.

(c) Allocation of Deliveries Among Services

- (i) Where a Shipper requests deliveries of gas from Transporter at a delivery point or a combination of delivery points under more than one Rate Schedule or agreement, Transporter may require such Shipper to instruct Transporter with regard to the allocation of Shipper's allocated share of deliveries among services. Shipper shall provide or cause its designee to provide Transporter with the instructions set forth in this Section prior to the initiation of service and prior to each month of service thereafter. Such information shall be supplied to Transporter utilizing the "Pre-Determined Allocation Methodology Form" (See Section 14.5 hereof) by 12:00 P.M. on the day prior to commencement of service. If reasonably practicable, Transporter will allocate deliveries among services in accordance with such instructions.
- (ii) If the procedures set forth in Subsection 14.4(c) (i) are not sufficient to allocate deliveries among services, the following default procedure shall apply. When Transporter delivers, at any one delivery point, on the same day, gas for the account of Shipper under more than one rate schedule, Transporter's actual deliveries will be allocated, for billing and gas

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

14.6 Adjustment of Receipts and Deliveries.

It shall be the responsibility of Shipper to control and, if necessary, adjust deliveries of gas to Transporter for transportation hereunder and to control and, if necessary, to adjust receipts of gas from Transporter, in order to maintain a daily balance of receipts and deliveries (except to the extent otherwise provided in an applicable Rate Schedule). Transporter shall not be obligated to receive or deliver gas on any day in excess of the quantities scheduled by Transporter for Shipper, nor shall Transporter be obligated to deliver to Shipper at the delivery point(s) quantities in excess of quantities received for Shipper at the receipt point(s), less quantities for fuel and loss retention (in both cases, except to the extent otherwise provided in an applicable Rate Schedule). Transporter shall make available to Shipper information regarding receipts and deliveries based on the best operating information available to Transporter and make such information available to all parties to the transaction. Transporter shall make such operating information available on its Electronic Bulletin Board System, weekly for meters equipped with real time measurement operated by National, or such meters operated by others as they become available. Upon notification, Shipper shall be obligated to adjust receipts and deliveries of gas to correct or avoid any imbalance. Any adjustment to receipts and deliveries by Shipper, whether or not pursuant to notification from Transporter or otherwise, shall be coordinated with Transporter's gas dispatchers.

- 14.7 Calculation of Monthly Imbalances. A Shipper's imbalance under a particular service agreement is always equal to the amount of gas received by Transporter for that Shipper's account under that agreement, less the amount Transporter delivers to that Shipper under that agreement, and less fuel and loss retention, adjusted for imbalance payback and relief. Imbalances can be either positive (adjusted receipts for Shipper's account exceed deliveries to Shipper) or negative (deliveries to Shipper exceed adjusted receipts for Shipper's account).

Effective Date: 08/01/1993 Status: Effective

FERC Docket: RS92- 21-004

Sub. Original Sheet No. 195 Sub. Original Sheet No. 195 : Superseded

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

Each month, Transporter will calculate the imbalance for each agreement (from among all the receipt and delivery points used under that agreement) and aggregate those calculations into that agreement's Monthly Imbalance. The Monthly Imbalances for all the agreements in effect for a single Shipper are set off against each other to calculate the Monthly Shipper Imbalance. Each Monthly Shipper Imbalance is aggregated with any cumulative unresolved imbalances from previous months into that Shipper's Cumulative Monthly Imbalance. The Cumulative Monthly Imbalance is compared to a Monthly Imbalance Tolerance Level ("MITL"), which is equal to 5% of the accumulated daily scheduled receipts for the month under all that Shipper's agreements, but at least 1000 Dth.

Transporter will send a Monthly Imbalance Statement, setting out the Monthly Imbalance for each of Shipper's agreements, the Monthly Shipper Imbalance and Cumulative Monthly Imbalance, to each Shipper by the 25th day of the following month, or by the next following business day if the 25th falls on a weekend or holiday. If a Shipper indicates its consent in writing delivered to Transporter, or by E-Mail message on the EBB System, Transporter will transmit a Shipper's Monthly Imbalance Statement by E-Mail message on the EBB System.

- 14.8 Transportation Balancing Fee Imbalances in excess of one MITL represent unauthorized use of Transporter's system facilities. If the Monthly Shipper Imbalance quantity causes the Cumulative Monthly Imbalance to exceed one MITL, a Transportation Balancing Fee will be charged on the amount in excess of tolerance, except as otherwise provided in this Section 14.8. The schedule for this fee per dth is as follows:

Monthly Imbalance

Tolerance Level Transportation Balancing Fee

Up to 1	0	
> 1 to 2	0.2	x ISS Rate
> 2 to 3	0.4	"
> 3 to 4	0.6	"
> 4 to 5	0.8	"
> 5	1.0	"

Effective Date: 04/01/1996 Status: Effective

FERC Docket: RP95- 31-011

Second Revised Sheet No. 196 Second Revised Sheet No. 196 : Superseded
Superseding: First Revised Sheet No. 196

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

The Transportation Balancing Fee will be included in Shipper's regular bill for transportation services, and will be subject to all payment and collection requirements applicable to that bill. All Transportation Balancing Fees assessed by Transporter to any Shipper who is an affiliate of Transporter during any quarter of a calendar year shall be directly refunded to each Shipper under Rate Schedule FT, FST or EFT who was not assessed a Transportation Balancing Fee during that quarter (a "Balanced Shipper"), based on each Balanced Shipper's MDTQ under Rate Schedules FT, FST and EFT as a percentage of the total such MDTQs of all Balanced Shippers. Such refunds shall be made within 45 days of the close of each quarter, and may be done by a credit against any amounts due from that Shipper.

To avoid collection of more than one Transportation Balancing Fee on a single month's imbalance, Transporter shall apply the following principles, in a nondiscriminatory manner, in computing the Transportation Balancing Fee:

- (a) The Transportation Balancing Fee shall be applicable to a Shipper for an activity month only if that Shipper has made a binding election, pursuant to Section 14.9 hereof, to resolve imbalances "in kind" (as opposed to by "cash-out").
- (b) The Transportation Balancing Fee shall be calculated only on the amount by which the current Monthly Shipper Imbalance worsens that Shipper's Cumulative Monthly Imbalance.
- (c) Monthly Shipper Imbalances which correct Cumulative Monthly Imbalances in part or in full, or which do not cause the Cumulative Monthly Imbalance to exceed one MITL, shall not result in any Transportation Balancing Fee;
- (d) all gas activity is allocated first to current month activity; and
- (e) imbalances shall be computed on a First-In First-Out (FIFO) basis.

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

Examples of the application of these rules in various circumstances will be included in statements of policy which Transporter will post on its Electronic Bulletin Board.

- 14.9 Imbalance Resolution. A Shipper may elect to resolve imbalances either "in kind" or by "cash-out". This election must be made by submitting a completed and signed "Imbalance Resolution Methodology Form" (see Section 14.12 below). Any Shipper not submitting that form will be deemed to have elected to resolve imbalances via cash-out. All imbalances on all of Shipper's contracts must be resolved using the same methodology. The election of methodologies must be made at or before the earliest time a monthly nomination is required to be submitted under any of Shipper's contracts.

If Shipper elects to resolve imbalances in kind, that Shipper will be subject to the Transportation Balancing Fee as described in Section 14.8 hereof. Imbalances of such Shippers, and imbalances of other Shippers which have not been cashed-out, may be resolved in one of the following ways:

- (a) Shipper Imbalance Exchange - Shippers who agree to all the terms of Transporter's Imbalance Exchange, and so indicate on their Imbalance Resolution Methodology Form, will be allowed to exchange imbalances with other such Shippers on the Shipper Imbalance Exchange. In a transaction on the Shipper Imbalance Exchange, the imbalance quantities of each participating Shipper must be offset to a level within that participating Shipper's MITL for the agreement which has the imbalance being exchanged. Transporter will post a participating Shipper's imbalance information on the Shipper Imbalance Exchange portion of Transporter's Electronic Bulletin Board or, upon receipt of a written request, will make the information available to a participant in written form. Transporter will have applicable information posted by the 25th day of the month following the activity month, or the next following business day if the 25th falls on a weekend or holiday. Shippers desiring to trade imbalances must present Transporter with a request for transfer (via Transporter's

Effective Date: 08/01/1993 Status: Effective

FERC Docket: RS92- 21-001

Original Sheet No. 198 Original Sheet No. 198 : Superseded

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

The Negative Imbalance Cash-Out Price is a price per Dth which is applied to the amount of the Shipper's negative imbalance. Shipper's regular invoice for transportation services will include the money owed by Shipper under this Negative Imbalance Cash-Out, which will be subject to all payment and collection requirements applicable to that bill. Any money which Shipper has paid as a Transportation Balancing Fee for activity under a given contract during a given month shall be credited against (but shall not reduce below zero) Shipper's obligation to pay a Negative Imbalance Cash-Out Price on that contract for that same month. Upon receipt of payment, Transporter will make gas accounting entries reducing the amount of Shipper's negative imbalance accordingly.

Transporter shall post the Negative Imbalance Cash-Out Price for each month on its Electronic Bulletin Board. The applicable Negative Imbalance Cash-Out Price will be equal to the highest monthly Negative Imbalance Cash-Out Price for any one of the three months immediately following the activity month. The Negative Imbalance Cash-Out Price is based upon the approximate cost for southwest spot gas plus the cost of transportation to National's system, and will be calculated as follows:

NICOP = Negative Imbalance Cash-Out Price

$$\text{NICOP} = 2 \times (\text{SWI} + \text{WAT})$$

SWI = Southwest Index, which is the arithmetic average of all spot gas index prices per Dth reflective of the first day of the month quoted by: (i) Natural Gas Intelligence "Spot Gas Prices", "Delivered to Pipelines", "30-Day Supply Transactions", and (ii) Inside FERC "Gas Market Report", for deliveries of gas produced in Texas and Louisiana into the system of Tennessee Gas Pipeline Company ("TGP"), Texas Eastern Transmission Corporation ("TETCO") or Transcontinental Gas Pipe Line Corporation ("Transco").

Effective Date: 08/01/1993 Status: Effective

FERC Docket: RS92- 21-008

2nd Sub. Original Sheet No. 199 2nd Sub. Original Sheet No. 199 : Superseded

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

- (v) the cash-out shall be accomplished in the same manner, as if the Shipper's entire imbalance had arisen during the given activity month and was being cashed out pursuant to Section 14.10 hereof, except that the cash-out price shall be the Index as defined in Section 14.10(a) hereof, without adjustment by 110% or 90%; and
- (vi) Transporter is not required to exercise its option if Transporter believes, in its sole discretion, that exercise of its option would not be prudent at that time.

14.10 Cash-Out of Imbalances. If a Shipper which has elected (or been deemed to elect) to resolve imbalances via cash-out has a Cumulative Monthly Imbalance in excess of one MITL, that Shipper's entire Cumulative Monthly Imbalance shall be cashed-out as described in this Section 14.10.

- (a) Clearing of negative imbalances. Should such imbalance be negative, the imbalance shall be subject to Negative Imbalance Cash-Out.

The Negative Imbalance Cash-Out Price is a price per Dth which is applied to the amount of the Shipper's negative imbalance. Shipper's regular invoice for transportation services will include the money owed by Shipper under this Negative Imbalance Cash-Out, which will be subject to all payment and collection requirements applicable to that bill. Upon receipt of payment, Transporter will make gas accounting entries reducing the amount of Shipper's negative imbalance accordingly.

Transporter shall post the Negative Imbalance Cash-Out Price for each month on its Electronic Bulletin Board. The Negative Imbalance Cash-Out Price shall be equal to one hundred ten percent (110%) of the following index (the "Index"):

SWI + WAT

Effective Date: 01/06/1995 Status: Effective

FERC Docket: RP95- 83-000

First Revised Sheet No. 200 First Revised Sheet No. 200 : Superseded
Superseding: Sub. Original Sheet No. 200

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

- (b) Clearing of Positive Imbalances. Should such imbalance be positive, the imbalance shall be subject to Positive Imbalance Cash-Out.

The Positive Imbalance Cash-Out Price is a price per Dth which is applied to the amount of the Shipper's positive imbalance. Transporter will refund, credit or otherwise pay to Shipper the Positive Imbalance Cash-Out Price in return for Transporter's retaining the positive imbalance quantities at no further cost to Transporter, free and clear of any claims by any adverse party including Shipper. Shipper's regular invoice for transportation services will include a credit or refund for the money owed to Shipper under this Positive Imbalance Cash-Out. Upon sending that invoice, Transporter will make gas accounting entries reducing the amount of Shipper's positive imbalance accordingly. Transporter shall post the Positive Imbalance Cash-Out Price for each month on its Electronic Bulletin Board.

The Positive Imbalance Cash-Out Price shall be equal to ninety percent (90%) of the Index as defined in Section 14.10(a) hereof.

- (c) Refund of Cash-Out Revenues in Excess of Costs. For purposes of this Subsection (c), an "Annual Billing Period" shall be the twelve month period commencing each April and ending the following March 31. Subsequent to the end of each Annual Billing Period, Transporter shall compare the revenues received by Transporter under the cash-out procedures with the costs incurred by Transporter under such cash-out procedures, including the costs of purchasing gas to replace any quantities of gas conveyed in cashing out negative imbalances which are not offset by gas obtained in cashing out positive imbalances. If the revenues received exceed the costs incurred, then Transporter shall refund, within 60 days of the end of the Annual Billing Period, the net overrecoveries to EFT and FT Shippers on a pro rata basis in accordance with the transportation volumes Transporter has delivered to each such Shipper during the Annual Billing Period. Such refund may be accomplished by a credit against any amounts owed by Shipper to Transporter. If the revenues

received are less than the costs incurred, then Transporter shall carry forward the net underrecoveries to the subsequent Annual Billing Period and may offset such net underrecoveries against any future net overrecoveries that may occur in a subsequent Annual Billing Period.

- (d) If Transporter desires to auction any gas purchased under Sections 14.9(c) or 14.10(b) of the General Terms and Conditions, any gas retained because it was not withdrawn pursuant to Section 2.5 of Rate Schedule ISS, any gas retained under Section 15.2 of the General Terms and Conditions, or any gas retained by Transporter as a result of the termination of any storage or transportation service agreement, Transporter shall post such quantities, with a minimum acceptable price, on Transporter's Electronic Bulletin Board on the fifteenth day of the month or the next business day thereafter. Transporter shall accept bids for any portion of the posted quantity, at a price no lower than the posted minimum acceptable prices only during the time period from 8:00 a.m. until 12:00 p.m. ET on the second business day following the posting. Prior to 5:00 p.m. ET of the same day, Transporter shall notify the bidders who, in the aggregate, submitted bids which yield the greatest total price for the total quantity bid upon; provided, however, Transporter reserves the right to reject all bids. When the gas is purchased at auction, the buyer must provide identification of the existing transportation service agreement with Transporter under which the Buyer shall nominate, transport and deliver all gas by the end of the month following the month in which the gas is purchased. The buyer further agrees that the gas is subject to Section 14, prospectively from the date of the buyer's purchase pursuant to this Section 14.10(d). All auction proceeds shall be handled in accordance with Section 14.10(c) hereof.

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

14.11 Prior Month Adjustments.

(a) Post-Restructuring Imbalances

If a Prior Month Adjustment (PMA) is to be made (either at the request of Shipper or at Transporter's initiative), Transporter will notify Shipper of the amount and nature of the PMA, either as part of the Monthly Imbalance Statement or in a separate communication. Shipper has until the end of the month following the month in which such notification was made to resolve the PMA in kind by adjusting Shipper's receipts and deliveries of gas.

If the PMA is not resolved in kind within the required time, a positive PMA (Shipper has too much gas on Transporter's system) will be resolved by Transporter's retaining an amount of Shipper's gas equal to the amount of the PMA, at no cost and free and clear of all claims by any party. A negative PMA (Shipper has insufficient gas on Transporter's system) will be resolved by Shipper's paying to Transporter an amount of money equal to the amount of the PMA (expressed in dekatherms) multiplied by the Cash-Out Price applicable to the month which was adjusted by that PMA. Shipper's regular bill for transportation services will include the amount of gas retained by Transporter pursuant to this paragraph and/or the amount which is owed by Shipper pursuant to this paragraph, which will be subject to all payment and collection requirements applicable to that bill.

(b) Pre-Restructuring Imbalances

Shippers with imbalances existing prior to August 1, 1993 may correct such imbalances pursuant to procedures in effect at the time the imbalance was incurred until October 1, 1993. Any remaining imbalances as of this date will be added to current imbalances and be subject to the provisions of Section 14.8 - 14.10. Optionally, a Shipper may elect to add any existing imbalances to a current imbalance prior to August 1, 1993.

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

14.12 Imbalance Resolution Methodology Form.

Each Shipper must complete and deliver to Transporter the following form covering all of that Shipper's agreements, to notify Transporter of that Shipper's choice of methods to resolve imbalances on that agreement. This Imbalance Resolution Methodology Form will be due by the earliest day for which nominations are required under any of Shipper's agreements. A maximum of one Form per Shipper per month may be filed. A submitted Form continues in effect unless a superseding Form is filed. If a Shipper seeks to change its imbalance resolution methodology from "in kind" to "cash-out", or from "cash-out" to "in kind", at a time when that Shipper's Cumulative Monthly Imbalance is other than zero, Transporter will reject that Imbalance Resolution Methodology Form, and Shipper will have to submit another form if it wishes to change its imbalance resolution methodology at a later date. The following is Transporter's Imbalance Resolution Methodology Form:

IMBALANCE RESOLUTION METHODOLOGY FORM

Please circle "yes" or "no" to each question.

- | | | |
|---|-----|----|
| 1. RESOLVE IMBALANCES "IN KIND"? | YES | NO |
| 2. PARTICIPATE IN SHIPPER IMBALANCE EXCHANGE? | YES | NO |
| 3. POST TO SHIPPER IMBALANCE EXCHANGE ON EBB? | YES | NO |

GENERAL TERMS AND CONDITIONS

14. ALLOCATION AND IMBALANCES (Cont'd.)

NOTES:

Option 1 answered negatively, with Option 2 answered affirmatively and Option 3 answered negatively, is the default imbalance resolution methodology. If Option 1 is answered affirmatively, then Option 2 answered affirmatively with Option 3 answered negatively is the default imbalance resolution methodology. Execution and delivery of this form to Transporter constitutes a waiver of any claim the undersigned Shipper may have against Transporter, its employees, officers, directors, affiliates and/or agents based upon Shipper's engaging in a transaction on the Shipper Imbalance Exchange in reliance upon any misstatement of that Shipper's imbalance amount. All transactions on the Shipper Imbalance Exchange are final.

DATE:_____ Name of Shipper:_____

(end of form)

14.13 Balancing at Contract Termination.

Following the termination of the transportation contract, Shipper shall be required to correct any remaining excess or deficiency in receipts and deliveries within thirty (30) days after the determination by Transporter that an excess or deficiency exists, or within such longer period of time mutually agreed upon by Shipper and Transporter.

If after such balancing period, Transporter determines that Shipper received transportation quantities in excess of the quantities delivered to Transporter at the receipt point(s) for Shipper's account, Transporter shall charge Shipper an amount equal to the excess transportation quantities received by Shipper or its designee, multiplied by two (2) times Transporter's Negative Imbalance Cash-Out price, as defined in Section 14.10(a), effective for the month in which the 30 day period ends.

Superseding: Sub. Fifth Revised Sheet No. 205

GENERAL TERMS AND CONDITIONS

15. UNAUTHORIZED TENDERS AND RECEIPTS

15.1 Definition. Unauthorized tenders and receipts are amounts of gas delivered to Transporter or taken by Shipper from Transporter:

- (a) in the absence of a transportation service agreement and submission of a nomination pursuant to Section 13 (in the case of a Shipper), or an interconnection agreement (in the case of an Operator), applicable to the receipt or delivery point in question,
- (b) following an interruption of service by Transporter pursuant to Section 2.2 of the FT, EFT, FST, IT, FSS, ESS, ISS, IAS, P-1, W-1, IR-1, P-2 or IR-2 Rate Schedules,
- (c) in violation of an operational flow order issued by Transporter to Shipper pursuant to Section 2.10 of the EFT Rate Schedule,
- (d) following a curtailment or termination of service pursuant to Section 5.4 of these General Terms and Conditions,
- (e) following a discontinuance or curtailment of service pursuant to Section 16 of these General Terms and Conditions,
- (f) following a notification to Shipper or Operator requiring an adjustment of receipts and deliveries pursuant to Section 14.6 hereof, or
- (g) following a discontinuance, curtailment or termination of service authorized by any other provision of this tariff or agreement executed thereunder.

In addition, a Shipper's failure to return quantities of gas advanced to it by Transporter pursuant to Section 2.11 of the EFT Rate Schedule, Section 2.3 of the IAS Rate Schedule, or Section 2.3 of the IR-1 or IR-2 Rate Schedule when required by Transporter shall constitute an unauthorized receipt of such

quantities. Transporter will provide its Shippers with reasonable notice of any interruption, discontinuance, curtailment or termination of service or of any operational flow orders and Shipper shall be permitted twenty-four (24) hours, or such lesser time as is required to (protect the integrity of Transporter's system, to reduce its tenders or receipts in compliance with such notice.)

15.2 Disposition of Unauthorized Tenders and Receipts

Transporter shall retain any unauthorized tenders at no cost and free and clear of any adverse claims of any party. Unauthorized receipts by a Shipper shall be assigned to the service agreements between Transporter and Shipper and shall be treated as a monthly imbalance for purposes of Section 14 hereof until such imbalance is cleared or until a charge is assessed pursuant to Section 15.3 hereof. If there are no service agreements between Transporter and the operator of the delivery point(s) at which the unauthorized receipts occurred, Transporter shall sell the unauthorized receipts to the operator at a price equal to the Index (as defined in Section 14.10(a) hereof), for the month in which the unauthorized receipts were taken.

15.3 Charges Associated with Unauthorized Tenders and Receipts

All unauthorized tenders or receipts shall be subject to the assessment of a charge equal to \$25 per dth or two (2) times Transporter's Negative Imbalance Cash-Out Price, as defined in Section 14.10(a), whichever is greater. Such charges shall not be assessed:

- (a) if Shipper (or Operator, as the case may be) adjusts its tenders or receipts within the time period applicable to Transporter notice;
- (b) if the unauthorized tenders or receipts occurred at an inter-connection where Transporter has complete and unrestricted control of gas deliveries.

Superseding: First Revised Sheet No. 206

GENERAL TERMS AND CONDITIONS

15. UNAUTHORIZED TENDERS AND RECEIPTS (Continued)

15.4 Indemnification and Waiver

Shipper shall indemnify Transporter against, hold it harmless from, and undertake and defense of Transporter with respect to any and all claims, losses, damages, expenses and injuries arising from an unauthorized tender or receipt by Shipper. Shipper waives any and all claims and demands against Transporter arising from an unauthorized tender or receipt by another Shipper, other than claims based on a Shipper's loss of gas supply due to Transporter's negligence or willful misconduct.

16. CURTAILMENT

Following the scheduling of services, Transporter shall have the right to curtail services on a system-wide basis or segment-by-segment basis (i) as a result of conditions of force majeure, as described at Section 8.1 of these General Terms and Conditions, (ii) when necessary, in Transporter's reasonable judgment, to avert a material threat to the integrity of its system or to remedy an unexpected loss of capacity, or (iii) when continuation of service would impair Transporter's ability to render a service of a higher priority, as set forth in this Section 16. The allocation procedures and priorities set forth in this Section 16 shall apply to both system-wide and segment-by-segment limitations or curtailments, insofar as is possible.

Transporter will allocate capacity in the manner set forth in this Section 16 only to the extent it is reasonably practical to do so.

It is recognized that the allocation of Transporter's capacity may be affected by the capabilities of Transporter's measurement, control and communication equipment, as it exists from time to time, the operational requirements of Transporter or by factors beyond the control of Transporter, including but not limited to variations in the requirements or markets served by Transporter.

In the event of a curtailment of service under this provision, Transporter shall provide such notice as is reasonable under the circumstances.

17. ADJUSTMENTS, SURCHARGES, AND NEGOTIATED RATES

17.1 Adjustments and Surcharges. Transporter and Shipper recognize that Transporter shall, from time to time, experience changes in costs related to providing service under this FERC Gas Tariff, including, but not limited to, changes in the cost of labor, benefits, materials and supplies, taxes, and required rate of return, costs associated with the resolution of past disputes or outstanding uncertainties concerning amounts owed by Transporter or attributable to Transporter, and costs generated by decisions by the Commission, the courts, or by an arbitration panel or other body having jurisdiction over Transporter. It may be appropriate, equitable, and consistent with cost responsibility to allocate such costs among Shippers based on taking into account past period factors, such as contract demand levels, purchases, or other factors related to a prior period of time. Shipper agrees that Transporter shall have the right, from time to time, to make rate change filings based in whole or in part on factors related to past periods. Shipper shall have the right to intervene and protest any such filings.

17.2 Negotiated Rates. Notwithstanding anything to the contrary contained in this Tariff, Transporter may charge a negotiated rate for service under any rate schedule contained in this Tariff to any shipper that has access to service at the rates set forth in the applicable rate schedule and agrees to pay such negotiated rate.

A Negotiated Rate shall mean a rate for service, where one or more of the individual rate components exceed the maximum charge, or are less than the minimum charge, for such components.

With respect to a Negotiated Rate which, when calculated on a 100% load factor basis, exceeds Transporter's maximum rate for that service, for the purposes of allocation of capacity pursuant to Sections 13, 16, and 26 of these General Terms and Conditions, a Shipper paying said Negotiated Rate would be considered to have paid the maximum rate for such services.

Effective Date: 07/29/1994 Status: Effective

FERC Docket: RP91- 47-009

Sub. First Revised Sheet No. 213 Sub. First Revised Sheet No. 213 : Superseded
Superseding: First Revised Sheet No. 213

GENERAL TERMS AND CONDITIONS

19. ANNUAL CHARGES ADJUSTMENT CLAUSE (Cont'd.)

19.4 Intent. Seller intends to fund the Annual Charges assessed against it by the Commission or any successor agency pursuant to 18 CFR Section 154.38(d) (6) through this Section 19. If this Section 19 is approved by the Commission, Seller does not intend to recover such Annual Charges recorded in FERC Account No. 928 through a general rate case filing under Section 4 of the Natural Gas Act.

20. PASS-THROUGH OF FIXED TAKE-OR-PAY SURCHARGE

20.1 Purpose. This Section establishes the procedures under which Seller will recover from Buyers who formerly received service under Seller's former RQ and CD rate schedules, the total take-or-pay charges approved by the Federal Energy Regulatory Commission ("Commission") and billed to Seller on a fixed basis by its pipeline suppliers and pipeline transporters ("upstream pipelines"). Such charges by Seller shall be paid by each such Buyer (hereinafter "Shipper") until Seller has recovered from such Shipper the total allocated amounts, principal and carrying charges, to be recovered from Shipper pursuant to this Section 20.

20.2 Procedures. This Subsection 20.2 establishes the procedures under which Seller will recover from Shippers, through a fixed Surcharge under Seller's firm transportation rate schedules, the total take-or-pay charges approved by the Commission to be billed to Seller by its upstream pipelines. Each Shipper's share of the fixed take-or-pay charges billed to Seller by its upstream pipelines shall be separately calculated for each increment of upstream pipeline take-or-pay permitted by the Commission to be collected from Seller.

(a) Basis of the Surcharge. Each Shipper's share of the fixed take-or-pay charges collected from Seller by its upstream pipelines subject to Order No. 528, shall be determined according to allocation factors set forth in Section 20.2(b) (1), (4), and (5) below. Each Shipper's share of the fixed take-or-pay charges collected from Seller by its upstream pipelines exempt from Order No. 528 shall be calculated upon the purchase deficiency methodology.

the effective date of this Revised Section 20, shall be made in the computation of each customer's Monthly Surcharge Amount to reflect the impact of Seller's allocation mechanism under this Revised Section 20 on Shippers' share of Seller's take-or-pay costs, allocated under Original Section 20 of Seller's General Terms and Conditions to its FERC Gas Tariff, First Revised Volume No. 1. This one-time adjustment will cause a credit or debit in the computation of Shippers' Monthly Surcharge Amount to reflect over- or under-recoveries, respectively.

- (f) Additional Adjustment. An additional adjustment shall be made in the computation of each customer's Monthly Surcharge Amount to reflect the impact of the Commission order issued May 4, 1994, at Docket Nos. RP91-47-000, et al. on Seller's allocation mechanism for determining Shippers' share of Seller's take-or-pay cost. This adjustment will cause a credit or debit in the computation of Shippers' Monthly surcharge Amount to reflect over- or under-recoveries, respectively.

- 20.3 Payment by Shipper. The amount of each Shipper's share of take-or-pay charges attributable to the take-or-pay provisions of the Section 20 shall be billed to each Shipper on its monthly invoice for Seller's firm services provided Shipper, and shall be due and payable in accordance with Section 5.2 of Seller's General Terms and Conditions to its FERC Gas Tariff. If the payment date shall be other than as set forth in Section 5.2 of Seller's General Terms and Conditions to its FERC Gas Tariff, Seller shall promptly notify Shipper of the revised payment due date.

Any payment required from Shipper and not received by Seller on or before the due date shall bear interest in accordance with Section 5.4 of Seller's General Terms and Conditions to its FERC Gas Tariff.

Shippers, whose service agreement(s) with Seller expire on or after December 1, 1990, and whom receive Commission authority to abandon service from Seller at any time on or after December 1, 1990, shall be directly billed for Shipper's full unpaid share of take-or-pay charges attributable to take-or-pay charges approved by the Commission and billed to Seller by its upstream pipelines, together with carrying charges thereon through the date of the final Commission order authorizing such abandonment, regardless of the effective date of the

Superseding: 2nd Sub. Original Sheet No. 216B

GENERAL TERMS AND CONDITIONS

20. PASS-THROUGH OF FIXED TAKE-OR-PAY SURCHARGE (cont'd)

The Additional Adjustment shall be made by Seller as to each of the individual pipeline take-or-pay proceedings after the Commission issues a final, non-appealable order approving each of the upstream pipeline's take-or-pay allocation methodology. Additional Adjustments will be computed in each of Seller's compliance filings to flowthrough its upstream pipeline's take-or-pay charges, which compliance filings shall be tendered within 30 days of final, non-appealable orders by the Commission approving each individual upstream pipeline's take-or-pay allocation method.

Billing adjustments to reflect any Additional Adjustment will be made to customer's invoices by Seller, including payment of refunds of overpayments, within sixty (60) days after the Commission issues a final, non-appealable order approving Seller's compliance filing to flowthrough the corresponding take-or-pay charges. Such billing adjustments shall include interest payments or charges at the Commission-approved interest rate calculated from the date the payment was received, or if Buyer did not pay, the date payment should have been received, through the date of such billing adjustment.

- (g) True Up. Within sixty (60) days of the last take-or-pay payments made by customers related to Seller's individual filings to flowthrough its upstream pipeline's take-or-pay charges after the Commission's approval of each individual upstream pipeline's take-or-pay allocation methodology by a final, non-appealable order, Seller will submit to the Commission for approval and to the parties a final report and any further adjustments, if necessary, to insure that the amount billed or flowed through to each of its customers is the amount the customer owed or was due. Any such further adjustments shall include interest at the Commission-approved rate through the date of such adjustment.

* These amounts include both principal and interest to be collected by Tennessee over the twelve month recovery period initiated by the December 1, 1993 Tennessee filing.

21. TRANSITION COSTS

Pursuant to Order Nos. 636 et seq., issued by the Commission, Transporter is authorized to recover Transition Costs from its Buyers as set forth in this Section. This Section shall be applicable until such time as Transporter has recovered all of its Transition Costs.

21.1 Costs Associated with Account Nos. 858, 191 and 186

- (a) Reports. On or before May 1, 1994, Transporter shall file with the Commission and mail to each of its affected Buyers and interested state commissions, a report setting forth the final balances (as of April 30, 1994) of Account Nos. 858 and 191 and the transportation and compression costs in Account No. 186, after all adjustments and the amounts already collected or disbursed as of that point in time if the recovery and/or refund of the accounts has already commenced pursuant to a Commission order. Also, Transporter shall file a report with the Commission setting forth the amounts under Account Nos. 191 and 858, as well as the transportation and compression costs in Account No. 186, finally billed or refunded.

Effective Date: 08/18/1994 Status: Effective

GENERAL TERMS AND CONDITIONS

21. TRANSITION COSTS (Cont'd.)

affected firm Buyers and interested state commissions a revised tariff sheet or sheets showing such charge and a statement showing the basis therefor.

- (d) Effective Period of Flow Through. Transporter shall continue to flow through the charges under this section for the full period required to recover the total Transition Costs that Transporter is required to pay such upstream pipelines.

21.6 Exit Fee

- (a) If Transporter and a firm Buyer agree upon a reduction or termination of that Buyer's service, such Buyer shall pay Transporter a negotiated exit fee including charges for Account Nos. 191, 858, and the transportation and Compression costs in Account No. 186, GSR Costs, Stranded Costs, Implementation Costs and Upstream Supplier Transition Costs, plus any associated carrying charges assigned or allocated to and otherwise payable by the Buyer, absent the termination. In addition, Transporter will collect all or a portion of the capacity reservation charge otherwise recoverable by Transporter from the Buyer for the balance of the contractual term, absent early termination.

22. STANDARDS OF CONDUCT IN SALES AND TRANSPORTING GAS FOR OTHERS

This Section 22 is required by 18 CFR 250.16 because:

- (a) Transporter engages in transportation transactions with its affiliated marketing entity: National Fuel Resources, Inc. ("NFR"); and
- (b) Transporter engages in transportation transactions with an entity which may be or may become affiliated with Transporter: Hub Services, Inc. d/b/a Ellisburg-Leidy Hub Company ("Hub").
- (c) Transporter engages in sales transactions with its affiliate NFR from time-to-time.

For convenience, and without acknowledging that Hub is actually affiliated with Transporter, NFR and Hub are collectively referred to herein as "marketing affiliates".

GENERAL TERMS AND CONDITIONS

22. STANDARDS OF CONDUCT IN SALES AND TRANSPORTING GAS FOR OTHERS

22.1 Shared Operating Personnel and Facilities

- (a) Transporter shares no officers or operating personnel with any marketing affiliate; except that Transporter's sales operating unit will share the services of Mr. Chuck Hunt, an employee of NFR, from time-to-time to make sales of gas.
- (b) Transporter and Hub share no facilities or support services of any kind. Hub and Transporter may execute a contract whereby Transporter would provide technical electronic bulletin board services to Hub, for a price which assures that Transporter's other Shippers do not subsidize Hub's electronic bulletin board. Hub's only office is in Pittsburgh, Pennsylvania, where Transporter has no offices.
- (c) NFR's only office is in Buffalo, New York, on a separate floor of a building in which some of Transporter's offices are located. Transporter and NFR share some support services including accounting and human resources.
- (d) No marketing affiliate has access to any computer system of Transporter (other than as a subscriber to Transporter's electronic bulletin board to the same extent as any other such subscriber). Transporter's employees have been instructed that they should not, except in compliance with the Commission's Regulations, share with any marketing affiliate (i) any information related to the sales or transportation of natural gas, (ii) any information which Transporter received in the course of providing sales or transportation services, or (iii) any information which Transporter received from any shipper or potential shipper in connection with a request for sales or transportation services.

22.4 Information for Shippers and Potential Shippers

Affiliated and nonaffiliated shippers and potential shippers may receive some information on the availability and pricing of Transporter's transportation or sales service, and the capacity of Transporter's pipelines available for transportation, by accessing Transporter's electronic bulletin board by computer. The electronic bulletin board will be operated by a contractor as described in Section 9 hereof. To set up a user account, interested parties should contact the Gas Supply Department at (716) 857-7654.

Affiliated and nonaffiliated shippers and potential shippers may receive additional information on the availability and pricing of Transporter's transportation or sales service, and the capacity of Transporter's pipelines available for transportation, by calling Transporter's Manager of Contract Administration at (716) 857-7233. Any such information, or any other information on gas sales, gas marketing or gas transportation, which Transporter provides to any marketing affiliate will be available on Transporter's electronic bulletin board, accessible as described above, for 30 days.

23. Transportation and Storage Cost Adjustments ("TSCA")

The rates and charges applicable to Rate Schedule EFT are subject to adjustment, in Seller's first quarterly filing made pursuant to this Section 23 herein following August 1, 1993 and in each quarterly and annual filing thereafter, to reflect changes in Transportation Costs. "Transportation Costs" are costs incurred by Seller after July 31, 1993, for the transmission, storage and compression of gas by others included in Account Nos. 858 and 826, excluding costs associated with providing service under Rate Schedules V-1, V-2, and X-58, and costs subject to direct passthrough pursuant to Section 12 of these General Terms and Conditions.

23.1 Filing of Transportation and Storage Cost Adjustment

The effective Transportation and Storage Cost Adjustment ("TSCA") under Rate Schedule EFT shall be shown on Seller's Tariff Sheet No. 5. Seller shall file its TSCA quarterly and its filing shall include computations showing the derivation of the TSCA.

Sub. Third Revised Sheet No. 236 Sub. Third Revised Sheet No. 236 : Superseded
Superseding: Sub. Second Revised Sheet No. 236

GENERAL TERMS AND CONDITIONS

23. Transportation and Storage Cost Adjustments ("TSCA") (Cont'd.)

23.6 Termination Provision

At such time as the provisions of this Section are terminated,
(i) any net credit balance in the Account No. 186 subaccount,
Unrecovered Transportation and Storage Cost, shall be refunded to
Buyers, or (ii) any net debit balance shall be due and payable by
Buyers.

Such refunds or payments shall be made by either debiting or
crediting a deferred account or by immediate cash refunds/direct
billing payments as may be directed by the Commission, or, in the
absence of direction from the Commission, cash refunds/direct
billing payments.

24. Revenue Flow Back

24.1 General

Transporter shall flow back the net revenues it receives from
its:

- (a) W-1 and IT services to its EFT, FT, SS-1 and SS-2 customers;
and
- (b) ISS, IAS, P-1 and IR-1, P-2 and IR-2 services to its ESS,
FSS, SS-1 and SS-2 customers.

24.2 Definition of Net Revenues

Net revenues are the annual revenues actually received by
Transporter for P-1, W-1, IR-1, P-2 and IR-2, IT, ISS and IAS
services, less:

- (a) any GSR recoveries as provided for under Section 21.3 (b) of
this tariff as well as GRI and ACA costs included in those
services ("base revenues"); less,
- (b) for IT service, 100 percent of the base revenues when they
are not greater than the product of 1.8 MMDth and the ap-
proved rate for IT service ("IT revenue credit"); or 10
percent of the base revenues to the extent they are greater
than the IT revenue credit; less,
- (c) for P-1, W-1 and IR-1, P-2 and IR-2 services, 10 percent of
the base revenues; less,
- (d) for ISS and IAS services, the variable costs of providing
such service.

FERC Docket: RP97-201-000

Sixth Revised Sheet No. 237 Sixth Revised Sheet No. 237 : Superseded

Superseding: 3rd Sub. Fifth Revised Sheet No. 237

GENERAL TERMS AND CONDITIONS

24. Revenue Flow Back (Cont'd)

24.3 Allocation of Net Revenues

- (a) Net revenues from W-1 and W-2 services shall be allocated to EFT, FST, and FT Customers in proportion to the Contract Maximum Daily Transportation Quantity of each customer.
- (b) Net revenues from P-1, IR-1, P-2 and IR-2 services, shall be allocated to all ESS, and FSS customers in proportion to the Maximum Storage Quantity of each customer.

24.4 Timing

Flow backs will be made quarterly. The first flow back will cover the first three calendar months and any partial months after the effective date of this tariff section.

24.5 Billing Adjustments

Flow backs will be made as credits to the EFT, FST, FT, ESS, and FSS customers' statements for the first month following the quarterly flow back period.

GENERAL TERMS AND CONDITIONS

26. PROCEDURES FOR ALLOCATING FIRM CAPACITY (cont'd)

(b) Rate bid.

In the event Transporter receives two or more bids of equal value, then under method (a) the best bid shall be the bid with the shortest term and under method (b) the best bid shall be the bid with the longest term.

- 26.3 In processing requests for service received within the posting period, Transporter shall allocate capacity among shippers according to the present values (where method (a) is employed) or rates (where method (b) is employed) of the bids received. A ratable allocation, based on the quantities requested, shall be made among shippers that submit bids that are equal with respect to both value and term.
- 26.4 Transporter's posting shall also specify the number of days within which shippers must execute and return service agreements or precedent agreements once Transporter has allocated available capacity in accordance with Section 26.3. If a Shipper fails to execute and return the agreement tendered by Transporter within such specified period, the capacity allocated to that Shipper will be reallocated among the remaining shippers requesting the posted capacity during the posting period, in accordance with Section 26.3.
- 26.5 If some or all of the posted capacity remains available following the posting period, Transporter may, in its discretion, establish additional posting periods. Requests for firm service that are received by Transporter outside of an established posting period shall be processed on a first-come, first-served basis in accordance with the applicable rate schedule, subject to Section 26.6.
- 26.6 If Transporter receives a request for firm service (other than a backhaul service) that requires capacity that exists on Transporter's system, but has not been disclosed to shippers pursuant to Section 9 of these General Terms and Conditions, Transporter shall solicit service requests for such capacity, and shall allocate such capacity in accordance with this Section 26. In such case, the request for capacity that had not been disclosed shall be considered to have been received in response to the posting and during the posting period.

GENERAL TERMS AND CONDITIONS

27. ORDER OF DISCOUNTS

If and when Transporter discounts the rates applicable for service under any Service Agreement under Rate Schedules included in this Tariff, the amount of any such discount shall be accounted for as a reduction of maximum rates in the following sequence to the extent any of the following components are included in the maximum rate:

- (a) GRI Surcharge
- (b) Niagara Zone 1 Secondary Point Surcharge
- (c) X-58 Conversion Surcharge
- (d) the base rate

Effective Date: 12/31/1996 Status: Effective

Original Sheet No. 237.16 Original Sheet No. 237.16 : Superseded

GENERAL TERMS AND CONDITIONS

28. POLICY WITH RESPECT TO FEES AND CONSTRUCTION OF NEW FACILITIES

- 28.1 Except as provided in Section 28.2 herein, Shipper shall reimburse Transporter (a) for the costs of any facilities installed by Transporter with Shipper's consent to receive, measure, transport or deliver natural gas for Shipper's account and (b) for any and all filings and approval fees required in connection with Shipper's Service Agreement that Transporter is obligated to pay to the Commission or any other governmental authority having jurisdiction. Any reimbursement due Transporter by Shipper pursuant to this Section 28.1 shall be due and payable to Transporter within ten (10) days of receipt by Shipper of Transporter's bill(s) for same; provided, however, subject to Transporter's consent such reimbursement, plus carrying charges thereon, may be amortized over a mutually agreeable period not to extend beyond the primary contract term of the service agreement between Transporter and Shipper. Carrying charges shall be computed utilizing interest factors acceptable to both Transporter and Shipper.
- 28.2 Transporter may waive from time to time, at its discretion, all or a portion of the facility cost reimbursement requirement set forth in Section 28.1 if Shipper provides Transporter adequate assurances of transportation throughput to make construction of the facilities economical to Transporter. All requests for waiver shall be handled by Transporter in a manner which is not unduly discriminatory. For purposes of determining whether a project is economical, Transporter will evaluate projects on the basis of various economic criteria, which will include the estimated transportation throughput, cost of the facilities, operating and maintenance as well as administrative and general expenses attributable to the facilities, the revenues Transporter estimates will be generated as a result of such construction, and the availability of capital funds on terms and conditions acceptable to Transporter. In estimating the revenues to be generated, Transporter will evaluate the existence of capacity limitations downstream of the facilities, the marketability of the capacity, the location of the markets, the interruptible versus the firm nature of the transportation service, and other similar factors which impact whether the available deliverability will actually be transported.

GENERAL TERMS AND CONDITIONS

31. QUALIFICATION FOR SERVICE

31.1 Shippers requesting new or additional service under any rate schedule must provide the information required by this Subsection 31.1 and on Transporter's "Service Request Form" (available on Transporter's EBB). No service will be scheduled for receipt and delivery until a completed "Service Request Form" with respect to such service has been provided to Transporter. A "Service Request Form" shall be tendered no earlier than ninety days prior to the proposed commencement date of service, unless the construction of new facilities is required, unless the request is for capacity that will not be available until the proposed commencement date or unless the request is for capacity posted by Transporter pursuant to Section 26 of the General Terms and Conditions of this tariff. All completed "Service Request Forms" not filed through Transporter's EBB are to be sent to:

National Fuel Gas Supply Corporation
Marketing Department - Room 1400
10 Lafayette Square
Buffalo, New York 14203

Any modification of an existing service shall be requested by Shipper's submission of a new "Service Request Form" with a notation on the Form that the service requested is a modification of an existing service.

Any request shall include the following:

- (a) Receipt/Delivery Points: The requested receipt and delivery points as set forth in the applicable rate schedule,
- (b) Quantities: The requested quantities, as set forth in the applicable rate schedule.
- (c) Term: The proposed commencement date and term of service.

GENERAL TERMS AND CONDITIONS

31. QUALIFICATION FOR SERVICE (Cont'd)

- (d) Shipper Certification: A statement by the Shipper certifying that all necessary upstream and downstream arrangements will be in place on the date the transportation service is to commence, that Shipper will have good title or the good right to deliver the gas to be delivered to Transporter, and if the transportation service is to be provided pursuant to Section 311(a) of the Natural Gas Policy Act (NGPA), certification including sufficient information to verify that Shipper's transportation service qualifies under Section 311(a) of the NGPA. Such certification shall include a statement by the intrastate pipeline or local distribution company on whose behalf such transportation service is to be performed that:
 - (i) The intrastate pipeline or local distribution company has physical custody of and transports the natural gas at some point; or
 - (ii) The intrastate pipeline or local distribution company holds title to the natural gas at some point, which may occur prior to, during, or after the time that the gas is being transported by the interstate pipeline, for a purpose related to its status and function as an intrastate pipeline or a local distribution company; or
 - (iii) The gas is delivered at some point to a customer that either is located in a local distribution company's service area or is physically able to receive direct deliveries of gas from an intrastate pipeline, and that local distribution company or intrastate pipeline certifies that it is on its behalf that the interstate pipeline is providing transportation service.
- (e) Facilities: Identification and location of any facilities proposed to be constructed or installed by any party affected by the proposed transportation service, including, but not limited to, equipment sufficient to provide Transporter with real time measurement, communication and control capability.

(f) Credit Evaluation:

- (i) a copy of Shipper's most recent audited financial statement and most recent financial statement, audited or unaudited;
- (ii) a copy of Shipper's most recent twelve-month audited financial statement or Annual Report and, if applicable, 10-K form;
- (iii) a list of Shipper's affiliates, including parent and subsidiaries, if applicable.

In the event Shipper cannot provide the information in Subsection 31.1(f)(i) and/or (ii) above, Shipper shall, if applicable, provide that information for its parent company.

- 31.2 (a) Transporter shall not be required to perform or to continue service on behalf of any Shipper who is or has become insolvent or who, at Transporter's request, fails within a reasonable period to demonstrate credit worthiness; provided, however, such Shipper may receive service

- (i) if Shipper prepays for such service or furnishes good and sufficient security, as determined by Transporter in its reasonable discretion, in an amount equal to:
 - (A) for service under the IAS, IR-1 and IR-2 Rate Schedules, the highest Negative Imbalance Cash-Out price (set forth at Section 14.10(a) of these General Terms and Conditions) occurring during the twelve (12) month period preceding the date service is requested times the quantity of advanced gas requested, or

(B) for all other services, the cost of performing the service requested by Shipper for a three-month period; or

(ii) if it prepays for service or furnishes an irrevocable letter of credit pursuant to Section 31.2(c) hereof.

For purposes herein, the insolvency of a Shipper shall be evidenced by the filing by Shipper or any parent entity thereof (hereinafter collectively referred to as "the Shipper") of a voluntary petition in bankruptcy or the entry of a decree or order by a court having jurisdiction in the premises adjudging the Shipper bankrupt or insolvent, or approving, as properly filed, a petition seeking re-organization, arrangement, adjustment or composition of or in respect of the Shipper under the Federal Bankruptcy Act or any other applicable federal or state law, or appointing a receiver, liquidator, assignee, trustee, sequestrator (or other similar official) of the Shipper or of any substantial part of its property, or the ordering of the winding-up or liquidation of its affairs, with said order or decree continuing unstayed and in effect for a period of sixty (60) consecutive days.

(b) For purposes of Section 31.2(a), a Shipper's credit worthiness shall not have been demonstrated if (i) the Shipper has a poor credit history, as established by a reliable reporting agency, or with respect to any services provided by Seller, or (ii) the Shipper's net worth, or its unencumbered assets in each state in which Seller operates, is worth less than the amount applicable under Section 31.2(a)(i). Transporter may, from time to time, limit the service it provides to Shipper to such level as is commensurate with the prepayment or other security provided as set forth above, or as is necessary to ensure that neither Shipper's net worth, nor its unencumbered assets in the states in which Seller operates is less than the amount applicable under Section 31.2(a)(i).

FERC Docket: RP97-201-000

Original Sheet No. 237.23 Original Sheet No. 237.23 : Superseded

GENERAL TERMS AND CONDITIONS

31. QUALIFICATION FOR SERVICE (Cont'd.)

- (c) Shipper may receive service if it provides, no later than noon, ET, on the business day prior to the day on which nominations for the desired service are due, to Transporter the Specified Amounts, as defined below, either in the form of (i) a prepayment to a bank designated by Transporter in U.S. Federal funds or (ii) a letter of credit, irrevocable for ninety (90) days, from a financial institution acceptable to Transporter. Transporter shall accept a nomination from Shippers qualifying for service under this Section 31.2(c) only to the extent that the prepayment or letter of credit in effect as of such time is sufficient to cover such Specified Amount.

For Shippers requesting service under the IAS, IR-1 and IR-2 Rate Schedules, the Specified Amount shall be the sum of the amount projected to become payable to Transporter based on Shipper's request and the amount equal to the highest Negative Cash-Out Price (set forth at Section 14.10(a) of these General Terms and Conditions) occurring during the twelve (12) month period preceding the date service is requested times the quantity of advanced gas requested. For Shippers requesting service under other rate schedules, the Specified Amount shall be the amount projected to become payable to Transporter based on the Shipper's nominated deliveries for the month.

- 31.3 (a) Upon Transporter's determination that Shipper's request for service is complete, Transporter will enter such request on a list of pending complete requests and so notify Shipper. Subject to Sections 10, 11 and 26 of these General Terms and Conditions, Transporter will evaluate its ability to satisfy complete requests for transportation in their order of entry on such list. Transporter shall process requests for service within a reasonable period of time. If Transporter rejects a request for service which has been entered on Transporter's list of pending complete requests, Transporter will so notify Shipper within ten (10) days of such rejection. In such event, Shipper's request for service will not remain entered

Effective Date: 04/01/1997 Status: Effective

Original Sheet No. 237.24 Original Sheet No. 237.24 : Superseded

GENERAL TERMS AND CONDITIONS

31. QUALIFICATION FOR SERVICE (Cont'd.)

on such list unless Shipper notifies Transporter, within thirty (30) days of Transporter's notification of rejection, that its request should remain so entered.

Upon receipt of such written notification by Shipper, Shipper's request will remain entered for an additional six (6) months, and for additional six (6) month periods thereafter provided that Shipper notifies Transporter in writing, prior to the conclusion of a six (6) month period, that it requests an extension.

- (b) A Service Agreement (or, when tendered by Transporter in response to a request for firm service that requires the construction of facilities, a precedent agreement) shall be executed by Shipper and Transporter following Transporter's acceptance in writing of Shipper's request for service. Subject to Section 26 of the General Terms and Conditions of this tariff, in the event the Service Agreement or precedent agreement is not executed by Shipper and returned within thirty days after Transporter tendered the contract, Transporter shall consider the request for service invalid.

8. Intended use of gas is:

- ☐ system supply
☐ end use by industry or commerce
☐ other (fill in) _____

9. Who will own the gas while on National's system?

- ☐ Shipper
☐ Other (fill in) Name: _____
Address: _____
Contact: _____
Telephone: _____

National reserves the right to require proof that an agency agreement exists between the Shipper and the actual owner of the gas while it is on National's system

10. Sources of gas: _____

(Use state abbreviations)

11. Location(s) of consumption: _____

(Use state abbreviations)

12. Date service is proposed to commence: _____

13. Term of service: ____ years ____ months (maximum 20 years)

14. Are additional or new facilities required to receive or deliver gas for the transportation service requested herein?
☐ no ☐ yes. If yes describe: _____

15. The maximum daily quantity to be transported or wheeled is _____ Dth.

The maximum daily quantity to be injected into storage or parked is _____ Dth.

The maximum daily quantity to be withdrawn from storage is _____ Dth.

The maximum storage quantity requested is _____ Dth.

The maximum advance quantity is _____ Dth.

(FILL IN WHICHEVER ARE APPLICABLE)

Effective Date: 06/01/1995 Status: Effective

FERC Docket: RP95-286-000

Second Revised Sheet No. 255 Second Revised Sheet No. 255 : Superseded
Superseding: First Revised Sheet No. 255

SERVICE REQUEST FORM - PAGE 3

16. Name and description of receipt point(s) into National's system and the maximum daily quantity expressed in Dth of gas to be delivered by Customer for each point.

(For IT Service, blanket receipt points are granted, simply enter "SEE EXHIBIT I". For W-1, P-1 and IR-1 Service all the "Hub Points" are granted; simply enter "Hub Points". For FT and EFT Service, primary points and related quantities must be described in full.)

17. Name and description of delivery point(s) where National will redeliver the gas and the maximum daily quantity expressed in Dth of gas to be redelivered by National Customer for each point.

(For IT Service, blanket delivery points are granted, simply enter "SEE EXHIBIT I". For W-1, P-1 and IR-1 Service all the "Hub Points" are granted; simply enter "Hub Points". For FT and EFT Service, primary points and related quantities must be described in full.)

Effective Date: 06/01/1995 Status: Effective
FERC Docket: RP95-286-000

First Revised Sheet No. 256 First Revised Sheet No. 256 : Superseded
Superseding: Original Sheet No. 256

SERVICE REQUEST FORM - PAGE 4

18. CREDIT EVALUATION: Shipper has provided National with a copy of its most recent audited financial statement, annual report, and form 10K, and a complete list of affiliates including parent and subsidiary companies.

___ YES ___ NO

If No OR if above financial statement does not meet National's credit worthiness standards, Shipper agrees to provide an alternative demonstration of credit worthiness.

For FT, FSS, and incremental EFT and ESS service only, a prepayment is required in an amount equal to the lesser of \$10,000 or the total Reservation Charge applicable to the proposed service for a two-month period, but in no event less than \$5,000.

Shipper understands that this request form, complete and unrevised as to format, must be received by National before the request will be "logged in". Shipper hereby agrees to pay National's currently effective rate applicable to this service. Shipper understands that National will not file for FERC authorization to perform service on Shipper's behalf until it receives the required filing fee from Shipper.

Very truly yours,

(Shipper)

ARTICLE II (Cont'd.)

The Storage Demand Charge and the Storage Capacity Charge provided in the aforesaid rate schedule shall commence _____.

ARTICLE III

Term of Agreement

This Agreement shall be effective _____ and shall remain in force and effect until _____.

The Injection Period shall be from _____ to _____ and the withdrawal period shall be from _____ to _____. The injection and storage periods shall constitute the Storage Year.

ARTICLE IV

Receipt and Delivery Points

The Point(s) of Delivery for all natural gas received by Seller from Buyer and for gas delivered by Seller to Buyer under this Agreement shall be _____.

ARTICLE V

Pressure

Buyer shall deliver gas to Seller for injection into storage at pressures sufficient to allow Seller to receive gas at Seller's existing pipeline pressure at the point of delivery to Seller, but not more than _____ pounds per square inch gauge, and Seller will deliver gas withdrawn from storage to Buyer at the pressures existing in Seller's pipeline at the point of delivery, but not more than _____ pounds per square inch gauge. Each of the parties hereto will use due care and diligence to maintain such uniform pressures at the point or points of delivery as may reasonably be required by the other, but neither party may be required to deliver gas to the other at greater pressures than those hereinbefore specified.

ARTICLE VI

Miscellaneous

1. No modification of the terms and provisions of this Agreement shall be or become effective except by the execution of written contracts.

2. No waiver by any party of any one or more defaults by the other in the performance of any provisions of this Agreement shall operate or be construed as a waiver of any other defaults whether of a like or of a different character.

3. Any company which shall succeed by purchase, merger or consolidation to the properties, substantially as an entirety, of Seller or of Buyer, as the case may be, shall be entitled to the rights and shall be subject to the obligations of its predecessor in title under this Agreement. Either party may, without relieving itself of its obligations under this Agreement, assign any of its rights hereunder to a company with which it is affiliated, but otherwise no assignment of this Agreement of any of the rights or obligations hereunder shall be made unless there first shall have been obtained the consent thereto in writing of the other party.

4. Except as herein otherwise provided, any notice, request, demand, statement, or bill provided for in this Agreement, or any notice which either party may desire to give to the other, shall be in writing and shall be considered as duly delivered when mailed by registered or certified mail to the Post Office address of the parties hereto, as the case may be, as follows:

Seller: National Fuel Gas Supply Corporation
10 Lafayette Square
Buffalo, New York 14203

Buyer:

or at such other address as either party shall designate by formal written notice. Routine communications, including monthly statements and payments, shall be considered as duly delivered when mailed by either registered certified, or ordinary mail.

(Cont'd)

ARTICLE VI (Cont'd.)

5. This Agreement and the respective obligations of the parties hereunder are subject to valid laws, orders, rules and regulations of duly constituted authorities having jurisdiction.

6. The subject headings of the articles of this Agreement are inserted for the purpose of convenient reference and are not intended to be a part of the Agreement nor considered in any interpretation of the same.

7. The interpretation and performance of this Agreement shall be in accordance with the laws of the Commonwealth of Pennsylvania.

8. As between the parties hereto, each party shall be deemed to be in control and possession of the gas deliverable hereunder until it shall have been delivered to the other party at the point of delivery, after which the other party shall be deemed to be in control and possession thereof. Neither party shall have any responsibility on account of anything which may be done, happen, or arise with respect to any gas deliverable by it hereunder to the other party after such delivery shall not have been made.

9. Each party agrees that it will and it hereby does warrant for itself, its successors and assigns, that it will at the time of delivery have good title to all gas delivered by it hereunder, free and clear of all liens, encumbrances and claims whatsoever, that it will at such time of delivery have good right and title to deliver said gas as aforesaid, and that it will indemnify the other and save it harmless from all suits, actions, debts, accounts, damages, costs, losses, and expenses arising from or out of adverse claims of any or all persons to said gas.

10. It is understood that this Agreement is subject to any and all other approvals or modifications, including termination, as the Federal Energy Regulatory Commission, or any other regulatory body having lawful jurisdiction in this matter, may require.

11. Should the Federal Energy Regulatory Commission, or any other regulatory body having jurisdiction, ever deny the recovery of any costs incurred by Seller with respect to this sale or allocate or assign more costs thereto than Seller can recover, then the Seller may, at its option, terminate this Agreement.

INTERCONNECTION AGREEMENT

MADE AND ENTERED INTO this _____ day of _____, _____, by
and between _____,
hereinafter, "Operator",

and

NATIONAL FUEL GAS SUPPLY CORPORATION, 10 Lafayette Square, Buffalo, New York,
14203, hereinafter, "Transporter."

WITNESSETH

WHEREAS, Transporter transports natural gas through its interstate
pipeline facilities pursuant to its FERC Gas Tariff; and

WHEREAS, by means of facilities operated by it, Operator proposes to
deliver natural gas into Transporter's facilities.

NOW, THEREFORE, in consideration of the premises and the mutual
covenants and agreements hereinafter contained, and intending to be bound
hereby, Transporter and Operator agree as follows:

ARTICLE I

DELIVERY OF GAS INTO TRANSPORTER'S FACILITIES

(A) Operator shall not deliver gas into any facility owned or
operated by Transporter other than at a Receipt Point identified on Exhibit
A at the time of such delivery (the "Exhibit A Receipt Point(s)"). No
Receipt Point or well shall be deemed to have been added to Exhibit A, and
Exhibit A shall not be deemed to have been otherwise amended or supplemented,
unless and until such amendment or supplement of Exhibit A shall be evidenced
by a writing executed by Operator and Transporter.

(B) Operator warrants and represents as follows:

(1) All gas delivered into Transporter's facilities at any
one Receipt Point shall be gas produced exclusively from one or
more of the wells (and only those wells) which are associated
with such Receipt Point on the copy of Exhibit A at the time of
such delivery.

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-000

Original Sheet No. 337 Original Sheet No. 337 : Superseded

INTERCONNECTION AGREEMENT

ARTICLE I
(Cont'd)

(2) No gas produced from any well or completion zone not previously tested by (or to the satisfaction of) Transporter shall be delivered into any facility owned or operated by Transporter.

(C) In the event that, in its sole judgment, Transporter has reason to believe that the composition of gas produced by any well associated with any Receipt Point identified in Exhibit A is no longer substantially similar to that disclosed in a previous test, Operator shall provide Transporter access to such well and the opportunity to test such gas, as Transporter deems appropriate and at Transporter's expense.

(D) Operator shall deliver gas at a pressure sufficient to enable such gas to enter Transporter's facilities against the pressure prevailing therein from time to time, provided, however, that Operator shall not deliver gas at any Receipt Point at a pressure in excess of the pressure designated by Transporter.

(E) Operator shall not install or operate (or permit any other entity to install or operate) compression facilities in order to deliver gas into any facility of Transporter (Transporter-Related Compression Operations) without the express prior written consent of Transporter, which consent shall not be unreasonably withheld.

(F) Operator warrants that all Transporter-Related Compression Operations shall be conducted in a manner (i) so as to prevent the pulsations therefrom from interfering with Transporter's measurement at any Receipt Point, and (ii) so that compressed gas will be delivered to Transporter at a temperature not exceeding one hundred twenty degrees Fahrenheit (120° F).

(G) Operator shall give Transporter written notice at least fourteen (14) days prior to the commencement of (and any material change in) authorized Transporter-Related Compression Operations.

(H) Operator shall give Transporter written notice at least twenty-four (24) hours prior to any material change in the maintenance routine applicable to any compressor used in Transporter-Related Compression Operations.

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-000

Original Sheet No. 338 Original Sheet No. 338 : Superseded

INTERCONNECTION AGREEMENT

ARTICLE I (Cont'd)

(I) In the event that the installation, operation and/or maintenance of any compressor used in Transporter-Related Compression Operations requires (in Transporter's reasonable judgment) modification(s) to any facility owned or operated by Transporter, the cost of such modification(s) shall be borne by Operator.

(J) Operator shall, at its own cost and expense, (i) obtain, provide Transporter with, and maintain any easement(s) or other land interest(s) which, in Transporter's judgment as to type and extent, are reasonably necessary for the installation, operation and maintenance of receipt and related facilities; and (ii) provide Transporter with a copy of the recorded instruments evidencing such land interests and Transporter's beneficial interest therein.

(K) Measurement and other equipment shall be installed, at Operator's expense, at each Exhibit A Receipt Point facility, which, in Transporter's reasonable judgment, may be necessary to accommodate the deliveries of gas received and projected to be received by it at the Receipt Points (the Receipt Facilities). The normal operation, calibration, maintenance, adjustment and repair of the Receipt Facilities shall be performed by Transporter at its initial expense, provided, however that Operator shall maintain and calibrate any of the Exhibit A Receipt Points which deliver less than three hundred (300) Dth per month. Modifications to Receipt Facilities resulting from changes in Operator's operations shall be performed at Operator's cost and expense.

(L) Operator shall, at its own cost and expense, provide, operate and maintain in safe and efficient operating condition such regulators, relief valves, and other equipment as may be necessary in Transporter's reasonable judgment to avoid excessive pressures (and the risk of such pressures) in facilities owned and operated by Transporter or its customers.

ARTICLE II

COMMUNICATIONS

(A) Operator (or its designee) shall respond promptly to requests for confirmations of shipper nominations. Operator acknowledges that Transporter is under no obligation to schedule unconfirmed nominations.

Effective Date: 04/01/1997 Status: Effective

FERC Docket: RP97-201-000

Original Sheet No. 339 Original Sheet No. 339 : Superseded

INTERCONNECTION AGREEMENT

ARTICLE II

(Cont'd)

(B) Operator shall, at its own cost and expense (i) change the charts on each orifice meter associated with the Exhibit A Receipt Points (the "Charts") on the first Business Day of each Month, (ii) mail the removed Charts to Transporter on or before the third (3rd) Business Day of each Month, (iii) change each Chart promptly upon the completion of the time period covered by the chart, and (iv) mail the removed Charts to Transporter within three (3) working days of each such chart change.

(C) Insofar as applicable, Operator shall, at its own cost and expense, read each displacement meter associated with any Exhibit A Receipt Point on the first (1st) Business Day of each Month and shall mail all such index information to Transporter on or before the third (3rd) Business Day of each Month.

(D) All charts and all index information shall be addressed to:

NATIONAL FUEL GAS SUPPLY CORPORATION
GAS MEASUREMENT DEPARTMENT
P.O. BOX 2081, 1100 STATE STREET
ERIE, PENNSYLVANIA, 16512

ARTICLE III

TERM

(A) Upon the date of execution by the last of the parties identified on the first page hereof, this Agreement shall be effective, and it shall remain in effect on a month to month basis until terminated by either party by written notice to the other no later than thirty (30) days prior to the beginning of a Month.

(B) Notwithstanding any other provision of this Agreement, and in addition to any other right or remedy available to Transporter hereunder or under any provision of law, Transporter shall have the following rights, exercisable at Transporter's sole option, to wit:

(1) Terminate this Agreement and remove all Receipt Facilities at the Exhibit A Receipt Points, or suspend or cease receiving Operator's Gas at

ARTICLE III

(Cont'd)

any one or more of the Exhibit A Receipt Points, upon thirty (30) days' prior written notice to Operator, in the event that Operator should (i) for any reason experience a loss or cancellation of the security required to be provided by Operator pursuant to Article (IV) hereof, or (ii) for any reason unrelated to Transporter's inability or unwillingness to receive Operator's Gas at one or more of the Exhibit A Receipt Points, deliver through each of the Exhibit A Receipt Points a volume of gas equal to or less than three (300) Mcf during any period of thirty (30) consecutive calendar days following the effective date of this Agreement; and

(2) Terminate this Agreement as to the affected Receipt Point(s) and remove all Receipt Facilities at the affected Point(s), or suspend or cease receiving Operator's Gas at any affected Receipt Point(s), upon thirty (30) days' prior written notice to Operator, in the event that Operator should (i) fail to provide satisfactory title to the production or (ii) repeatedly violate the gas quality standards contained in Transporter's FERC Gas Tariff.

ARTICLE IV

OPERATOR'S CREDITWORTHINESS

(A) Transporter may (i) suspend its receipt of Operator's gas, or (ii) terminate this Agreement, in the event that Operator is or has become insolvent or fails within a reasonable period to demonstrate creditworthiness, or in the event Operator incurs a poor credit history with respect to any service provided by Transporter or as established by a reliable reporting agency.

(B) As a demonstration of Operator's creditworthiness and as security in respect of any remedy afforded Transporter under this Agreement or under any provision of law, Operator agrees to provide Transporter, prior to the

ARTICLE IV

(Cont'd)

effective date of this Agreement, and to keep in force throughout the term of this Agreement, any of one of the following:

(1) A security deposit in the amount of Ten Thousand Dollars (\$10,000), to be held in a non-interest-bearing account by Transporter;

(2) An irrevocable letter of credit in a form acceptable to Transporter bearing a face amount of \$10,000;

(3) At Transporter's discretion, a copy of the most recent audited financial statements of Operator (or of a guarantor of operator's performance hereunder) showing a net worth in excess of Thirty Thousand Dollars (\$30,000), or a copy of the most recent unaudited financial statements of Operator (or of a guarantor of Operator's performance hereunder) showing a net worth of at least Forty Thousand Dollars (\$40,000), in which event, Operator shall also provide Transporter with evidence of its ownership of unencumbered assets valued, in the aggregate, in excess of Ten Thousand Dollars (\$10,000) in each state in which Operator conducts any business.

(C) Transporter reserves the right to require Operator to establish or demonstrate its creditworthiness, from time to time, during the term of this Agreement.

ARTICLE V

BALANCING

(A) For purposes of this section, a "Positive Imbalance" shall occur when Operator delivers gas to Transporter at any Exhibit A Receipt Point that is not scheduled or otherwise allocable to any shipper of Transporter pursuant to the provisions of Transporter's FERC Gas Tariff.

(B) Except with regard to gas delivered at Receipt Points subject to an effective Operational Balancing Agreement between Transporter and Operator, and without limiting any other rights of Transporter hereunder

INTERCONNECTION AGREEMENT

ARTICLE V (Cont'd)

(including rights set forth in any tariff provisions incorporated by reference below), Transporter shall have the option to retain Positive Imbalances arising under this Agreement free and clear of any claims by any adverse party including Operator, in exchange for payment by Transporter to Operator of an amount equal to the product obtained by multiplying the quantities retained by the Positive Imbalance Cash-out Price set forth in Transporter's tariff.

ARTICLE VI

INCORPORATION OF TARIFF PROVISIONS

(A) The provisions of Transporter's effective FERC Gas Tariff applicable to the relationship between Transporter and Operator, and any revisions thereof that may be made effective hereafter, are hereby made applicable to and part hereof by reference. Without limitation of the foregoing, such tariff provisions include the definitions therein and the provisions regarding gas quality, measurement, measurement equipment, possession of gas and responsibility, warranty of title, force majeure and remedies, nominating and scheduling services, unauthorized tenders and receipts, and gas industry standards.

ARTICLE VII

MISCELLANEOUS

(A) No change, modification or alteration of this Agreement shall be or become effective until executed in writing by the parties hereto, and no course of dealing between the parties shall be construed to alter the terms hereof, except as expressly stated herein.

(B) No waiver by any party of any one or more defaults by the other in the performance of any provisions of this Agreement shall operate or be construed as a waiver of any other default or defaults, whether of a like or of a different character.

ARTICLE VII

(Cont'd)

(C) Any company which shall succeed by purchase, merger or consolidation of the gas related properties, substantially as an entirety, of Transporter or of Operator, as the case may be, shall be entitled to the rights and shall be subject to the obligations of its predecessor in title under this Agreement. Either party may, without relieving itself of its obligations under this Agreement, assign any of its rights hereunder to a company with which it is affiliated, but otherwise, no assignment of this Agreement or of any of the rights or obligations hereunder shall be made unless there first shall have been obtained the consent thereto in writing of the other party. Consent shall not be unreasonably withheld.

(D) Except as herein otherwise provided, any notice, request, demand, statement or bill provided for in this Agreement, or any notice which either party may desire to give the other, shall be in writing and shall be considered as duly delivered when mailed by registered or certified mail to the Post Office address of the parties hereto, as the case may be, as follows:
